The Regulatory Commission of Alaska is pleased to present its Annual Report for State of Alaska Fiscal Year 2008. This report describes RCA regulatory activities, and issues brought before the Commission, during the period July 1, 2007 through June 30, 2008. The RCA Commissioners and staff worked diligently throughout FY 2008 to meet the Commission's statutory and regulatory responsibilities. The RCA must strike the appropriate balance between Alaska's ratepayers and the regulated utilities and carriers. This balance is critical to the economic health of the state, and the well-being of its citizens.

The turbulence of the energy and financial markets will offer new challenges for the RCA during the upcoming year. Many initiatives and issues in the energy, telecommunications, and public utility areas will impact the activities of the RCA. We are committed to effectively utilize the resources entrusted to us, and continue to serve the people of the State of Alaska.

Respectfully,

A handwritten signature in black ink, reading "Robert M. Pickett".

Jan Wilson, Commissioner

How Does the Commission Work?

The Alaska Legislature created the Regulatory Commission of Alaska in 1999, giving it broad authority to regulate public utilities and pipeline carriers throughout the State. As of this annual report, the Commission monitors 651 active certificates for public utilities and pipelines. These certificates cover a broad range of activities, from provisional certificates for small village water and wastewater systems to fully regulated telecommunications, electric, and natural gas monopolies.

Authority

Alaska Statutes 42.04 - 42.06 authorize the Commission to regulate public utilities and pipeline carriers by certifying qualified providers of public utility and pipeline services and to ensure that they provide safe and adequate services and facilities at just and reasonable rates, terms, and conditions. This keeps rates as low as possible while allowing the regulated entities an opportunity (but not a guarantee) to earn a fair return. The Commission also determines the per kilowatt-hour support for eligible customers of electric utilities under the Power Cost Equalization program (AS 42.45).

Structure

Five full-time Commissioners are appointed by the Governor and confirmed by the Legislature for six-year terms. Each year, the Commission elects a Chairman for a one-year term. Upon election, the Chairman assumes responsibility for administrative functions of the Commission, becomes the policy spokesperson, assigns dockets, and coordinates public meeting activities, in addition to shouldering regular commissioner docket work. The Chairman is ultimately responsible for the timeliness of the Commission's adjudication process, meeting statutory timelines, and serving as the Commission's liaison to the legislative and

Core Services

Our core services include certification, regulating rates and services, calculating subsidy rates for the Power Cost Equalization program, tariff review, dispute resolution, consumer protection, and service as an information resource for the Executive and Legislative branches of government.

executive branches of state government.

The Commission's staff includes administrative law judges, engineers, financial analysts, telecommunications specialists, tariff analysts, consumer protection officers, paralegals, and administrative and support staff.

Process

As a regulatory decision making body, the Commission exercises delegated legislative power in two ways. First, the Commission is authorized to adopt regulations it deems necessary to carry out its mission. As with other state agencies, the Commission's regulations are adopted through a public process, subject to the Administrative Procedure Act (APA). Second, the Commission decides dockets (cases) brought before it or opened on its own motion. Each decision is reached quasi-judicially – that is to say, the decision must be based on evidence of record gathered in docketed proceedings. All dockets are closely scheduled, but the due process rights of parties, carefully observed by the Commission, mainly govern their timing.

In the course of a hearing, parties participating may include the subject public utility, the pipeline carrier, and the Regulatory Affairs Public Advocacy section of the Attorney General's Office.

In cases where millions of dollars may be at stake, or important issues of regulatory policy arise, a number

of intervenors, representing interests as diverse as low-income customers and large industrial customers, may also participate. They too may employ expert witnesses and attorneys. Intervenors often seek involvement because regulatory decisions can result in gains or losses even for those who do not participate. Cases raise issues of law, economics, accounting, finance and engineering that can establish legal precedent for future cases.

Parties present sworn testimony and evidence of expert witnesses on matters at issue. Witnesses may be cross-examined by the attorneys representing each party.

Reaching decisions, which consider the often-competing interests of concerned parties, in pursuit of outcomes which protect and promote the overall public interest is one way to view the Commission's role. Each decision, which can be appealed to state or federal court, must be supported by the evidentiary record and applicable laws and regulations.

When do we need the Regulatory Commission of Alaska?

In most cases, when regulated utilities or pipeline carriers request changes in either their rates or types of services they provide, the Commission provides notice to the public and allows thirty days for comments. The Commission then acts to approve or disapprove the proposal. Public notices appear as advertisements in the local newspaper or are otherwise distributed or published as our statutes or regulations require. Some notices are also provided directly by the utilities in the form of flyers mailed with utility bills.

What does the Regulatory Commission of Alaska regulate?

Most entities providing telecommunications, electric, natural gas, water, sewer, garbage, or steam services to ten or more customers are required to have a

Decision Making

Reaching decisions, which consider the often-competing interests of concerned parties, in pursuit of outcomes which protect and promote the overall public interest is one way to view the Commission's role. Each decision, which can be appealed to state or federal court, must be supported by the evidentiary record and applicable laws and regulations.

certificate to operate. A public utility or pipeline carrier must obtain a certificate of public convenience and necessity, which describes the authorized service area and scope of operations of the utility or pipeline carrier. A certificate may be issued when the Commission finds the applicant to be fit, willing, and able to provide the service. The Commission regulates the rates, services, and practices of utilities and pipeline carriers that meet the criteria for a certificate of public convenience and necessity to provide service to the public for compensation. However, there are utilities that are not economically regulated; these include some local, government-owned utilities, very small utilities, most cable television providers, cellular phone providers, and cooperatives whose members have voted to become deregulated.

In addition, utilities that operate in competitive markets designated by the Commission are not fully regulated. Currently, these markets include many local telecommunication service areas (local exchanges), and commercial refuse in some areas. Other utilities like Fairbanks Natural Gas, LLC are not economically regulated even though they have monopolies on their sale of a specific service (natural gas). This is because they compete with companies that provide another service (fuel oil) to meet the same customer need (heating).

FY 2008 Orders Extending Statutory Deadlines

The Legislature recently passed HB 209 (Chapter 36, SLA 2007), which set a new timeline of 180 days for adjudicated docket matters that come before the Commission that are not otherwise subject to an existing timeline under AS 42.05.175. The timeline rule became effective July 3, 2007, and affects matters filed on or after that date. The following table summarizes the Commission's performance with respect to statutory timelines, including the new provision. **General Rules:** Pursuant to AS 42.05.175 and unless a federal requirement applies, most Commission dockets are subject to timelines of between 180 and 450 days. Regulations dockets have a 730-day timeline unless they exclusively affect pipelines operating and regulated under AS 42.06.

Pursuant to AS 42.05.175(f), the Commission may extend the statutory timeline for up to 90 days if the Commission (1) reasonably finds good cause to extend the deadline, and (2) issues a written order setting out good cause and extending the timeline.

