Gambel St. Lawrence Is. Alaska,
Sept. 22-1934.

Commander Fredrick Zensler,
3721 Cascadia, Ave.,
Seattle, Washington.

Dear Com. Zensler, —

I have promised to send you a note the last time when you pay visit. Many thanks for the bars you had given me for the children. They enjoy them very much and wished to thank you.

I have made you a salt and pepper shakers but I cannot carve anything on it because the ivory is not large enough, but I hope they are satisfactory. I etched some picture on them and hope they will reach you safely. You can pay me what you think is right and I will be satfied. If I am well I'll try to find a large walrus tooth to make you a pair during the winter and will try to carve an animal on each side. You can have cork for plug.

Any thing else you think of I will be glad to mail to you the next summer, I mean in fall.

The people are all well except the three sick person had passed away, and one or two more

babies born.

I will be very glad to hear from you, when you have time.

With best wishes I am,

Your friend,

Paul Silook.

P.S. If you can spare some envelops and letter paper, I would be glad to have.
