February 14	Fairbanks Alaska. The citizens have formed three companies and are armed with rifles and ready to put down the Western Federation rioters if any effort is made to attack non-Union men or burn the town as they have threatened. The saloons are still closed. Marshal Perry will undertake to take the non-Union men out to the Creeks tomorrow - and no one can tell what will be done by the strikers there. The business men have acted in a drastic and effective way toward the "Times" - every business advertisement in town was taken out yesterday and it looked lean & hungry this morning - it headed its editorial columns with a wail - and the statement that it would continue its course of support to the strikers.

February 15	Attended the A.B. Ball last night at the Aud =itorium – Debbie & I. As neither of us dance we spent the evening in a box visiting with our friends – and a pleasant evening too. The Hall was beautifully decorated – with flags & special scenery of roadhouse life. The citizens have evidently cowed the bully in the Western Federation – this morn =ing the strike breakers were sent out to the creeks without notice – <u>in town</u> . A number of deputies went with them and there may be trouble on the Creeks. The

February 16	Sunday - Barbour of the Washington - Alaska Bank consulted with me yesterday and also today about the conditions of the issue of certificates made by his bank in connection with the First National at the time of the closing of the Fairbanks Bank. Barbour's bank has issued about \$25,000.00 & the First Nat. about \$100,000, and all certificates say on their face that either bank will receive them on deposit as cash. A difficulty has now arisen between them because the 1 <sup>st</sup> Nat. wont accept their own certificates from the W-A, and give outside exchange – where as they will accept them for outside exchange from outsiders. Advised him fully about matter - Barbour employed me as attorney for the bank - temporary agreement

Diary 14, 1908 February 17	-17- Jesse Noble of the Dome City Bank employed me today as attorney for that bank - \$1000. per annum retainer - fees for papers & attorneys fees allowed in notes & mortgages & reasonable fees in other cases. The "Strike" is quieting down - strike breakers have all gone to the Creek & no trouble so far. -18 <sup>th</sup> -

After an hour they returned & reported that Clem desired more time - until tomorrow evening to determine the question. There was nothing else to do – with McGinn, Hall, Jackson & Myers – whom I supposed all Cale men in favor of Clum - so unexpectedly there was nothing else to do but to adjourn - & we did. It was said for Clum that the Times crowd & the Western Federation under Steffensen would support him - & when McGinn & others who represented the strongest opposition to the Times Federationists for him - nothing remained but to take a new start.

March 10	The "Times" this morning has issued a call for a Republican mass meeting tonight at the Auditorium, and in a labored editorial announces that an attempt is being made to endorse Corson, against Cale!! They say nothing about Clum, but seem to be trying to fool the people into believing that they are for Cale! Later: McGinn came in & said he intended to issue an interview saying that tonight's meeting was without the authority of the Central Committee - but he seems to want them to act, as it will be unauthorized - then he will call the regular primary & give the latter the credentials. Evidently Clum gave away last nights meeting to the "Times".

March 12-13	Times this morning denounces McGinn's notice saying that their call was unauthorized & publish a telegram from Geo. Irving, of Ketchikan saying that they have the right to call an election – they refer to Irving's telegram as "an authoritative determination of the matter by the Territorial Republican committee". Irving was the chairman of the territorial convention two years ago – he is now a last year's bird's nest – but a willing tool and liar. -13- Wells, the new clerk of the District Court, arrived here on the stage this morning - or last night - I don't know which. I am in great doubt about the truth of the telegram, although today the <u>News</u> has similar telegrams. The Times-Federation primaries are being held this afternoon - no contest. McGinn intends to call the regular Republican primaries at a later date & let them go today - & see how many there are &c. -15- A shooting scrape occurred at the Ry depot this morning as a crowd of strike breakers were going out to the creeks on the train - Dribelbis & Phil. North - deputy marshals, were

	many weak kneed business men are signing it, but those who are really in favor of cleanly and orderly administration of city affairs & the settlement of the strike are against them. It was a blow to disorder & rioting when the licensed were revoked & will do more than a hundred deputy marshals to preserve order. "Strike breakers" as they are called by the strikers - independent laborers who do not belong to the Union are coming in today - walking from Valdez. The strike is about broken & must fail - & Steffensen the Organizer, & inciter to Riot, is in jail & liable to remain there until court convenes.
Diary 14, 1908 March 18-20	-18- Trouble is brewing at the Dome City Bank - Jesse Noble is drinking & making a fool of himself generally, but particularly in fighting with his wife's sisters who have the money in the bank. Margaret Mulrooney - his wife's sister - told me today that he drank 10 bottles of champagne last night -which is going some for even a "rough-neck" miner. Darrell is back in Bremerton. -20-
	Telegram today appointing Strong, from Chena jury commissioner with Stier to draw juries for April term of court. I do not know Strong but "they say" he is a Union man - well, I don't care, I can get along with any jury that anyone else can. Nothing doing in politics; I have informed my friends that I <u>would not</u> be a candidate for Congress or anything else - so there, now.
Diary 14, 1908 March 21	-21- Bruce was defeated last night curling - three rinks now a tie – Bruce Mowatt & Hingston. We may have to play a series of games to decide the championship. Warm, windy & snowing – regular March weather. Business enough to keep me busy - The new Clerk, Wells, is here but wont take office till April 1, but two new deputies took hold yesterday - and Stier "roared" and fumed and made himself generally disagreeable. Erwin, Com. has sent in his resignation to take effect April 1, and is pleasant about it. Dodge-Maddocks etc. are now pressing their attentions upon the new men & trying to form alliances with them -really, they think

	all officials are dishonest & they are trying to get in first - hardly complimentary to the new men - I'll
	keep away.
Diary 14, 1908 March 22-23	-22- Working all day in office on a case which needs to be ready tomorrow morning. The Times this morning compliments McDonald, one of the deputy clerks - he was at Maddock's with Noyes & others to dinner a night or two ago - they are making hay while the

	Began case of Jurack v Dunbar et. al. small case of fraud &c. Also begun case of Smith v Jesson – an Ester Creek mining case & We had a meeting of the stockholders of the
	Alaska Stibnite Co. and the Conwel Gold Min. Co. tonight at Heiligs office. It seems that Lloyd & Taylor have two men working for them - \$5.00 per day & board. They have located about 60 stibnite & quartz claims & if the assays all run pretty good
Diary 14, 1908 March 23-28	23 some of them very high. The mines are located on Moose Creek, just where we crossed it in 1903 on our way to Mt. McKinley. We passed over both veins at that time. Tozier got much information from Stibnite men in New York, & together with our assays the whole enterprise looks like a fair prospect, but no more. My relations with the Washington-Alaska bank seem to be good & I hope that matter will turn out. -27- <u>The Nome Republicans endorsed Cale</u> & turned Corson down - good. Local politics beginning to simmer. Business looking good. -28- My law practice is better than I expected - think I'll average \$1000 month for the year if it keeps up as it has begun - certainly it beats the