Pursuant to AS 42.05.175(h) and (j), if the Commission does not issue and serve a final order on most kinds of dockets or suspended tariffs within the statutory timeline, including any extension(s), the application, petition, or tariff is considered approved and goes into effect immediately.

Letter Orders Issued by Fiscal Year*

	2004	2005	2006	2007	2008
Letter Orders Issued	779	1,110	839	686	478

Note: in previous years a single order issued in more than one docket was counted once for each docket.

Performance Measures

A: Timely decisions. If the Commission does not issue a final decision under AS 42.05 prior to the expiration of a statutory deadline, the filing will go into effect by force of law.

Target: Final decisions of the Commission issued within existing statutory deadlines during fiscal year:

Analysis of results and challenges: The Commission met all statutory deadlines in Fiscal Year 2008. The new case management system implemented in October 2007 provided an additional tool for managing dockets. The commission planned its calendar to complete scheduled

hearings, consider the issues, and prepare final orders no later than the established deadline.

B: The Commission's caseload consists of current and active cases.

Target: The number of resolved cases roughly equals the number of cases received each year, excepting cases on appeal. See table.

Analysis of results and challenges: New filings with the commission resulted in 8 percent more new dockets than in the previous year. By being responsive to the number and complexity of filings and by adjusting its adjudications and docket reviews, the Commission aggressively managed its new and ongoing dockets. Thus the Commission ended the year with only slightly more dockets than it had at the beginning of the year.

C: The Commission's final decisions are based on an evidential record and contain justification for the decision reached.

Target: Legal counsel for the Commission reviews 100% of final orders before the orders are issued.

Analysis of results and challenges: Legal counsel for the commission reviewed 88% of the final orders before they were issued. Upon review it was determined that the majority of orders not reviewed were issued in the first half of 2007, a period of transition in personnel responsible for the order process. Only five final orders were issued without review in the second half of FY2008.

Commissioner Biographies

Robert M. Pickett

Commission Chairman

Appointment: March 7, 2008 - March 1, 2014

Chair: July 1, 2008 - current

Commissioner Robert Pickett was appointed by Governor Sarah Palin to the Regulatory Commission of Alaska in January 2008. After election by his fellow commissioners, he began serving as Chairman of the Commission on July 1, 2008. Before his appointment to the RCA, Commissioner Pickett had more than 30 years of statewide experience in Alaska's housing industry, in both the private and public sectors. For twenty-one years, Commissioner Pickett worked for Alaska Housing Finance Corporation (AHFC) in a number of roles including Property Disposition Manager, Planner, and Program Manager. Promotion of public-private partnerships in the housing industry, and interagency coordination with housing related infrastructure were areas of Commissioner Pickett's emphasis

while working at AHFC. His prior work experience also includes consulting, real estate sales and marketing, management of a materials testing laboratory for the Alaska Department of Transportation, and surveying for the U.S. Forest Service in Southeast Alaska. Commissioner Pickett has a B.A. in Public Administration/Political Science from the University of Idaho, and has been married for more than 23 years to his wife Jane.

**Anthony A. Price**

Commissioner

Appointment: June 1, 2004 - June 30, 2010

Chair: July 1, 2007 - June 30, 2008

Commissioner Price has experience working in a wide and diverse range of business and public sector positions. Prior to his appointment to the Commission, Commissioner Price had been the Director of Public Finance for the Municipality of Anchorage. In addition to his position with the Municipality of Anchorage, Commissioner Price has worked as a financial consultant and spent 10 years as cash manager for the Alaska Housing Finance Corporation. Throughout the 1980s, Commissioner Price held a variety of positions with Veco, Inc., Calista Corporation, and Alaska Finance and Insurance Company. Before moving to Alaska in 1984, he held positions with a variety of businesses in the Seattle area. Commissioner Price has a BA in business/accounting from the University of Washington.

Commissioner Biographies

Kate Giard

Commissioner

Appointment: June 1, 2003 - March 1, 2007; March 1, 2007 - March 1, 2013

Chair: July 1, 2004 - June 30, 2007

Commissioner Giard's work experience includes ten years as a public accountant working for national CPA firms in Massachusetts, Michigan, and Alaska. As a practicing CPA, Commissioner Giard's clients covered a wide spectrum of industry including manufacturing, banking, natural resources, and retail companies.

In addition to working for KPMG as a public accountant in Alaska, Chairman Giard served as the chief operating officer of Alaskan Choice Television, promoting wireless cable services over UHF frequencies in Anchorage, Fairbanks, and Wasilla and working on Federal Communications Commission regulatory issues.

Commissioner Giard most recently served as chief fiscal officer for the Municipality of Anchorage from 2000 until her appointment to the Commission, where she gained a working knowledge of the Commission's regulation of Anchorage's wholly owned utilities. Commissioner Giard lives in Anchorage with her two children.

Mark Johnson

Commissioner

Appointment: March 12, 2003 - March 1, 2009

Chair: July 1, 2003 - June 30, 2004

Prior to his appointment, Commissioner Johnson worked as an attorney and analyst for United Utilities, Inc., a telecommunications provider for western Alaska. He also worked for the Municipality of Anchorage in a series of legal and administrative positions, including as executive assistant to the mayor, and for the Alaska Legislature. He served as a legislative assistant to Congressman Don Young in Washington, D.C., before attending law school.

Born in Anchorage, he earned a Bachelor of Science in Economics from Lewis and Clark College in 1975 and a law degree from the University of the Pacific, McGeorge School of Law in 1980. He has been admitted to the practice of law in Alaska since 1981. Married for more than twenty years, Commissioner Johnson and his wife have two children.

