

TEAM UP

WITH A LIBRARY LIASION

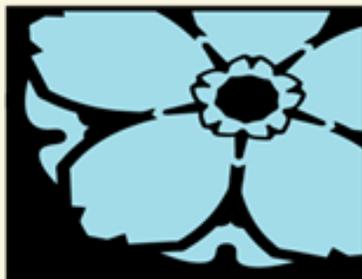

**Jerrine Regester,
Health & Social Services Program Coordinator**

Jerrine needs to be fast and efficient to target qualified applicants within and outside of Alaska for hard to-fill statewide public health nursing positions. Librarian Freya Anderson, of the Alaska State Library, has been on Jerrine's team from the beginning. Freya provides Jerrine with resources about changes in the healthcare and government environments on local, national and global levels. She also introduced Jerrine to the Alaska Medical Library, which resulted in Public Health award-winning nurse recruitment videos being promoted on the Arctic Health website.