Harlan is sick — too much "booze" & is going outside - we think for good. Debbie is getting well and strong after nearly six years sickness - she now weighs 130 pounds - a gain of 16 or 18 - & looks well – Darrell's weekly letters now come from Bremerton - his last suggests that he is in love!! My, but he is slow in catching it!! $-29^{th}$ - Sunday, but spent greater part of the day at the office trying to get a problem settled for Jesse Noble - failed, the other party was sparring for time. Stage in from Valdes with Parsons & Joslin. The "Citizens Ticket" announced last evening in the "Tribune" - think McGinn & my friends are responsible for it - most men on it are good men. $-30^{th}$ - Days long, weather warm -spring just across the mountains to the south - better still spring settles down in this wide flat valley early & summer remains late- April 1.
Diary 14, 1908 April 1-3 Diary 14, 1908	Stage out today carries Mr. N.V. Harlan, U.S. District Atty, who, I am informed by -1- Marshal Perry, has tendered his resignation to take effect on May 1st. Poor old man he has gone to the bad since Ed's death -and is a broken wreck - I feel sorry to see a good man fall morally and physically like he has fallen. -2- Judge Reid will be in in two days - he is on the trail from Valdes. On yesterday Stier, clerk, vacated his office and Mr. O.A. Wells took his place. Erwin, Comr. vacated & Goodwin, Judge Reid's brother in law takes his place as soon as he & the Judge can get here - in two days. -3- The times has a dispatch purporting to be from Washington saying that in the hearing before the Territorial Com of the House of Rep.

Hoggatt but I really supposed that he would not betray a confidential communication from a friend - but he did. So far as the contents of the letter are concerned, the only thing in doubt is just what was meant - Hoggatt will claim to the extent of his present negative attitude while I had reference to his then reasonable position. The Times also had a front page spread insisting upon its assertion that Sulzer, of N.Y. was opposing Cale & territorial government - & reopening	
Diary 14, 1908 April 3-4	3 a lot of stuff from the Seattle papers in support of its position and it asked "Who lied?" Just two days ago I have received <i>a</i> letter from Sulzer denouncing the story & asking me to refute it - so I sent his letter to the News, and in the same position on their front page, under the big head	
	"Who lied?" the letter demo-lashing the Times fake was published. I expect the Times will now devote a few columns of abuse to me. -4 <sup>th</sup> -	
	The "Times" has a two column editorial - weak and watery - trying to square themselves on the Sulzer letter -but in vain. <u>Judge Reid &amp; Party Arrived in Fairbanks at 3</u> <u>o'clock this Afternoon</u> . Goodwin, Comr. Burton, asst. Parkes Stenographer & one or two others.	
Diary 14, 1908 April 4-7	4 Met Judge Reid in Mrs. Cards restaurant first - my first impression was a good one. <u>I am satisfied</u> - <u>now</u> . -6- Received letter from Stephen Birch, coast representative of the Morgan Guggenheim Copper River Ry & Copper combination, asking about my plans for future work & if I am open for engagement as General Counsel for their interests in Alaska.

	Feb. 14, 1908 through Oct. 12, 1908
	<u>Election Day</u> . My friends have been busy for several days in the hope of defeating the Times- Dodge-Maddocks gang in the city election. They had a good organization & did such effective work that but two council men of the opposition and they the best ones, got in, - five of our fiends being elected. The object of the
Diary 14, 1908 April 7-8	7 opposition was to Have Capt. Westby, who is Senator Nelson's friend, reelected as Chief of Police, & Henry Roden elected as City Atty. Their defeat precludes the election of these men & buries Dodge & Maddocks in the ruins of their combination with the Eastern Federation of Miners - In the last local Election - last September - the fight was over my endorsement - Dodge Maddocks & the Times fighting it - my friends won & I was elected a delegate from the Juneau convention to the National Republican Convention in consequence, but this last local election is even more serious to them for it robs them of the offices and local money sack.
	Wrote Birch saying that I would accept General Counsel for his Alaska Companies for three years contract at

I don't care whether they accept it or not for my business here is proving very much better than I expected and I am free! Also received telegram from Frank H. Hitchcock asking about Taft's chances for the delegates from Alaska and why the Tanana Rep. primaries are not called. -9 <sup>th</sup> - Telegraphed Hitchcock says "No known change public sentiment or political situation. Primaries called today for April 15 <sup>th</sup> ". New council has agreed to elect Miller in place of Westby Chief of Police - the portion of the selection which pleases me is that Westby goes out. Now that he is licked the old blackboard whines like a child. It was easy to

	damn others, but it's different when it comes home.	
Diary 14, 1908	-11 <sup>th</sup> -	
April 11-12	Five years ago today I first reached Fairbanks - a mere clearing on the banks of the river - Barnett's log store & Marston's road house being the most pretentious - and almost the only buildings here. What a change! Courthouse, schoolhouses, churches, blocks of fine	
	buildings, railroad, etc. etc. -12-	
	The "times" today give me editorial roasts - upon the theory that I am a candidate for Congress. They quote the Juneau Record - Hoggatt's paper, also, and are as nasty & mean as possible. It looks as if Dodge had written the editorials. Fine spring weather.	
Diary 14, 1908	-14-	
April 14	My law business is greater & better than expected. Made my first appearance before Judge Reid yesterday & today. Have filed yesterday & today two good live suits & Hill soon control more litigation than any other lawyer. I am more inclined toward Judge Reid than heretofore - he is, I think, a brave honest man, and so far as I can discover his principal fault is that he jumps at conclusions without hearing the end of the argument - but that merely shows a rapidly working open mind. He has already decided two important matters against the deJournel-Roden-Dundas crowd & next thing they will be saying as Pratt did of Judge Gunnison " <u>He</u> <u>dont know any more law than Wickersham</u> "

The Republican primary election to elect 14 delegates to the Ketchikan convention was held today. McGinn & his friends had up a ticket, and a combination between Corson – and Clum undertook to elect the ticket which they put through their mass meeting on the 14 <sup>th</sup> of March last. It was a square fight between McGinn's ticket & my friends supporting it, and the Times-Corson-Clum- Dodge combination & our ticket won out by a small