Commissioner Biographies

**Jan Wilson**

Commissioner

Appointment: April 11, 2006 - March 1, 2012

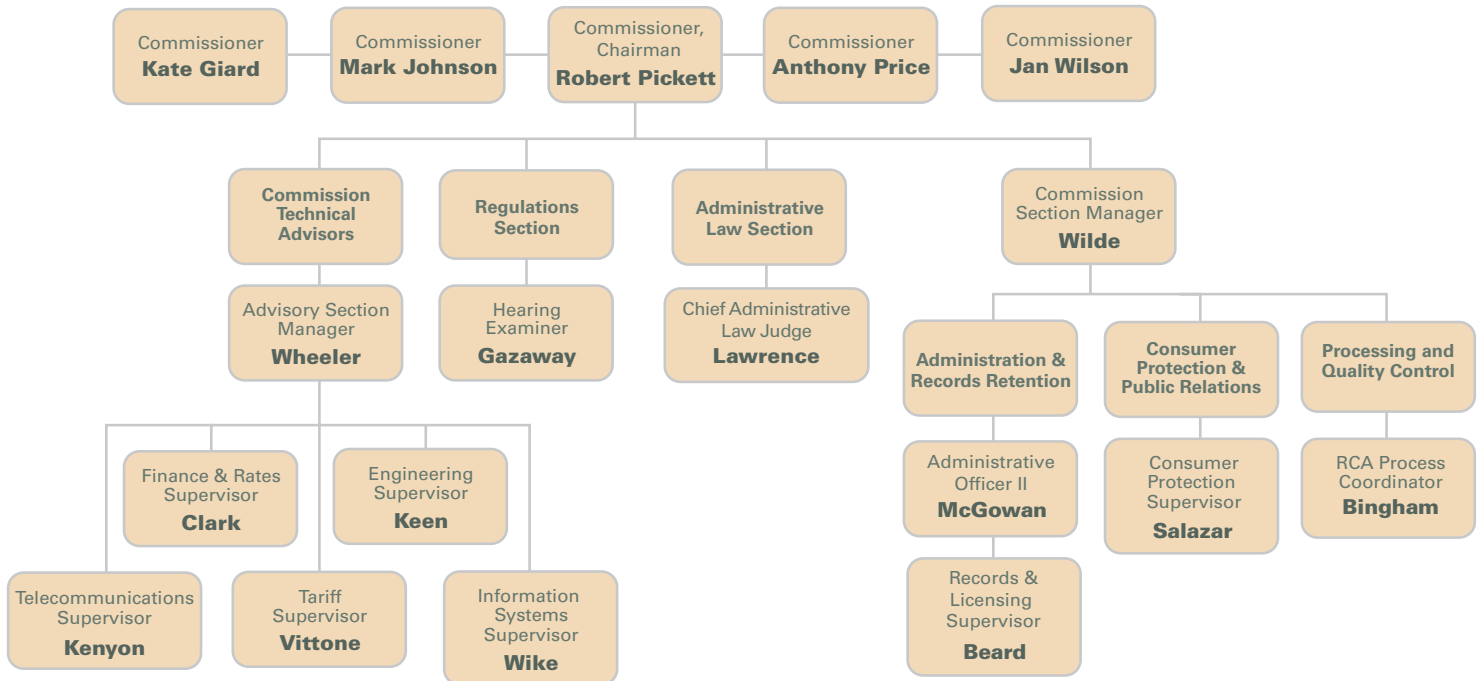

Commissioner Wilson is an attorney, admitted to practice law in Alaska since 1975. She was a commissioner and the last chairman of the Alaska Pipeline Commission (APC), the agency created to administer AS 42.06, the Pipeline Act. In 1981 the APC merged into the Alaska Public Utilities Commission (APUC). Commissioner Wilson served as an administrative law judge for the APUC and its successor agency, the Regulatory Commission of Alaska (RCA) from the time of the merger until her appointment to the Commission in 2006.

Commissioner Wilson has extensive experience in oil and gas pipeline issues. As an APC commissioner and an administrative law judge she worked closely with the Federal Energy Regulatory Commission (FERC), which regulates interstate oil and gas pipelines. She conducted all proceedings the APC, APUC, or RCA held concurrently with the FERC from 1980 to 2006. Earlier in her career, Commissioner Wilson was

City Attorney for the City of Kenai and an Assistant Attorney General in Juneau, serving in the Oil and Gas Special Litigation section.

Commissioner Wilson earned an undergraduate degree in Economics from Mount Holyoke College and a law degree from the University of Denver.

STAR Case Management System

The Commission has been working on improving its internal efficiencies in order to meet or beat a host of statutory and regulatory deadlines and keep up with its demanding workload, without unduly increasing staff size. Concurrently, the Commission has been working to provide a more robust web presence for people and utilities seeking information from the Commission or who wish to file documents with the Commission. A major component of this effort is the investment in a new case management system and corresponding website. After an in-depth review of its business processes and careful scoping of its needs, the Commission issued an RFP and awarded related contracts for software, hardware, data migration and project management. The software vendor for the case management system is ACO, based in Alabama. Additional vendors included CTG for data migration and RDI for website development and project management, both with offices in Anchorage.

Phase I of this multi-phase project included business analysis, systems analysis, assessments, an RFP process, system acquisition, configuration, and data migration. It culminated in on-site training in September of 2007 and “go live” of the case management system and corresponding website in October of 2007.

The RCA is close to completion of Phase II. Phase II, which overlaps Phase I in some key aspects, consisted of another round of system configuration of identified needs unmet by the commercial off-the-shelf system. Phase II included additional business analysis of items set aside as “post go live.” These items include shadow databases and business processes which needed to be brought into and integrated with the new system. Phase II includes creating electronic service area maps from legal descriptions and providing these maps in PDF and KML format via the RCA web site. Consumers,

Our next step is to fully roll out electronic filing upon the adoption of appropriate regulations so that we can accept and process filings made in our dockets. Once in place, this will allow any party to any matter to make virtually all of their filings over the web. This should be completed in the next fiscal year.

pipelines, and utilities can readily view the service areas served by pipelines and utilities, as those service areas relate to types of utility service, communities, and legislative districts.

Phase II also includes additional web portal development to take advantage of the system enhancements, coupled with testing, and then training of all RCA staff and the regulated utilities and pipelines which will conduct a majority of their business before the commission using the web portal and case management system interface. In addition, Phase II included identification of Consumer Protection needs to be integrated with the new system.

Already, with the new system in place, we are taking public comments from consumers over the web and managing these comments using the new case management system. We are also now receiving quarterly reports and payments from the utilities and pipelines over

STAR Case Management System

our website, with a link into the Department of Revenue's payment system. No longer do the utilities have to file paper copies with the Commission and with the Department of Revenue.

Our next step is to fully roll out electronic filing upon the adoption of appropriate regulations so that we can accept and process filings made in our dockets. Once in place, this will allow any party to any matter make virtually all of their filings over the web. This should be completed in the next fiscal year.

During this fiscal year, the Commission convened a Beta User Group of utilities and authorized them to make many of their filings electronically via the new website. Lessons learned during this process have been incorporated into draft regulations which, when adopted, should result in the vast majority of filings made with the Commission being made in an electronic format; the only exception being for those people or entities without adequate internet access. Electronic filing, in turn, should result in significant savings of time, postage, and paper. For example, a typical filing now made with the Commission must be submitted as an original with 10 paper copies. A single application, consisting of a few hundred pages, must then be copied 10 times and submitted as a package to the RCA. This is costly to put together and then ship or hand deliver in boxes to our office. In the very near future, this same filing can be made in a matter of minutes over the web. This process includes immediate

email notification to users that we have received their filings, as well as immediate email notification to other parties and staff of these new filings.

Additional work will continue on the system and its web presence. Primarily, we see on the near horizon the ability to intake and process public records of utility financial and consumption data in such a way as to publish to the web meaningful trend analysis for research and public policy needs, without the need of significant staff time to make the information readily available.

