FOREWORD

Another two years out of my busy life and Volume II is completed! This reference book covers vital statistical records abstracted from the Juneau Alaska Daily Empire from 1921 through 1925. The response and sales of Volume I (1916-1920) certainly was an encouragement for me to continue the research. I suspect there will be a Volume III sometime in the future.

Keep in mind when perusing the alphabetical index that the names appearing there are exactly the way they were printed in the newspaper, i.e. some were incorrectly spelled. Check the variations of spellings for surnames. I've cross-referenced where I detected misspellings. It helps to have lived in Juneau all my life and have an awareness of some of these long-time Juneau family names.

Copies of these newspaper articles referenced in this book can be made at the Alaska State Library at asl@alaska.gov or 907-465-2920 in Juneau.

ACKNOWLEDGMENTS

I wouldn't be able to undertake these projects without the cooperation of the Alaska State Library allowing me to take microfilm from their library for weeks at a time. Once again the Family History Center at the LDS Church allowed me to use their library and microfilm reader whenever I needed—which was a couple hours every day. My wonderful husband helped me proofread while we were on vacation this winter. My family encouraged me to publish and distribute this book on my own this time. A first for me! Thank you all for standing by me during these many hours of research. Your individual participation made my job easier.

1921 - 1925