Diary 14, 1908 May 4-5	4 This bunch wanted a change - they stood in with my enemies & especially with the "Union-Federation" - & now they are getting it. Also such people as Gordon, Vachon, & a lot more of the business men - I can now sit back and smile. Several of the indicted ones have been to get me to defend them. I have refused to do so, and suggested that they get McGinn & Roth the first to aid them in the law - the last to "holler". -5- Poor Dodge! His one basic grievance against me - the one which he has always depended upon		
	because it had some semblance of fairness was my opinion and ruling in the case of Johanson v. White wherein I non-suited his client, the plaintiff.		
Diary 14, 1908 May 5	5 He got it into the circuit court of appeals with Pratts assistance & my action was reversed! Like all lawyers who practice on a personal enmity basis Dodge took this as the end & immediately exhibited it as irrefutable proof of – not my error in law or judgment, - but my wickedness and malice. Well, the case was set for trial the second time before Judge Reid & was concluded today – the judge gave the same instructions – a little bit worse – than I did & the jury found against Dodges client in a few minutes! & then Pratt & Dodge <u>did</u> how!! Pratt went out of the court room cursing the court – he had a row with him in court & Judge Reid rebuked him severely - & Dodge is now out and cannot get back. He lost out in the city election – in the election for delegates to the Ketchikan Convention & now has finally lost the only suit that he has ever won! Poor Dodge!

Diary 14, 1908	-10-
May 10	Court work is being pushed hard by Judge Reid. He is
	working good & dispatching business rapidly & well. So
	far he has followed my line of instructions and law in the
	questions of Discovery, Possession etc. in mining
	cases, and Pratt said to one of the attorneys that "he is
	worse than Wickersham"
	I am greatly pleased that he has taken such a stand for
	it is certainly in the interest of the development of the
	best interests of the country. One thing which he does
	that I don't approve - he grants injunctions to stop work
	on mines or ditches etc. without notice - just ask and ye
	shall receive. I think its the wrong principle of law.
Diary 14, 1908	-12-
May 12	Telegrams from Ketchikan today say that the
	Regular Republican - Boyer - McGinn delegates
	from Fairbanks were seated & the Federation-
	Times ticket denied admittance to the Territorial
	<u>Convention</u> . This is good news, for it turns the
	Hoggatt-Dodge crowd down hard. News telegrams

	delegate but that ray friends said most emphatically that I would not accept, & that Cale would probably be nominated.
	My court business is highly satisfactory. I am getting all the good business I can attend to - my last months cash

Diary 14, 1908	-14-
May 14	First telegrams from Ketchikan were based on hope rather than on facts, seemingly, since the Hoggatt crowd got the temporary organization & jobbed our fellows out of the convention. News today is that Corson was nominated for Congress & Hoggatt endorsed! It puts Corson in a

Dodge has complained of the officials in Alaska meddling with politics & the first clatter out of the box he puts poor Judge Reid into the position of partisan follower of his faction - in a divided convention!! Now, I am glad I kept out of the delegate fight! -19-

The Grand Jury brought in its final report - they scored the Maddocks - Noyes steal in the erection of the School House & criticized the Dodge Westby city grafters good.
Diary 14, 1908 May 20	-20- Lord, how the Times does howl this morning about the Grand Jury's report. They fight back hard, but it is so apparent that they are hurt - wounded to the bone. A funny incident happened last evening as the "Tanana" was about ready to go - Dodge came rapidly to the boat -but "Waterfront" Brown was there ahead of him - Brown produced yesterday mornings Times with an editorial slandering him & asked Dodge if he wrote it – D- said yes, whereupon Brown hit him in the mouth cutting his lips etc. An officer moved in & separated Brown from his begging and cowardly windbag and Dodge started off with a black eye for Chicago. This
Diary 14, 1908 May 20-25	20 mornings Times had another Editorial roast of Brown - who went down there and upon inquiry was told that Dodge had written the articles & telephoned them from Chena - and then sailed away! The Democratic Convention at Juneau nominated <u>Jack Ronan</u> for Delegate, on an eight hour labor plan in the Platform. Its funny! -22- Recd, telegram from Judge Reid at Ft. Gibbon,
	withdrawing objections to the building of bridge above Cushman St. & leaving in full force the injunction against the Turner St Bridge. This makes the lower bridge people mad, - & the end is not yet. -25- Town Council passed an ordinance establishing city wharf and dock on

	retain me in the Alaska Central Ry litigation: I answered saying "Am employed by Ballaine. Suggest John L. McGinn". Steamers from Dawson coming in. -26-
	McGinn received telegram from Frost today, employing him in the Alaska Central Case!

Diary 14, 1908 May 26- June 1	26 We learn now that Dodge changed his mind about going to Chicago via Dawson - & went to the Innoko stampede

	We are informed today that the Noyes part of the News purchase failed, but that Roden, Hickman and an unknown purchased it. -5-
	Dan Jonas today interviewed Hickman of the News: Hickman said that the News policy was for sale and offered to support Cale for \$2500: Dan is out trying to arrange for the purchase of the support of " <u>the only</u> <u>paper without a string on it</u> ," as their motto reads!!
Diary 14, 1908 June	5 The lakes above Dawson – La Barge - not yet open and Judge Reid still 14 days from the Chicago Convention to meet on the 16th. Everything quiet here, but my business picking up every day - I am surprised and pleased at the general offer of business - the best business in the Territory. Have received lately a letter from Strong & Cadwalader, 40 Wall St. N.Y. attorneys asking for my opinion in a mining case & at about same date received telegram asking that substance be sent them by telegraphy & that a representative of their firm would leave Seattle on the 16th for Alaska! and asking where he could consult with me. I answered - at Fairbanks. A rainy summer so far!
Diary 14, 1908 June 8	-8 <sup>th</sup> - Received letter from Stephen Birch about his desires that I be employed as the general counsel for the N.W. Ry. & Steamship Co. etc the Guggenheim-Morgan exploiters of Copper in Alaska. Nothing done yet, & I am satisfied that nothing can be. He tells me that Bogle & Spooner are serving the Co. for \$1000. per month - I asked \$15,000. a year! I am glad I did ask that amount. Things may come around in time so that I can assist Birch - but I am not inclined to hurry the situation for I can make more money as I am. My business here is good and it will bring me as much or more than that Co. pays B&S. at Seattle & I am, as Birch says, a free lance!