Note: all data compiled for this report has been derived from the new system database. Due to the reallocation and creation of various data types, "scrubbing" of old data, and other factors there will be variations in the data represented here for prior fiscal years when compared with past annual reports.

Commission Finances

The table below summarizes the Commission's expenditures for the past five fiscal years. The funding source for almost all of these expenditures was the regulatory cost charges paid by regulated entities. Beginning with FY04, expenditures for public advocacy, the responsibility of the Regulatory Affairs and Public Advocacy section within the Department of Law, are excluded from the amounts shown.

In FY07, the Regulatory Affairs and Public Advocacy section was appropriated \$1.4257 million from fees paid by regulated entities.

Commission Expenditures FY 04 - FY 08

Description	FY04 Actuals	FY05 Actuals	FY06 Actuals	FY07 Actuals	FY08 Actuals
Personal Services	\$4,005,600	\$3,764,500	\$3,614,500	\$4,132,398	\$4,274,588
Travel	58,900	50,700	89,400	131,561	61,513
Contractual	2,191,200	1,581,100	2,068,700	1,883,317	1,020,186
Supplies	60,600	135,200	162,000	156,848	136,809
Equipment	96,700	102,800	111,500	169,698	603,693
Total Expenditures	\$6,413,000	\$5,634,300	\$6,046,100	\$6,473,822	\$6,096,789

Consumer Protection and Information

Fiscal Year 2008 was a year of accomplishment for the RCA Consumer Protection Section (CPS). More and more consumers from different communities turn to CPS for information and assistance in resolving complaints regarding utility billing disputes, line extension issues, service quality, safety, and management practices. CPS is making a difference daily in the lives of Alaskans by protecting, mediating, intervening and empowering consumers. Key accomplishments this year include:

- Investigated and researched 515 consumer protection dockets.
- Helped 2,000 natural gas customers receive over \$700,000 in savings and refunds after it was discovered that they were charged a commercial rate rather than the appropriate lower residential rate.
- Identified service quality and timeliness of telephone service repairs in South Thorne Bay, Klawock, Coldfoot and Wiseman. Customers in those areas were receiving service that may not be in compliance with the State Telecommunications Modernization Standards.
- Responded to more than 600 inquiries each month through telephone and written correspondence.
- Provided information to consumers through the RCA website, including access to online complaint form.

The Consumer Protection Section is making a difference daily in the lives of Alaskans by protecting, mediating, intervening and empowering consumers.

	FY05	FY06	FY07	FY08
Telecommunications	213	249	251	294
Electric	80	92	67	85
Water & Wastewater	35	34	39	43
Gas	67	20	33	79
Refuse	17	18	16	14
	412	413	406	515

20 percent increase in consumer complaints.

- Provided information at AARP consumer protection workshops in Kodiak, Bethel, Barrow, and Dillingham, and at the Alaska Housing Finance Corporation's home choice seminars in Anchorage.
- Created consumer fact sheets informing the public of the cost of utility services and how to be a wise consumer.
- Participated in the Alaska Youth and Elders and Business Expo, reaching hundreds of Alaskan consumers from different communities.

Consumer Protection and Information

- Spearheaded consumer advisories on How to Protect Privacy, Energy Savings and Winter Preparation, and the 2009 Digital Television Transition.

In addition to protecting consumers, a CPS representative participated as a member of the Policy Advisory Committee of the Alaska Low Income Heating Assistance Program and as a member of Consumer Affairs Subcommittee of the National Association of Regulatory Utility Commissioners by sharing ideas and discussing the challenges consumers face in telecommunications and rising cost of energy.

Significant Events: Engineering

July 1, 2007 through June 30, 2008

Electric

Docket R-06-005 – We opened this proceeding to consider the adoption of regulations, implementing the amendments to the Public Utilities Regulatory Policies Act of 1978 by the Energy Policy Act of 2005 (EPAAct). The EPAAct amendments address smart metering, interconnection standards, net metering, fuel source diversification, and fossil fuel generation efficiency standards. We bifurcated this proceeding into Tracks A and B, based on the timelines provided by the EPAAct for consideration of the amendments. Track A included smart metering and interconnection standards and was addressed last year. Track B included net metering, fuel source diversification and fossil fuel generation efficiency standards. After conducting public workshops and receiving public comment, we declined to implement the specific standards suggested by the EPAAct amendment but determined to open a proceeding to develop Alaska-specific net metering regulations. This proceeding will commence in the near future as well as a docket developing interconnection standards.

Natural Gas

Docket U-07-174 – ENSTAR Natural Gas Company, Inc. filed its first depreciation study in this proceeding. The Attorney General's office of Regulatory Affairs and Public Advocacy was admitted as a party to this proceeding. After filing prefiled testimony, both parties filed a settlement resolving all contested issues. We approved the settlement. The depreciation rates approved in this study will be carried forward into a future rate case.

Docket P-07-014 – We granted a connection permit by Alaska Pipeline Company to the Kenai Nikiski Pipeline. The interconnection will allow ENSTAR

Natural Gas Company, LLC, the sister company of Alaska Pipeline Company, to meet its natural gas supply needs for the higher-demand winter months.

Refuse

Dockets U-07-032 through U-07-036 – We received petitions for deregulation of the Anchorage, Matanuska-Susitna, Fairbanks, Kenai, Girdwood, and Whittier commercial refuse markets from Alaska Pacific Environmental Services Anchorage, LLC d/b/a Alaska Waste. After receiving a stipulation between some of the active commercial carriers, we approved the stipulation and deregulated commercial refuse collection in each of the respective markets.

Dockets U-07-050 and U-07-146 – McDonald Waste Industries, LLC, a commercial refuse collection company applied for and received certification to provide service in Eagle River, Girdwood, Whittier, and the Matanuska-Susitna Valley. The approval of these applications improves viable competition in each of the respective service areas.

Significant Events: Finance Rate Cases

July 1, 2007 through June 30, 2008

Docket U-05-103 – The Commission rejected a settlement agreement involving the investigation of a cost-of-service study (COSS) and rate design filed by Anchorage Water and Wastewater Utility (AWWU) for its wastewater division. On April 16, 2008, the Commission held a public hearing for the Commission to obtain additional information and evidence that was necessary to make a final decision in the docket. On April 28, 2008, the Commission approved the COSS, with modifications, in Order U-05-103(17). The modified COSS that was filed on May 29, 2008 resulted in a 52.7% increase to the Septic Haulers' rates, which is significantly less than the originally proposed 141.7% increase. These rates will be phased in over a three-year period.

