## HISTORICAL NOTE

In 1959, the functions of Alaska Territorial Dept. of Fish and Game, Fish and Game Commission, and Fisheries Experimental Commission were abolished by session law (Chapter 64) and their functions were transferred to the newly created Alaska Dept. of Fish and Game. A Commissioner of Fish and Game, appointed by the governor, was its principal executive officer. The Department administers Alaska's commercial and sport fisheries, birds, game and fur-bearing animals, licenses and fees, trapping, fur-farming, fish hatcheries, habitat and taxidermy.

## SCOPE AND CONTENTS NOTE

Dept. of Fish and Game employees photographed or acquired the images in this collection. Many of the first 155 photographs have individual descriptions while the remaining views are arranged by subject. Subjects include Dept. of Fish & Game vessels, tagging and other activities of the department, hatcheries, canneries, southeast Alaskan islands, coves and bays, birds, marine animals, game and hunting.
