

# STAY SHARP

WITH  
INFORMATION  
ALERTS

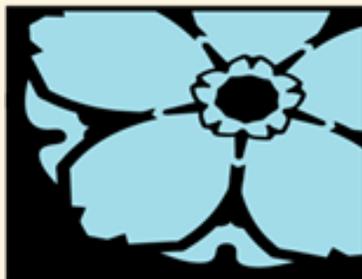

Robert Sewell, Ph.D., Health Program Manager II, SHARP Program

*When Robert needed information to build and maintain consensus for the Supporting Health Care Access through Loan Repayment program SHARP. He worked with Alaska State Library staff to create information alerts targeting evidence-based articles from around the country. In addition to providing Robert with the facts, figures and national trends needed for his presentations and meetings, these articles led to correspondence and working relationships with leaders in the field. Currently thirty-nine primary care practitioners are enrolled in SHARP helping to address Alaska's health care shortage.*