Docket U-06-134 – The Commission accepted settlement agreements between Chugach Electric Cooperative (Chugach) and various other parties regarding Chugach's revenue requirement and rate design. The settlement agreements stipulated to both rate increases and decreases to various customer classes. Chugach's retail customers' rates decreased by 4.9 percent, while its wholesale customers' rates increased by 10.6 percent. Chugach's wholesale generation and transmission (G&T) customers' rates increased as well, ranging from 8.9 percent to 13.7 percent, depending on the customer. Matanuska Electric Cooperative (MEA), one of Chugach's wholesale G&T customers, was not a party to the settlement agreements and opposed the Commission's acceptance of them. On October 16, 2007, the Commission held a hearing to create a record upon which to decide the revenue issues that underlie a determination of just and reasonable rates for MEA. On April

1, 2008, after a lengthy and contested proceeding, the Commission issued its substantive ruling in Order U-06-134(21). The effects of the order was such that MEA's rate increased by 10.5 percent.

Docket U-06-138 and U-06-139 – The Commission reviewed and accepted a settlement agreement on a case opened to investigate Anchorage Water and Wastewater Utility's (AWWU) proposed 51.34 percent increase to its previously approved water service rates and a 39.83 percent increase to its previously approved wastewater service rates. The settlement agreement resolved the dispute between AWWU and the Regulatory Affairs and Public Advocate section of the Attorney General's office and stipulated to a 7.0 percent increase to its water service rates and a 9.5 percent increase to its wastewater service rates. The settlement agreement was accepted, pending resolution by the supreme court (*Municipality of Anchorage d/b/a Anchorage Water and Wastewater Utility v Regulatory Commission of Alaska*, Case no. S-12788) as to whether AWWU may include Municipal Utility Service Assessment payments on contributed plant, or until the Commission approves new rates based on a new filing.

Docket U-07-76 and U-07-77 – The Commission initiated an investigation of a request for a 23 percent water rate increase and a 7 percent wastewater increase by Golden Heart Utilities (GHU) and College Utilities Corp (CUC). The Commission convened hearings on the matters on March 3, 2008 through March 6, 2008 in Fairbanks. On June 30, 2008, the Commission issued Order U-07-76(8)/U-07-77(8) determining the contested issues related to the GHU/CUC's revenue requirements. The Commission also required

refunds be paid for the difference between the higher interim and refundable rates GHU/CUC had been charging and the new rates established as a result of the Commission's ruling.

Docket U-07-112 – The Commission reviewed and accepted a settlement agreement on the case opened to investigate Bethel Utilities Corporation's (BUC's) proposed 9.81 percent increase to its electric rates. The Commission- accepted settlement agreement reduced BUC's rate increase to 5.48 percent. Because the stipulated rates were lower than the rates BUC had been charging on an interim and refundable basis, BUC was required to pay refunds of the difference, plus interest, to its ratepayers, pursuant to Order U-07-112(6), dated June 2, 2008.

Docket P-07-012, P-07-013, and P-07-015 – The Commission approved a series of applications in three different dockets completely restructuring the ownership of Cook Inlet Pipe Line Company (CIPL), the holder of Certificate # 303. Prior to the filing of the applications, CIPL's corporate structure was as follows: Forest Oil Corporation (Forest) owned 40 percent, Union Oil Company of California (Union Oil) owned 40 percent, and Mobil Pipe Line Company (Mobil) owned 20 percent. After the Commission reviewed and approved the applications, CIPL's corporate ownership structure is as follows: Pacific Energy Resources Ltd., a new player to Alaska oil and gas asset ownership, holds 50 percent and Union Oil holds the remaining 50 percent. As such, Forest and Mobil no longer hold any ownership interests in CIPL.

Significant Events: Tariffs

July 1, 2007 through June 30, 2008

Tariffs are the written terms, conditions, rules and rates governing a utility's or pipeline carrier's conduct in providing service. They are similar to bylaws of a corporation. In approving a Certificate of Public Convenience and Necessity, Registration, or Provisional Certification, the Commission also reviews the tariff of the applicant. All regulated utilities and pipeline carriers are required to maintain a tariff and to operate under the terms of the tariff.

Regulated utilities and pipeline carriers must notify the Commission of any proposed changes to their tariffs. Generally, the Commission must approve the tariff revisions before the revisions can take effect. The Commission considers most tariff filings at "tariff action meetings" which are conducted twice monthly. However, the Commission allows certain types of utility tariff revisions to take effect automatically upon filing, or at the end of a 30-day period. Most tariff revisions for long distance telephone services, competitive refuse services, and steam heat may take effect automatically after 30 days. Some non-dominant, competitive local telephone service tariff filings become effective upon filing with the Commission. The review process prescribed by AS 42.05.361 – AS 42.05.441 includes a period for public comment and allows the Commission to approve, reject, or suspend a tariff filing for further investigation.

Review, analysis and disposition of tariff filings are substantial elements of the Commission's workload. During fiscal year 2007 there were 686 tariff filings submitted to the Commission. 385 tariff filings were approved after analysis. Of the remaining filings, 78 were suspended for further investigation, 23 were withdrawn, 27 were rejected, and 15 were pending as of June 30, 2008.

The following table lists the disposition of tariff revisions for fiscal year 2008 by utility type.

Disposition of Tariff Filings

7/1/2007 thru 6/30/2008

Utility Type	Number of Tariff Filings	Approved	Pending	Rejected	Suspended	Withdrawn	Effective Upon Filing	Took Effect

Significant Events: Telecommunications

July 1, 2007 through June 30, 2008

MCI Section 63.71 Application– On July 25, 2007, MCI Communications Services, Inc. (MCI) filed an application with the Federal Communications Commission (FCC) to prevent Alaskans and others from recharging long distance MCI Prepaid Phone Cards purchased from Costco stores, effective September 4, 2007. On August 9, 2007, the Commission opposed the MCI application. MCI was never granted authority to implement its proposal and ultimately withdrew its application. If MCI had succeeded, MCI would have been able to deny Alaskans access to low long distance rates (roughly 3 cents per minute) that many Alaskans had come to rely on for personal and business needs.

Docket U-05-004 Appeal – On October 5, 2007, the Superior Court for the State of Alaska ruled against the Commission's procedural treatment of an application for certification filed by GCI Communication Corp.(GCI), determining that portions of the application related to service in Bethel, Wrangell, Petersburg, Seward, Sitka, and Nome (five exchanges) went into effect by operation of law. As a result of the Court's decision, the Commission's order requiring GCI to serve the entire study areas where the five exchanges were located was made void, effectively reducing GCI's local operating authority to provide service to the five exchanges. On November 24, 2007, the Court affirmed the remaining Commission decisions in Docket U-05-04 that were under appeal. As of June 30, 2008, GCI was serving Anchorage, Fairbanks, Juneau, the Matanuska Telephone Association, Inc. area, Sitka, Valdez, Seward/ Moose Pass, Ketchikan, the ACS of the Northland Glacier State study area, and Nome, with GCI to serve the remaining areas approved in Docket U-05-04 in five years from the time of approval.

This application is significant as it facilitates local competition throughout many rural areas of Alaska.

