Imagine standing on a beach at the shore.

Imagine standing on a beach at the shore.

You look out toward the ocean. . .

You look out toward the ocean...

But instead of the ocean, you see islands - -
islands right in front of you, and islands
off in the distance.

But instead of the ocean, you see islands -
islands right in front of you, and islands
off in the distance.

The islands have tall mountains on them - -
mountains with steep sides that come right
down to the shore !

The islands have tall mountains on them -
mountains with steep sides that come right
down to the shore!

The mountains are covered with tall, tall
trees: spruce, hemlock, and cedar.

The mountains are covered with tall, tall
trees: spruce, hemlock, and cedar.

You turn around and look at the beach you are standing on. The beach is rocky and narrow. Seaweed clings to the rocks up to the tide line. And right at the edge of the beach, you see more tall, tall trees.

You turn around and look at the beach you
are standing on. The beach is rocky and
narrow. Seaweed clings to the rocks up to
the tide line. And right at the edge of the
beach, you see more tall, tall trees.

The ground slopes up and your eyes follow
the shape of the ground -- up, up, to the
top of another big mountain right in front
of you.

The ground slopes up and your eyes follow
the shape of the ground -- up, up, to the

of you.

You decide to walk into the forest. You go to the edge of the rocky beach and look between the trees.

the edge of the rocky beach and look between
the trees.

It is dark in there, because the trees are so tall and thick that they block out all the sunlight.

the sunlight

You go in anyway. The ground feels spongy underfoot. You look down and see moss -- soft, wet moss. And mushrooms. And tall ferns. Blueberry bushes as big as you are. And a big prickly plant called devil's club that will sting you if you touch it.

You look down and see moss -- soft, wet moss. And
mushrooms. And tall ferns. Blueberry bushes as big
as you are. And a big prickly plant called devil's club
that will sting you if you touch it.

It's hard to walk through the forest, because there are so many plants, bushes, and fallen trees in the way. You feel a cool wet breeze on your face and breathe the wet sweet air. You begin to hear a light pattering noise. You look up - - it's raining a light, drizzly rain.

It's hard to walk through the forest, because there are so

It becomes more difficult to walk as the ground slopes up more and more steeply toward the top of the mountain. You decide to walk back down to the beach.

You decide to walk back down to the beach.
It becomes more difficult to walk as the ground slopes
up more and more steeply toward the top of the mountain.

It's raining now, and the clouds are low. You can't see the tops of the mountains on the islands any more.

It's raining now, and the clouds are low. You can't see the tops of the mountains on the islands any more.

For the first time you notice the sound of running water. You look around you -- and see that there are lots of streams and waterfalls tumbling down the mountains, out of the forests onto the beaches, and into the sea.

For the first time you notice the sound of running water. You look around you -- and see that there are lots of streams and waterfalls tumbling down the mountains, out of the forests onto the beaches, and into the sea.

Suddenly you become aware of noises -- animal noises !
The islands, forest, ocean, and beaches are full of
animals! You look around in surprise and you see. . .