McGinn dissolved partnership with Sullivan - who is on a long & protracted spree. He did right and ought to have done it long ago. Darrell's vessel still on Puget Sound, but will start on her journey with the American fleet around the world in a few days - a great armed demonstration for peace. Hope the boy has a good trip.
Diary 14, 1908 June 9	9 A lot of Cales friends meet at Doherty's hall last night & organized a Cale Club. The Clum people tried to get the Union men - the Western Federal of Miners - to endorse him - but it ended in a row. But little interest yet in the delegate fight. The N.C. Co. is backing Clum, based on post office graft: Corson will have Hoggatt to carry, while Ronan, the Democratic "warhoss", - the President of the Mine owners organization, - the importer of laborers to break the strike for an 8 hour day, is running for Congress on an 8 hour platform!! It's a mixture and

McKinley - today I entertained <u>Shelden</u> , hunter scientist, & friend of Roosevelt's & James Garfield. at dinner & we talked the whole matter over and read my diary, etc. & enjoyed a good long conversation about the great peak, and the wilderness around about it. -22- The adherents of Clum are calling a select but ostensibly a public mass meeting for tonight to give his candidacy for Delegate to Congress a boost it is intended to send out the reports as if it were a spontaneous public endorsement from the Tanana - <u>I</u> am taking political measures to -22- defeat his scheme - my friends have been notified and several of them will be present and if opportunity offers will take such advantage as the occasion offers. -23- Well, the Clum meeting was a large one - because my friends went. They called on de Journel who was present as my friend & his speech was a bombshell -
	for he wound up a brief discussion of the relative merits of Corson, Ronan, Cale and Clum by declaring that he was in favor of a new man - and then named me as his choice. A large and spontaneous (though carefully prepared) applause greeted him & the "fat was out in the fire". <u>I became a candidate</u> !! My office has
	23
	been full of callers all day & I have authorized a statement that I would be a candidate if the people of the Tanana would support me.
	[clipping] Auditorium Is Packed at Meeting to Endorse Candidacy Of Fairbanks Man-Many Prominent Men, Including Three Divines, Speak in Support of Local Postmaster's Candidacy-de Journel Springs Surprise. A tremendous showing for the popularity of Major Clum, a mass meeting gathered at a rally for him last night filled the Auditorium to the limit of its capacity, and overflowed into the street. By far the most significant gathering of the campaign, the meeting developed a political interest by which the community at last will be

waked to the importance of the oncoming election. Where there has been a deplorable lack of attention to the campaign heretofore today groups everywhere are discussing it eagerly, and everyone is studying all its phases with a view to helping fill properly the office that can be made of vital concern to the territory's interests in the near future.

Dr. S. Hall Young who opened the meeting, spoke in eulogistic terms of Mr. Clum as a loyal citizen and able official, and urged his cause with a zeal that bespoke his political preference more plainly than did his declaration of being a supporter of the candidate.

Father Corbley followed. He gave to his remarks on behalf of Mr. Clum the greater weight by the preface that he was a believer in democratic principles and a follower of William Jennings Bryan. The speaker was of democratic faith in the present campaign, but believed Mr. Clum a republican, to be the best choice.

## de Journel Called.

Explaining that the church had been pretty well represented, Dr. Young suggested that men in other callings would next be in order, and thought the legal profession should be represented. Seeing Mr. De Journel in the audience he called upon the well known attorney to come forward. Mr. de Journel was to prove the big surprise of the meeting. He had warned those in charge not to call upon him, as he had considered what he would have to say would not harmonize with the general expressions of the gathering.

Mr. de Journel then proceeded to deliver one of the most remarkable speeches, given utterance under most unusual conditions, ever delivered from a Fairbanks platform.

He took the position of a man studying the present campaign for the purpose of discovering the candidate who will likely succeed in getting the most to be had in Washington for Alaska.

Working up to his final startling conclusion, the speaker paid his compliments to the three candidates other than Mr. Clum.

Mr. Cale, he had found, had three claims to distinction for a tem at Washington. First he had succeeded in amending the mining regulations on assessment work to compel the claim-owner to sink 20 feet, and if the hole

June 24-25	My friends have called a mass meeting at the Auditorium tonight go give my candidacy for Delegate a boost. Hope we don't strike a "de Journel bomb". Clum started for Nome today & Corson is coming into the interior. I sent telegrams today to the following newspapers announcing my candidacy, Sam Wall, "Alaskan", Skagway; Ed Russell, "Dispatch" Juneau. Gov. Swineford, Ketchikan; Wrangell "Sentinel" – "Prospector" Ritchie, Valdes; Seward Gateway, etc. I am going to plant myself squarely on Territorial and local issues tonight at the mass meeting. -25-
	Great meeting at the Auditorium
Diary 14, 1908 June 25	25 last night - full house up & down - 500 people - men. John F. Dillon presided - Falcon Joslin made a brief address & I talked an hour and gave them my views on Territorial government questions, 8 hour law, mining inspector, abolition of the association or group raining claims, fisheries, transportation, <u>Lease Laws</u> , etc. I received a royal welcome and much enthusiasm was shown. I quoted every plank from the local labor platform, discussed it - the audience adopted it & so did I. It was not hard to do as they were with a few minor exceptions entirely satisfactory. The times this morning gave a fair account of the meeting & no comment, & the News is publishing my speech in
Diary 14, 1908 June 25	25 full tonight - one entire page. Altogether I am satisfied with my first appearance and it looks good enough to warrant me in going on. The News is giving me every aid it can - and I hope to get it entirely and work editorially & all soon I learn that the Times has refused to support Ronan, the Dem. candidate & 1/3 owner of Times - and I anticipate trouble when he reaches here - trouble to Maddocks & his friends - but I will greatly enjoy a scrap in that quarter. I am going to hare trouble to gather my supporters, however, as many of them have sworn allegiance to Cale & others, still!! Cales

	Received telegram from Light this morning saying:
	" <u>Cale will withdraw if you will run otherwise not rush</u> answer".
	I shall not do it. One of the serious objections now is
	that the " <u>News</u> " is in financial straits and is about to
	betray Clum - who gave it - Or Roden for it - \$500. in cash & his note for \$500 and it now proposes to save
	itself from Barnette to whom it is indebted to sell out to
	Corson for enough to pay Barnette. That could bring both the daily papers at home against me - it is not
	worth it. Roden, of the News, has just left me - he is

	a great anxiety to get assistance - form me and my
	friends if possible -but from Corson rather than
	bankruptcy.
	I strongly urged bankruptcy as a preference, and sought
	to show him that his support of Corson for money at
	this moment meant personal dishonor and disaster to
	him & the Territory. He wants me to assist him in
	loading the News upon Roediger.
	Recd, telegram from Maloney & J. Heid, Juneau, saying " <u>Cale has withdrawn. Universal demand you</u>
	run. southeast Alaska strong for you. Authorize
	announcement. Answer."
	An hour afterward the "Tribune" - McDonald. received
	telegram from light announcing Cales withdrawal. The