Docket U-07-038 – The Commission investigated the proposed revenue requirement filing of Copper Valley Telephone Cooperative, Inc. (CVTC). The investigation progressed until December 7, 2007, when the Commission accepted a stipulation filed by the parties resolving all issues. (Order U-07-38(7), dated December 7, 2007 and Order U-07-38(8), dated April 3, 2008). This case is significant as the revenue requirement developed here would be the basis for CVTC's new rate design. CVTC's new rate design has the potential to substantially raise consumer rates as CVTC proposes to charge different rates depending upon where the customer lives (e.g., Valdez or another CVTC area).

Dockets U-07-065, U-07-068, U-07-070 and

U-07-071 – The Commission denied a series of petitions filed by GCI to designate the entire study areas served by Alaska Telephone Co. (ATC), Interior Telephone Co. (ITC), Mukluk Telephone Co. (Mukluk), and United-KUC, Inc. (United-KUC) as competitive local exchange markets subject to relaxed rate regulation. The petitions were denied when it was determined that there were no longer multiple providers certificated to serve throughout each area in light of a court ruling partially withdrawing GCI's authority to serve (see U-05-004 above). (ATC Order U-07-65(2), Mukluk Order U-07-68(2), United-KUC Order U-07-70(2), and ITC Order U-07-71(2) each dated December 3, 2007)

Docket U-07-069 – In response to a GCI petition, the study area of Cordova Telephone Cooperative, Inc. was designated by the Commission as a competitive local exchange market subject to relaxed rate regulation. (Order U-07-69(2), dated December 3, 2007) This and other cases where the Commission has reduced its regulatory control by either declaring an area a "competitive

Significant Events: Telecommunications

July 1, 2007 through June 30, 2008

local exchange market” or declaring a carrier “nondominant” signify a material change in the level of Commission oversight compared to the standard statutory review applied to most regulated utilities. In these cases competitive pressures are assumed to reduce the need for Commission regulation, allowing carriers greater flexibility to facilitate rate reductions, offer new services and modify existing services based on market conditions and consumer demand, to the benefit of the public.

Docket U-07-083 – The Commission reviewed the annual certification to the Federal Communications Commission of the use by companies of 2008 federal universal service funds. The certification letter was filed September 27, 2007. In 2007 Alaskan carriers received \$160 million in federal universal service payments, roughly half of which could be affected if the Commission found grounds to challenge the use of funds by the utilities.

Docket U-07-099 – The Commission designated the Nome exchange as a competitive local exchange market and conditionally granted Mukluk nondominant carrier status in the exchange. With this decision, Commission oversight of Nome local exchange rates is substantially reduced in light of competition in the area. (Order U-07-99(2), dated February 1, 2008).

Docket U-07-102 – The Commission granted a petition to designate ACS of the Northland, Inc. (ACS-N) as a nondominant carrier for most retail local services throughout the Glacier State study area. The Glacier State study area includes Delta Junction, Fort Greely, Homer, Kenai, Kodiak, Nenana, Ninilchik, Nome, North Kenai, North Pole, Seldovia and Soldotna. ACS-N had previously obtained nondominant status in roughly half of these exchanges prior to the Commission decision in Docket U-07-102. With the decision in U-07-102, Commission oversight of local exchange

rates throughout the Glacier State study area is substantially reduced in light of competition in the area. (Order U-07-102(2), dated January 28, 2008).

Docket U-07-110 – The Commission denied a request by ATC for nondominant status throughout its service area when it was determined that there were no longer multiple providers certificated to serve throughout the ATC area in light of a court ruling partially withdrawing GCI’s authority to serve (see U-05-004 above). (Order U-07-110(2), dated February 29, 2008).

Docket U-07-116 – The Commission is evaluating a proposal by Copper Valley Telephone Cooperative, Inc. (CVTC) to modify its plan for how federal universal service funds will be distributed by exchange within its area. The CVTC plan has the potential to affect the local rates charged by CVTC as well as the level of federal support received by any eligible competitor operating in the CVTC service area. This matter remains under review.

Dockets U-07-140, U-07-147, U-07-148, U-07-149 - The Commission conditionally approved joint applications to allow GCI to obtain a controlling interest in United Utilities, Inc., United-KUC, Inc., and Unicom, Inc., affecting four separate certificates of public convenience and necessity. United Utilities, Inc. serves over 50 small, rural, local exchanges, most of which are located in western Alaska near Bethel. United KUC, Inc. serves Bethel, McGrath, and Unalakleet. Unicom, Inc. is an interexchange carrier with authority to serve statewide. (Order U-07-140(5)/U-07-147(5)/U-07-148(5)/U-07-149(5), dated May 7, 2008).

Dockets U-07-143, U-07-152, U-07-153, U-07-154, U-07-155, U-07-156, U-07-157, U-07-158 - The Commission approved joint applications to allow TelAlaska Holdings to obtain a controlling interest in TelAlaska, Inc., and ultimately Interior Telephone

Significant Events: Telecommunications

July 1, 2007 through June 30, 2008

Co., Mukluk Telephone Co., TelAlaska Long Distance, Inc., Eyecom, Inc., and Alyeska Cable Co. affecting eight separate certificates of public convenience and necessity. Interior Telephone Co. serves rural, local exchanges throughout the state, including Seward, Unalaska, and Iliamna. Mukluk Telephone Co. provides local exchange service in Nome and communities near Nome. TelAlaska Long Distance, Inc. holds statewide certification. Cable television service affected by this application includes service to Girdwood, Galena, Port Lions, and Unalaska/Dutch Harbor. (Order U-07-143(6)/U-07-152(6)/ U-07-153(6)/ U-07-154(6)/ U-07-155(6)/ U-07-156(6)/ U-07-1 57(6)/ U-07-1 58(6), dated April 7, 2008).

Docket U-08-144 – Adak Eagle Enterprises was allowed to reduce its local exchange rates by 23.5% while the Commission investigated whether further reductions should occur in light of a revenue surplus equivalent to a 56.56% rate reduction. This matter remains under review. (Order U-07-144(1), dated December 24, 2007)

Docket U-07-145 – The Commission granted summary judgment of a motion filed by interexchange carriers preventing the Alaska Exchange Carriers Association, Inc. from retroactively increasing access rates to compensate for a \$677,503 calculation error. The Commission's decision is under appeal. (Order U-07-145(3), dated May 16, 2008).

Docket U-07-161 – The Commission suspended for further review a tariff filing submitted by CVTC proposing to modify its local exchange rates to allow rates to vary by exchange, subject to proposed rate ceilings. Under this proposal residential and basic business rates to Chitina, Glennallen, McCarthy, Mentasta, and Tatitlek could increase by 40% during a five year period. The proposal is based on multiple complex studies submitted by CVTC, one of which is the funding plan submitted by CVTC in Docket U-07-116. The Commission denied CVTC's request that

its proposed rates be allowed to go into effect on an interim basis, pending the outcome of Docket U-07-161. Parties submitted prefiled testimony on Dockets U-07-161 and U-07-116 in April and June 2008. Docket U-07-161 remains under review. (Order U-07-161(1), dated November 19, 2007).

