**COMMISSIONER GENERAL
RECORDS RETENTION SCHEDULE #200.1
AUTHORIZATION & APPROVAL**

The purpose of the *Commissioner General Records Retention Schedule #200.1* is to list and describe common records series that Offices of the Commissioner administer; and, prescribe mandatory minimum retention periods for those records. These records include paper documents, magnetic tape, compact discs, dvd's, flash drives, hard drives, floppy disks, microfiche, microfilm, maps and all other recorded information, regardless of medium or characteristics as defined in AS 40.21.150 (6). Commissioner's Office staff may also refer to the *General Administrative Records Retention Schedule* or their own specific Commissioner program schedule for guidance.

Records and their proper maintenance are a matter of law and fact. Alaska Statute 40.21 (*State Records Management Act*) and 4 AAC 59 (Archives & Records Management Services) provide the necessary legal framework for the administration of the State of Alaska's records. As records constitute a risk that must be managed properly to minimize the liability to the State, Alaska has established an archives and records management program within the Division of Libraries, Archives & Museums to assist state agencies in mitigating this risk.

4 AAC 59.020 (c) requires agencies to follow general records retention schedules that Archives & Records Management establishes. This general schedule enables offices to further comply with AS 40.21.060 (2), which mandates each agency chief executive officer to establish and maintain an active, continuing program for the efficient management of its records and to apply the provisions of approved records retention schedules to ensure the orderly disposition of state records.

An approved records retention schedule is the legal authority to dispose of records under 4 AAC 59.015 & .020. Records not identified on an approved retention schedule may not be destroyed without authorization from the Attorney General, Commissioner of Administration, State Archivist and Chief Executive Officer of the agency (4 AAC 59.025).

Under the provisions of 4 AAC 59.020, the retention periods for records listed in *Commissioner General Records Retention Schedule #200.1* are approved for retention and disposition as indicated.

All records are nonconfidential unless identified and cited otherwise (e.g., confidential, classified, sensitive, privileged) by the Commissioner, *Alaska Statutes*, *Alaska Administrative Code*, or Attorney General's Office.

AUTHORIZATION & APPROVAL

Under the authority of AS 40.21 and 4 AAC 59 the records listed on *Commissioner General Records Retention Schedule #200.1* are approved for retention and disposition as indicated.

Disposition of State Records—General Rule

The suggested timeframes for retaining common records series must be followed by all Commissioner's Offices, unless the Commissioner has a program records retention schedule that stipulates a longer retention period. Offices that dispose of unscheduled records must dispose of them in accordance with 4 AAC 59.025. Whenever the records contractor or other vendor in Juneau or Anchorage performs destruction services for scheduled, unscheduled or confidential records, the Office must complete a *Records Disposition Authorization* form. The Commissioner, Records Officer and State Archivist must sign the *Disposition* to fully authorize the destruction. Duplicate copies of documents may be disposed after all administrative and management need is met.

In the event you become aware of a public records request under 2 AAC 96, actual or threatened litigation, audit or investigation that may concern a group of records, **Do Not Dispose** of records until authorized to do so by the Attorney General's Office.

The General Schedule & Electronic Records

This *Commissioner General Records Retention Schedule* applies to records regardless of their physical format. Therefore, records created or maintained as the **Record Copy** in electronic format must be retained in accordance with the minimum retention requirements presented on this schedule.

GENERAL INFORMATION & INSTRUCTIONS**

Definition of Record

AS 40.21.150 (6) defines "record" to mean "any document, paper, book, letter, drawing, map, plat, photo, photographic file, motion picture film, microfilm, microphotograph, exhibit, magnetic or paper tape, punched card, electronic record, or other document of any other material, regardless of physical form or characteristic, developed or received under law or in connection with the transaction of official business and preserved or appropriate for preservation by an agency or a political subdivision, as evidence of the organization, function, policies, decisions, procedures, operations, or other activities of the state or political subdivision or because of the informational value in them."

Definition of Electronic Record

AS 40.21.150 (4) defines "electronic record" to mean "any information that is recorded in machine readable form." Refer to 4 AAC 59.005 regarding requirements for the retention and preservation of electronic records.

"Record" Electronic-Mail [E-mail]

The State of Alaska runs on e-mail. E-mail is created, received, and transmitted on an electronic mail system. E-mail that constitutes a "record" as defined above in AS 40.21.150 (6), including attachments that are transmitted with the e-mail, is subject to this *General Records Schedule*. Record e-mail, which also may include text and instant messages (text messages in real-time), shall be retained for the same period of time as the records series that most closely matches the subject matter contained within the e-mail. E-mail that is declared a record shall be archived in retention folders or buckets within the *Enterprise E-mail Archive System* [or other system approved by the State Archivist]. E-mail that is listed as **Permanent** on a records schedule shall be archived in a 99-year retention bucket and printed out for transfer to the Alaska State Archives in accordance with the appropriate schedule.

Non-Record E-mail

E-mail, attachments, text and instant messages that are not "records" as defined in AS 40.21.150 (6) may be destroyed immediately. Non-record communications include those of a transitory nature primarily generated for informal transmission of information, not the perpetuation or formalization of knowledge. [Refer also to Item 9, Transitory & Miscellaneous Administrative Information.] Personal messages constitute non-records as they are not "accounts" or "writings" "developed or received by a public agency," and are not "preserved for their informational value or as evidence of the organization or operation of the public agency" under AS 40.25.110.