	Cale Club sent telegram to Light asking Cale to endorse my candidacy! My friends are urging me to reenter the race.
Diary 14, 1908 July 15-16	-14- My friends gathered in office tonight & formed Campaign Committee etc. and I am again a Candidate for Congress. 	Things political boiling. Completed my campaign com- mittee etc. today and they are actively organizing & beginning this work - Many telegrams of encouragement form S.E. Alaska.
Diary 14, 1908 July	-16- Prepared an " <u>Address to the</u> Voters in Alaska" today. I announced by candidacy, explained the necessity for resting in it until Cales friends were satisfied by his withdrawal & then in fifteen pithy paragraphs set out my declaration of principles. Have been much worried about the newspaper situation - Roediger won't pay for the <u>News</u> what its present owners want, & Corson is attempting to get hold of it - for 30 days. If he does I'll have to challenge him to a joint debate to get myself set square before the public - no further chance for a hearing. I received a
Diary 14, 1908 July 17	-17- letter from Jarvis, Mgr. of the Guggenheims, from Seattle, & he strongly advised me to keep out of the race & announced his intention to support Corson. Immediately revised my address - then almost done -& put in a strong plank against Guggenheim domination in mining & transportation matters in Alaska. The point of greatest danger in my fight is at Cordova- on the Guggenheim railroad, where there are probably 1500 men at work. Probably not 10 % of them are voters but Charlie Sullivan & Gov. Hoggatt. have gone out there to vote them, and there being no guards in our election law the greed will certainly be successful unless my friends make a hard fight
Diary 14, 1908	[Wickersham's address to voters pasted in diary:]

## JAMES WICKERSHAM'S ADDRESS TO THE VOTERS OF ALASKA

At the persistent request of many friends throughout the territory I am a candidate for delegate to congress. When my candidacy was first announced my friends in Southeastern Alaska begged me to stand aside, as my appearance would divide the Cale vote and only result in the defeat of both. As an example Valdez telegraphed me as follows:

"Valdez, June 29, 1908,

"James Wickersham, Fairbanks:

"Valdez people have informed Cale club and sent out Cale literature. Ninety per cent have been for Cale. Most of them are your friends but fear at this time a vote for you will aid Corson. If you and Cale can arrange matters satisfactorily, or if Cale withdraws in your favor can give you large vote in this section. Please advise us as to your attitude toward Cale. "F.M. BROWN, "W.S. AMY,

"C.G. DEBNEY, "EDMUND SMITH, "SIMEON POOT, "Committee."

Similar telegrams were received from other points, and acting upon the advice of my friends my candidacy was rested to await developments, Mr. Cale has now wholly withdrawn and his friends have everywhere kindly urged my renewal of activity, with strongest assurances of their satisfaction and support. I have consented to run, and appeal to the voters of Alaska for support.

I shall stand for:

1. President Roosevelt's recommendation that "some form of local self-government should be provided, as simple and inexpensive as possible" for Alaska.

2. For an elective territorial legislature with carefully limited powers.

3. Opposition to the fraudulent and

## deceptive demand for the extension of the Ordinance of 1787 to Alaska.

4. For the establishment of an eight-hour day.

5. For the strict abolition of the glaring abuses of the association mining claim.

6. A law limiting the use and correcting the abuse of the power of attorney for staking purposes.

7. For such a change and proper enforcement of the law as will prevent great accumulations of mining or other public lands in the hands of speculators.

8. A mines regulation act and the appointment of mining inspectors.

9. The revision and amendment of the Alaska codes to meet the rapidly growing needs of the territory.

10. The enactment of such laws as shall protect our inland and coast fisheries.

11. The improvement of the mail and telegraph service, wagon roads and transportation facilities throughout Alaska, and the betterment of our educational facilities outside of incorporated towns.

12. A laborers' and mechanics' lien law making wages a preferred claim and a prior lien to all other debts, and especially so upon the dump extracted from a mining claim and all other property produced by the workingman's labor.

13. The encouragement of all legitimate railroad construction in Alaska; the building of a trunk line railroad from the coast to the interior under government supervision; the strict government control of transportation rates by rail or boat and fair and not excessive rates for freight and passenger traffic.

14. I shall oppose in every way possible the control of transportation or mining business within Alaska by the Guggenheims or any other dangerous combination.

15. For the immediate creation of a fourth judicial district in Alaska by the erection of the southern or Valdez district into a separate division.

Diary 14, 1908	-19-
July 19	My fight is getting "hot". The Corson crowd bought the "News" last night and this morning it is filled with "homemade" telegrams from Nome, Juneau and Seward answering their readers that those places are for Corson. About 3 o'clock this morning I was awakened at
	my home and a friend gave me a copy of the front page of the News, painting out the forged telegrams and gave me the copy of one in Harry Steels' handwriting. We are now up against the real thing - but we have two loyal papers here – the " <u>Tribune</u> " and the " <u>Tanana</u> <u>Miner</u> " and must make the fight with what we have - and a loyal list of friends.
Diary 14, 1908	-20-
July 20-21	We are surprised and many of my friends utterly disconcerted this morning to receive a telegram from Cale in Fondulac, Wisconsin, <u>announcing that he has reentered the race for</u> <u>delegate to Congress</u> . We are of the present opinion that it is a shrewd Corson move.

	Started on a campaign trip to the creeks - we made up a stage party - 12 - and went out to Fox Gulch this evening. When we arrived - the first stage over the new wagon road - at Engineer Creek the whistles at the mines began to shriek & all the way into Fox they kept up the shrill welcome. Some of my enthusiastic supporters also kept some big anvils

Had so big a crowd that the big tent prepared for the meeting would not hold the crowd & I was compelled to speak from an improvised platform in the street. It was an enthusiastic crowd & I gave them 2 hours talk on the issues of the campaign - and especially Carson's platform - & the Ordinance of 1787 which desires extended to Alaska for our government. The " <u>News</u> " has been friendly to me until last Saturday when it sold out to Corson, and Harry Steel, his manager became its editor. Since then it has been filled with abuse of me. I was the

I gave the News & the Oklahoma bunch the roasting of their lives. I realized that nothing which any of them would think about would be left undone to injure me - so I gave them the most vitriolic lashing that I could- & the crowd cheered me to the echo. The meeting was a great success & if it may be accepted as any criterion I v/ill carry a good plurality at least in Fairbanks. My friends made the town red until 2 o'clock in the morning. Ready to go to Nome on the returning boat.