Dockets U-07-122, U-07-124, U-07-125, U-07-129, U-07-130 – The Commission accepted stipulations requiring five local exchange carriers to pass through to consumers the benefit from redemption of Rural Telephone Bank patronage stock. The consumer benefit calculated by each company is as follows: ACS of the Northland, Inc. (\$637,594); Bristol Bay Telephone Cooperative, Inc. (\$167,606); Bush-Tell, Inc. (\$39,767); Nushagak Electric & Telephone Cooperative, Inc. (\$223,371); and OTZ Telephone Cooperative, Inc. (\$13,788). Consumers will obtain a credit towards their monthly Network Access Fee over a period of years until all of the refund is credited to consumers. (Order U-07-122(6), dated March 28, 2008; U-07-124(5), dated March 28, 2008; Order U-07-125(5), dated March 28, 2008; Order U-07-129(5), dated April 1, 2008; Order U-07-130(5), dated March 28, 2008)

Docket U-08-003 – In response to a GCI petition, the Commission designated the entire study area served by the Arctic Slope Telephone Association Cooperative, Inc. as a competitive local exchange market subject to relaxed rate regulation. (Order U-08-03(2), dated May 6, 2008).

Docket U-08-006 – This docket was opened to investigate GCI's request that it be eligible for federal universal service funds in the Mukluk study area. This case is unusually complex as it is the first instance where a company holds local exchange certification for only a portion of the area for which it seeks funding eligibility and where the company proposes to meet funding eligibility requirements through both wireline local exchange facilities and commercial mobile radio service

Significant Events: Telecommunications

July 1, 2007 through June 30, 2008

facilities. Numerous procedural comments, motions and other pleadings were filed. If its application is approved, GCI estimated that it would be eligible to receive \$9.50 in federal universal service support per line in Nome and \$115 per line in support for villages outside of Nome. The case remains under review.

Docket U-08-023 – On February 15, 2008, the Commission opened Docket U-08-23 to investigate quality of service issues related to the local exchange service provided by ACS of the Northland, Inc., in Thorne Bay and Klawock, Alaska, in light of numerous consumer complaints. This matter remains under review.

Docket R-06-002 – After a two-year review, the Commission concluded that it would require incumbent local exchange carriers to leave the State's access charge pool in light of competition in their markets. The Commission believed that continued pooling would insulate the incumbent from competition, discriminate against the competitor, and lead long distance companies to pay an unfair share of common line costs for customers the incumbent no longer served. (Order R-06-2(3), dated March 13, 2008).

Docket R-06-003 – The Commission investigated the procedures that should apply to telecommunications carriers seeking Eligible Telecommunications Carrier (ETC) status. ETC status is a prerequisite for receiving state and federal universal service funding, which was collectively \$164 million in 2007. Comments on proposed regulations were received in February and March 2008. In light of these filings, the Commission issued a revised set of proposed regulations for public comment in June 2008. (R-06-3(5), dated June 10, 2008).

Docket R-08-002 – The Commission opened this

docket to receive comment on how to respond to three orders of the FCC concerning potential federal reforms of national universal service funding mechanisms. Such policy reforms could potentially affect \$160 million in total federal high cost support received by Alaskan companies. On June 2, 2008, the Commission filed Reply Comments with the FCC opposing use of reverse auctions to determine funding levels and taking a variety of other positions in response to FCC proposals. (R-08-02(1), dated March 14, 2008)

Docket R-08-003 – On May 20, 2008, the Commission opened an investigation into potential changes to its access charge and state universal service policies, including whether funding should be provided to local and interexchange carriers of last resort. Comments were received in June, 2008. (R-08-03(1), May 20, 2008).

Utility, Pipeline, and Regulation Dockets

Active During FY 2008

This series of tables lists by docket number those dockets that were in the status of “open” sometime during FY 2008. This includes dockets that were open at the beginning of the fiscal year and those that were opened after the year began. The Commission has included short descriptions to provide a basic overview of the dockets’ subject matter. These descriptions are not necessarily complete in all respects, nor are they intended to reflect the Commission’s viewpoints on the merits of each docket. The dockets have been broken into three major groupings, representing utility dockets subject to the provisions of AS 42.05, pipeline dockets subject to the provisions of AS 42.06, and regulations dockets wherein the Commission considered changes to its regulations or other matters of general importance. In some dockets the Commission has completed its actions and is awaiting the outcome of appeals pending in court.

Utility Dockets Active During FY 2008

Docket Number	Docket Description	Date Opened	Date Closed	Docket Subtype

Appeals of Commission Decisions

Active During FY2008

This table lists, by the Commission's docket number, those matters where a Commission decision in the docket was appealed to either state or federal court. This table lists appeals which were pending sometime during the fiscal year, even if the underlying docket was closed prior to this fiscal year or the appeal was actually filed prior to the beginning of the fiscal year.

Docket No.	Docket Description	Date Opened
Case No.	Docket Remarks (Appeal History)	
P-03-004A	STATE OF ALASKA vs. RCA	07/12/2004
3AN-04-8897CI	3AN-04-8897CI Consolidated with 3AN-04-8780CI RCA affirmed 2/26/08	
P-03-004A(2)	TAPS CARRIERS vs. RCA	07/12/2004
3AN-04-08780CI	In Order P-03-4(34), issued June 10, 2004, the RCA rejected the TAPS Carriers' intrastate TAPS rate filings for the years 2001 through 2003, which were based on the so-called TAPS Settlement Methodology. Order 34 ruled that just and reasonable rates for years after 2000 would instead be established using the methodology set forth in Order P-97-4(151) and determined post-2000 rates based on that methodology. The affected TAPS Carriers and the State appealed that order and related orders to the Alaska Superior Court, though the State later dismissed its appeal. Amerada Hess Pipeline vs. RCA, Case No. 3AN-04-8780 CI. Briefs were filed and oral argument is scheduled on September 20, 2007. Affirmed 2/26/08	
P-04-004A	BP/Exxonmobil/CPTAI/Koch/Unacal vs. RCA	01/17/2006
3AN-06-4380CI - STAYED 7/28/06	3AN-06-4380CI - STAYED 7/28/06 Dismissed 6/16/08	
P-05-001A	BP/Exxonmobil/CPTAI/Koch/Unacal vs. RCA	01/17/2006
3AN-06-04380CI- Stayed 7/28/06	3AN-06-04380CI- Stayed 7/28/06 Dismissed 6/16/08	
P-05-002A	SOA vs. RCA APPEAL	03/16/2006
3AN-06-06012CI	In Dockets P-05-2, P-06-2, P-05-3, P-06-3, P-05-8, and P-06-4, the RCA issued orders which suspended annual settlement rates filed by BP Transportation (Alaska) Inc. for the Badami, Endicott, and Milne Point pipeline facilities, but permitted those rates to go into effect on a permanent basis each day that no protest is filed. The State appealed those orders to the Alaska Superior Court. State of Alaska vs. RCA, Case No. 3AN-06-6010 CI. On November 30, 2006, the State, the RCA, and BP Transportation (Alaska) stipulated to a stay of the consolidated Superior Court appeals in order to determine whether they may reach a settlement of the issues presented by those appeals, thus making it unnecessary for the Superior Court to decide those issues. On December 15, 2006, the Superior Court entered an order staying the appeal proceedings, as stipulated, and that stay remains in effect. Consolidated with 3AN-06-6010CI (P-05-003) and 3AN-06-6011CI (P-05-008). Charles Cole is representing the RCA in this matter.

