Gov. etc. of Alaska

3/18/1946 (Monday) Senate Memorial No. 1. to Pres. Truman and Sec. of Interior Julius Krug, asking immediate removal of Gruening.

3/19/1946/2 VG. Two views on the Gruening affair: Sen. Memorial No. 1. and House Resolution No. 2. The latter introduced by House member Stan McCutcheon.

SENATE MEMORIAL 1.

Whereas: The Federally appointed Governor, who is not responsible to the people of Alaska, has seen fit to attempt to use his Federal Office for political purposes.

Whereas: He has written official letters from the Governor's office to members of the electorate soliciting their votes for certain candidates in purely local elections.

Whereas: He has used Federal as well as Territorial funds under his control for purpose of printing and distributing booklets attacking certain members of the legislature, etc. in Federally franked envelopes and has also used his appointive powers for political purposes.

Whereas: In the past three sessions of the Territorial

Legislature he has attempted to wrest control of the Legislature from the people and place it in the hands of his office, and in so doing has disrupted cooperation, and brought about stalemates between the two houses of the Legislature.

Whereas: This Legislature finds it increasingly difficult to mold legislative policies in freedom from executive decision.

Whereas: Under the Organic Act the Gov. of Alaska has the power to veto an and all legislation passed by the Legislature, whether or not it pretains to Fed. function.

Whereas: The present Governor has abused this privilege by vetoeing bills of purely local concern for political purposes.

Whereas: No other Governor ever has---etc.

Whereas: This Senate respectfully prays the Governor be removed from office with all possible dispatch!