This damned little measly craft rolls twice for every foot ahead - at 5 o'clock we reached the front of Nome & my friends in a steam launch with flags flying met the boat & took me off - found headquarters opened for me - everything ready for business - in the Golden Gate Hotel. Am agreeably surprised to find the Cale men here shouting & working for me - Orton, Sutherland, Homes Lane, & too numerous to mention.
Diary 14, 1908 August 2	Sunday Aug 2 <sup>nd</sup> Spent the day in headquarters meeting friends - a steady stream coming all day. They report that Corson is weak here, and that Chilberg will beat him at the polls. The betting in the saloons four days ago - <u>here</u> - was 15 to 1 against me - tonight it is even with Corson & Ronan - & <u>that</u> on local conditions. Corson held a meeting tonight and I and Ronan each hold one tomorrow night in different halls. My friends are busy & brave and active. It look much better than I anticipated. I am getting tickets for out of the way places & find plenty of men to go & make the fight. The <u>"Nugget</u> " is nasty.
Diary 14, 1908 August 3	-3 <sup>rd</sup> - Midnight - This has been my test day - and I made good. 	My effort last night seems to have struck the people just right - the whole town is laughing and cheering yet and my enemies are on the run.
	One portion of my speech was loudly cheered for so long a time as to surprise me - I said, speaking of my permanent residence in the Tanana that I lived in " <u>my</u> <u>own house, with my own wife</u> ." It was a mere slip of the tongue, but for a few minutes the house roared - & then roared again. Today I am informed that the people applied the statement to the owner (Dr. Whitehead) of the Nugget who is living in his <u>own house</u> , with

This afternoon he called on me at my headquarters and in the presence of my manager Dan Sutherland, suggested that he had heard that a personal campaign etc. was to be indulged in and desired that it be avoided - I readily agreed, and thus by a happy accident I am to be saved any reference to my own early accusations or other similar charges. Public sentiment is so rapidly changing that whereas at the beginning the gamblers and book makers were posting me at 15 to 1 - the hind man in the race I am now moved to the first place as favorite & the gamblers are hedging to cover what they consider a certain loss. The ' <u>Gold Digger</u> '' has been on the fence in a receptive mood, but yesterday it came down off its perch & took up the Corson fight! <u>"Big Mit Steve</u> " as its owner is called, had been purchased by the Corson crowd & took up his fight. The <u>"Pioneer Press</u> " is supporting Clum, and the little 'Industrial Worker'' is supporting Chilberg, - thus leaving me without a paper. It is no loss, but a gain, for I can calk longer, louder & more to the purpose & the people who know the situation give me a more active support & sympathy in consequence. When I left Nome tonight it was known that I was ahead of Chilberg in the Nome Div. about 250 votes, and that from all returns Chilberg was ahead of me about 50 - but my judgment is that I will have 250 votes ahead of him in each division when the returns are all in.

August 13	A beautiful trip over to St Michael on the N.W. Reached St M. at noon - the telegraph line was down but a batch of telegrams - all congratulatory, without information had gone through to Nome for me, & the operator gave me copies. No definite information about S.E. Alaska, but congratulations came from Seattle, Valdes, Copper Center & Fairbanks & I trust they know that I am entitled to congratulations . As usual I went to the N.C. Quarters for meals & hotel opposite for room. Jack Ross, Billy Kleinberg, John Drake & wife & others here - Ronan, on board N.W. with me, bound for Fairbanks.
Diary 14, 1908	-14-
August 14	Went out along St Michael canal this forenoon to inspect dredging etc. being done by the government. Fine day and I enjoyed the inspection etc. very much. We will leave tonight for the Yukon on the "Susie". Midnight - on the Susie. They gave me room No 12, the large bridal chamber & a fine room. Zapf the N.C. agent & his wife entertained me nicely at St. M - but no news from S.E. Alaska and I go away from the telegraph line without knowing whether I am elected to Congress or not - will probably learn at Kaltag - two days from now.
Diary 14, 1908 August 15-16	-15- Bishop of Alaska, a man of broad mind, good sense and great strength of character. The Bishop is about 45, square, broad shouldered, but not tall, with a wealth of flowing hair and a beard with a glint of burnished bronze in its color. The Bishop does not strike one as a particularly learned man, but rather a ready man of the world, resourceful and active to accomplish. They are going up to the Russian Mission & the Bishop kindly exchanged photographs with me, writing on his a kindly sentiment.

Diary 14, 1908 August 18	-18- We passed Anvik late last night, but no news from the Innoko election. Simel agreed to go in there for me but sent his nephew - hence nothing heard from yet.
	Another beautiful day. Kaltag & telegraph line this evening. Ronan has laid aside his threats and anger & accepts my proffered peace offerings - he sat in my
	room last night for two hours & we talked of Wyandot Co. Kan. where I lived in 1868 & where he lived during his boyhood & grew quite friendly again. I am told that he spent \$20,000 in this election -10 to my one - & consequently he feels disappointed - but he is
	now good natured & publicly pleasant.
Diary 14, 1908 August 18-19	18 We reached Kaltag at 7. p.m. but the telegraph line has been down for days & the men had no knowledge of details - nothing except the general idea that I am elected. Could not send a message either way - the line us up - but the work is a week overdue and no new messages are sent until the old work is done - so I got nothing. Nothing from the Innoko either.
	-19- Nulato early this morning - no definite news but telegraph men say I am elected - Valdes gave me a solid vote, etc. so I suppose it is settled though no details yet. No telegrams from any one - just silence.
Diary 14, 1908 August 20	-20 <sup>th</sup> - First definite news of my election this morning by telegrams from Sergeant Merrill, signed Corps & Boyer from Fairbanks delivered to me at Kokrines - the telegraph station 80 mi. below Ft. Gibbon. Merrill's telegram:

	Roosevelt's action in continually reappointing me, have

August 20	River we met a crowd of prospectors - Dan Kennedy's train - from Valdes Creek & I got a letter from Dan Kain saying that I got 47 out of the 50 votes cast there & that the miners were looking for the 3 who had disgraced the camp. Other precincts except Kantishna were for me, but the latter gave 42 votes - 39 for Corson & 3 for Clum, not having heard that I was a candidate. I understand that I am to be tendered a reception upon arriving home - hope they will give me time to get a clean collar, for I am looking like a ragamuffin.
Diary 14, 1908	-23-
August 23-24	Reached Chena at 7:00 a.m. The Steamer " <u>Reliance</u> " with a load of my friends came down to meet me with band, enthusiasm & noise, & conducted me up to Fairbanks X then up the street home. My friends here are certainly enthusiastic & happy. -24- Am in office receiving congratulation of my friends. Returns are coming in and are entirely satisfactory. I am more than a thousand votes ahead of Chilberg & nearly 2000 ahead of Corson. My friends are making preparations for a big reception tomorrow night at the Auditorium Theatre - as the close of the campaign.
Diary 14, 1908	-25-
August 25	I was accorded the most flattering reception ever given to anyone in Alaska tonight. The Auditorium was filled to overflowing, flags, flowers, enthusiasm, music, speaking, dancing & cheers, made it a red letter event in my life. Debbie was present, she and her friends occupied the boxes - the Major presided, Dillon, Erwin, Joslin, & Light spoke before I did - I cried out that the war was over & for peace. It was a glorious evening & repaid me for the burden of the campaign. It ended in a dance & when we went home at 1 o'clock the young people were enjoying the dance.

