Guide to Collection

United States Geological Survey

Aerial Map and Stereo Images; 1948, 1959, 1980

PCA 555

1 Folder - 7 oversize radar stereo images
1 Box - b&w stereograms

Processed by: Sara Bornstein, Dec. 2012

ACQUISITION: This collection contains two accessions. One collection was accessioned from Arizona State University's Map Collection, February 7, 2011. Acc. # 2012-055. The other accession comes from Evergreen State College Library in Olympia, Washington. Acc. # 2012-058.

ACCESS: The collection is unrestricted.

COPYRIGHT: Request for permission to publish or reproduce material from the collection should be discussed with the Librarian.

PROCESSING: One copy of each of the stereogram images has been digitized.

SCOPE AND CONTENTS NOTE

This collection has two series. The first series consists of seven oversize radar stereo images, radar image mosaics, and a radar image map of Ugashik. The second series contains stereograms of Alaskan glaciers within the First Judicial Division, prepared from the U.S. Coast & Geodetic Survey photography by the University of Illinois. The collection is organized by stereogram number.

SUBJECTS

- Maps
- Radar Stereo Image
- Radar Image Mosaic
- Radar Image Map
- Glaciers
- Aerial photographs