	to Do Him Honor.
	By the largest concourse of people that ever
	gathered in a public hall in Fairbanks Judge
	Wickersham was welcomed home last night at the
	Auditorium. The hall was altogether inadequate to
	seat or even hold all the people who dame to do
	honor to the newly elected delegate and many
	were unable to even get inside its doors. The
	gathering was thoroughly representative and in the
	gallery most of the seats were occupied by ladies.
Diary 14, 1908	26
August 26	[clipping]
	Mayor Fred Carter was in the chair and introduced the
	speakers. These later in the order they spoke were John
	Dillon, Judge L.T. Erwin, Falcon Joslin, A.E. Light and
	Judge James Wickersham.
	John Dillon after briefly reviewing the campaign and its
	purpose in happily chosen words delivered the speech of
	welcome to the judge. He was followed by Judge Erwin
	and Falcon Joslin and each had something of interest to
	tell regarding the judge and the fight he has just won and
	each told his story well. A.E. Light, Tom Cale's
	secretary, followed and told of some of the difficulties in
	regard to catching the speaker's eye at Washington and
	then Judge Wickersham was introduced.
	This was the signal that a number of schoolgirls
	ensconced in the upper boxes had been waiting for
	and they commenced a bombardment of the Judge
	with flowers. The Judge's reception was an ovation
	and it was several minutes before he could commence
	his address.
	The first declaration of the delegate-elect was to the
	effect that he had made certain ante-election pledges
	and that now that he was elected he intended to keep
	those pledges to the best of his ability.
	On the question of territorial government he said that
	while Alaska at the present time had two of the
	Institutions that go to comprise territorial government -
	institutions that go to comprise territorial government - the judicial and executive departments - it lacked the

The Judge then stated that it had been demonstrated as a result of the past election that Alaskans wanted Territorial government and he was going to help them get it. As in his speeches made here and at Nome before the election the Judge stated that he was opposed to a top-heavy form of home rule that would overburden us with a multitude of officers and taxes, but to secure the former of government that he had heretofore outlined he intended to use every means he could command at Washington.

He then referred to other of the reformities he had declared himself in favor of and said that he was of the same mind yet, and would do all be could toward securing the passage of measures that would secure the desired ends.

Referring to the threat thrown out by his opponents during the campaign to the effect that Senator Helsow would block any legislation that he (Wickersham) might introduce, he stated that he knew Nelson to be too big a man to ever harbor any such intentions. He then read from the Dispatch of Juneau a statement that Nelson had made regarding the Alaska delegate contest which demonstrated that the Senator from Minnesota was cherishing no such ideas. The Judge then stated that he believed that Senator Nelson would be one of the first to help in the passage of any legislation which he was convinced was for the betterment of conditions in Alaska. Those that thought to stated otherwise, the judge continued, did not know the sterling worth of the Senator from Minnesota.

Referring to the fact that a certain saloon man was working hand in hand with a lawyer who had been prominent in the Corson camp to the end of submitting to Senator Nelson plans for legislation based on the Judge's platform with the idea of getting it enacted before the Judge reached Washington, the speaker stated that he would be only too glad if this much-to-be desired result could be attained so easily. He, however, warned the labor party against those who had been prominent in the Corson camp and who now came to them "carrying flirts to Caesar" and seeking an alliance. The speaker referred scathingly to Guggenheim control and insisted that if they would go the length

The conclusion of the judge's address was greeted with a burst of applause which lasted for several minutes. The hall was then cleared of the benches and chairs and dancing was indulged in until an early hour in the morning. Much credit is due to the ladies who so tastefully decorated the hall for the occasion and to the splendid orchestra for the fine selections which
	were rendered before the speechmaking began. [other clippings] Wednesday, August 26, 1908 Last night's meeting at the Auditorium was a fitting climax to Judge Wickersham's successful campaign for the delegatship. It was also conducted in the right kind of spirit. There was no "slaughtering of captives" nor any unseemly crowding; rather the disposition was apparent that the bitterness of the campaign should be forgotten. Judge Wickersham made of the occasion the opportunity to thank his constituents for the honor they had conferred upon him and in so doing he made those present understand that he emphatically realized that they had also imposed a duty upon him. The meeting had served its highest purpose when the delegate-
	elect stated with the emotion born of sincerity that he would, to the best of his ability, do all he had promised to do. Judge Wickersham's references of last night to Senator Knute Nelson of Minnesota embodied the tribute of one big man to the bigness of another. They also tended to show in a marked degree the littleness of the small horde of heel-snappers who have been, for the past several years, attempting to misrepresent Judge Wickersham to the senior

senator from Minnesota.

	As it is Judge Wickersham' honest intention to do all he can to obtain for us at Washington what we led him to understand we needed, it surely is up to us to help him by all getting together and according what support is in our power.
	This is what Senator Knute Nelson of Minnesota said the days before the election in reply to a query as to whether he would fight Judge Wickersham in case the latter was elected as delegate from Alaska, It is clipped from the Daily Alaska Dispatch of Juneau: St. Paul, Aug. 8. — Senator Knute Nelson was communicated to by long distance 'phone to-day. Regarding the flames Wickersham candidacy in Alaska for delegate he said he had no interest in the matter. He said he had his fight to head off the confirmation of Wickersham and when that ended he was done. Regarding telegrams sent him from Alaska to wire his bitter opposition to Wickersham, he said that was impossible as the people of Alaska and not Minnesota would elect their delegate to congress. He says he will listen to what the newly elected delegate has to say regardless of personal feeling."
	This is the end of the Election - without the Guggs back the ballot boxes Westward.

Diary 14, 1908 September 3-6	3 <sup>rd</sup> Still raining. Peter Vachon & Miss Caro Clum married last night. Debbie could not attend but I did – a fine wedding and a nice young couple. -6-
Diary 14, 1908	Have been trying to catch up with my letters - mail etc. No definite news yet from the Nushagak- Bristol Bay precincts, where the Guggenheims yet threaten us with a fraudulent vote. Nothing new about Perry and the Marshalship - Rumors that Love, H.K. will be appointed but no definite information yet. The Labor Day. Co. have given us a fine? programe for tomorrow - Addresses by <u>Maddocks, Ronan</u> and <u>Timmins</u> , -3 horny handed laborers, indeed!!
September 7-9	Labor Day Parade consisted of a brass band and about fifty struggling paraders - evidently the best part of the Laboring element do not intend to follow Maddocks, Ronan and Timmins very far! The Labor Day Ball tonight had 8 couples in attendance - the Gordon Rink had 180 couples & the few at the fizzle went over to Gordon's & the great opening of the Maddocks - Ronan - News - Times - Bulletin - Western Federation - Dodge - Political Campaign was at an end.
	<u>Dr</u> . <u>Cabell Whitehead</u> of Nome died from Railroad accident there. I am sorry to hear of his death – he was a rigorous, courageous and active miner & a

	good friend.
Diary 14, 1908 September 14	-14- The long waited for returns from Nushagak - Bristol Bay - Unalaska etc. received today - it <u>was</u> a disappointment to the "Mumblepeg Gamblers," in the Clerks office - <u>there was no election held in the Bristol</u> <u>Bay country -Nushagak or at Unalaska</u> !! and the thousands of Corson voters which his few boosters have talked about to change the result have vanished into thin air. It is now settled that I am elected, giving him all his Cordova fraudulent votes. What sort of an excuse the "Oklahoma bunch" can now put forth to keep from paying their bills will be interesting. I fear that they bet more than they owned, and it may be better to repudiate their honor than to pay money which they do not own! We'll see
Diary 14, 1908 September 17	-17 <sup>th</sup> - The "Dome Creek Cases" which have divided the camp for so long have been finally settled. The shooting of Ridenour - Barnett's partner - by Caribou Bill, put fear into Barnette who is a moral and physical coward, though a fine specimen of manhood - & threats that he would be next brought him to terms. The decision of Judge Gunnison against the Barnette interest & of the Supreme court of Washington against him in the Causten case both came the same day, & what with the shooting of Ridenour set him to work to settle. Sullivan & Cook, two of the partners came to see me, and offered me \$2,500 if I would act as intermediary & get a compromise - but I refused.
Diary 14, 1908 September 17	17 They then got another party who acted & succeeded in settling & the Causten case was also settled - all their most dangerous and expensive litigation is thus ended at a cost of more than \$250,000.00 - more than a quarter of a million dollars - the settlement was un- expected, but it puts Barnette, McGinn, Sullivan, Cook & Ridenour into possession of No 1. on Dome, supposed to contain a million dollars - and immediately the agony of spending it attacks them - the McGinns immediately changed their plans - John is going down the river, via Nome, while Mrs. McGinn, her mother, the bulldog, trunks, bags, boxes -oh yes, the baby too, will go up the river. All the talk is Seattle, Lexington Ky.

	races, New York and Los Angeles -golf - etc. etc the
	mortgage
Diary 14, 1908 September 17	17 Its funny - and sometimes pathetic, when a miner, or even a bright lawyer is lucky enough to drop upon a small fortune - the first thought is how to spend it the quickest and the Barnetts and McGinns seem to be the usual "Newrich" folk. The papers have daily telegrams which seem to be authentic that Perry is out and that H.K. Love is appointed in his place. Well, Perry was a pretty good officer - far better than the average officer sent out to the territories and I am sorry to see him dismissed since his time would have expired anyway in February next - but he alone is to blame - he neglected to obey
	orders as he should.
Diary 14, 1908 September 18	-18 <sup>th</sup> - On the 20th of last month I sent Pres. Roosevelt, from Fort Gibbon a telegram saying that I had been elected Delegate from Alaska, that his action in supporting was thus confirmed by the vote of the people etc. Today I received a letter from him dated the 22nd as follows: "Oyster Bay, N.Y. August 22, 1908. My dear Judge Wickersham: <u>It is a pleasure to hear from you</u> . <u>I look forward</u> to seeing you and shall have much to talk over concerning Alaska with you. <u>Sincerely yours, Theodore Roosevelt</u> <u>Hon. James Wickersham</u> <u>Ft. Gibbon, Alaska</u> Short, but alive. The talk that I could not get a hearing in Washington
Diary 14, 1908 September 18- 22	18 because I was not properly labeled "Regular Republican Nominee" seems to be without foundation. -22- Learn today that H.K. Love has been appointed U. S. Marshal in Perry's place. I am sorry that Perry was not permitted to serve out his term which would have ended in Feb. next - though I must think the Dept. of Justice was Justified in removing him - the whole thing arose over his failure to remove Dillow for writing an

	impudent letter to the Dept. about public business - the Atty. Genl. instructed Perry to remove Dillow - he failed and long neglected to do it - and the natural result followed - his own removal.
Diary 14, 1908	-23 <sup>rd</sup> -
September 23- 25	I endorsed <u>L.S.</u> Robe for postmaster today-and with a number of other persons sent a telegram to the President saying so. -25-
	Debbies Birthday – The Robe-Pepper candidacy for postmaster is exciting considerable local interest – the Western Federation – Times – News, combination is now boosting Pepper – of course. The "Tanana" – on its last trip has gone out with the last mail and the last up river passengers, via Dawson. Still it's the most beautiful cloudless day – perfect fall weather. McGinn & others going out. Harry Steel's application for membership in Tanana Club posted – Nothing doing!
Diary 14, 1908 September 29	-29 <sup>th</sup> - Have taken J.C. Dillow into the office - on probation - if everything looks like it a little later may enter into a permanent arrangement with him. I must have some one to do the running & small work. George is a good Stenographer but not worth a damn to accept burdens & take the initiative. We had an earthquake tonight that shook thinks gently and the most beautiful <u>Aurora</u> <u>Borealis</u> that I have ever seen. At its best it resembled great heavenly curtains of light and color moved by invisible hands - covering the whole clear starlit sky - the curtains fringed with special deep red - & the whole moving shifting scene colored by the vivid colors of the rainbow – <u>beautiful</u> !
Diary 14, 1908	-Octo 1, 1908-
October 1-9	My law business is growing and the income is satis- factory - much more than the Judgeship - several times that salary - and independence - freedom -

	and Opportunity. I am, however, pleased with my election to Congress - that aids rather than hurts the law business. -Oct. 9 <sup>th</sup> - Fine fall weather - my law business good & getting better all the time. Everything quiet - <u>George Shea</u> ,
	jury fixer from Nome appointed Dep. U.S. Marshal for Fairbanks think I'll fight him, as no one can be
	safe in jury matters when he is in charge. National election seems to be red hot, in the states.
Diary 14, 1908 October 12	October 12 <sup>th</sup> 1908. Love assumed his office as U. S. Marshal on Friday & Saturday strict orders were sent here to stop all pool playing, card playing etc. & the saloons are groaning. All the deputies here except Phil North and Wiseman - (on Dome Creek) have been notified that they will not be retained - North is in charge of the office. This about closes out the Perry crowd & puts the new people in full control. I am not going to do anything about Shea until I see what he intends doing. Some of my friends think he is friendly - but a jury fixer cant be friendly to honest people very long. Fine fall weather - & rivers wide open & boats yet running. " <u>Finis</u> ".