Appeals of Commission Decisions

Docket No.	Docket Description	Date Opened
Case No.	Docket Remarks (Appeal History)	
P-86-002A	TESORO vs. RCA	09/17/2003
3AN-03-11523CI Remanded 06/22/2006 - Appealed to Supreme Court	APPEALS Trans Alaska Pipeline System Intrastate Rate Appeals (Commission Dockets P-86-2, P-97-4, P-97-7, P-03-4, P-04-1, P-05-1, and P-06-1) All rates charged for the intrastate shipment of oil over the Trans Alaska Pipeline System Commission from 1986 to 2006 are on appeal from the Commission to the Alaska courts in a number of separate sets of consolidated cases. In November 2002 the Commission found that the 1997-2000 intrastate rates charged by the TAPS Carriers, as calculated under the TAPS Settlement Methodology, were not just and reasonable. The Commission established a methodology to calculate just and reasonable intrastate TAPS rates and set lower permanent rates for the years 1997-2000. That decision was appealed by the TAPS Carriers and the State of Alaska to the Superior Court. In January 2006 the Superior Court affirmed the Commission's decision on the 1997-2000 rates. The 1997-2000 rate decision is pending in the Alaska Supreme Court on appeal by the TAPS Carriers. In February 2004 the Commission made the 1986-1996 intrastate TAPS rates permanent. Those rates, calculated under the TAPS Settlement Methodology, had previously been suspended to determine whether they were correctly calculated and contained acceptable input data. The decision to make those rates permanent is pending in Alaska Superior Court on appeal by Tesoro Alaska Company and Williams Alaska Petroleum, Inc. Commission order affirmed 6/17/08 on remand from Supreme Court (S-12352/12391) RCA vs. Tesoro, 178 P.3d 1159 (Alaska 2008)

R-06-002A	MTA et al vs. REGULATORY COMMISSION OF ALASKA regarding regulations affecting access charge policies in competitive markets 3AN-08-06709CI	04/15/2008
3AN-08-06709CI	3AN-08-6709CI Appeal from RCA closure of the access charge pool exit regulations docket without action by RCA. This effectively required local exchange carriers subject to competition to exit the access charge pool on a date to be determined in separate dockets. RCA's motion to dismiss (on ripeness and agency primary jurisdiction grounds) is pending and ripe for decision as of 9/12/08.	
U-03-100A	MEA vs. RCA	02/03/2005
3AN-05-04745CI	The Superior Court for the State of Alaska, Third Judicial District, on December 19, 2006 (3AN-05-4745CI), upheld the RCA's 2004 decision in Docket U-03-100 requiring Matanuska Electric Association (MEA) to provide 138kV transmission service to users of the Alaska Intertie. The Commission's decision granted the application of Golden Valley Electric Association, Municipal Light and Power, Chugach Electric Association and the City of Seward, Seward Electric Association Inc. (Parties) for joint use and interconnection of an approximately 20-mile section of MEA's transmission line used for operation of the Alaska Intertie. MEA had been leasing the line since 1986, operating the line at a voltage of 138kV under the terms of a Transmission Service Agreement (TSA). When the TSA expired in 2004, MEA decided to covert the line back to 115kV, which according to MEA, was the line's original design capacity. When the Parties and MEA failed to reach agreement, they petitioned the RCA. After taking testimony from a number of expert witnesses including the engineer that designed the MEA line, the Commission found that operation of the line at 138kV met the statutory requirements of AS 42.05.321 and therefore granted the petition for joint use. RCA affirmed by Superior Court on 12/19/06. Case appealed to Supreme Court. See U-03-100S.	
U-03-100S	MEA vs. RCA	01/18/2007
S-12568	RCA affirmed on 5/23/08. MEA vs. RCA, 184 P.3d 19 (Alaska 2008) See also U-03-100A

3AN-06-8243CI	3AN-06-8243CI Challenge to RCA - approved, updated depreciation rates for Chugach Electric Association, as being allegedly discriminatory against wholesale customers. RCA affirmed 7/21/08.	
U-05-004A	CVTC & CORDOVA vs. RCA	12/16/2005
3AN-05-14077CI	3AN-05-14077CI GCI Communication Corp. d/b/a General Communication, Inc. d/b/a GCI (GCI) filed an Application to amend Certificate No. 489, requesting authority to provide local exchange service to an additional eleven areas in Alaska. GCI sought authority to provide service throughout the study areas of the City of Ketchikan, Cordova Telephone Cooperative, Inc. (CTCI), Copper Valley Telephone Cooperative, Inc. (CVTC), Matanuska Telephone Association (MTA), and the Glacier State study area of ACS-N. GCI also sought authority to provide local exchange services in Wrangell, Petersburg, Sitka, Seward, Bethel, and the Nome areas. TelAlaska, United KUC, Inc. (KUC), CTCI, CVTC, and the Rural Coalition jointly filed comments on GCIs Application. The Commission approved, in part subject to conditions, GCIs application to amend Certificate of Public Convenience and Necessity (Certificate) No. 489. CVTC and CTCI appealed the Commissions decision to the Alaska Superior Court. Interior Telephone, Mukluk Telephone Company, Inc., United-KUC, Inc. and United Utilities, Inc. also appealed the Commissions decision. The two appeals were consolidated. Briefs were filed and oral argument occurred on August 31, 2007. RCA orders U-05-004(6) and U-05-004(7) were held to be void for lack of jurisdiction on 10/5/07. RCA was affirmed as to non-statutory timeline issues on 11/27/07.

Appeals of Commission Decisions

Docket No.	Docket Description	Date Opened
Case No.	Docket Remarks (Appeal History)	
U-05-046A	GCI vs. RCA	01/20/2006
3AN-06-4469CI	3AN-06-4469CI In 2003 an MTA (Mantanuska Telephone Association) affiliate (MTA Visions) received authorization to commence video programming service in portions of MTA's service area. GCI which is an affiliate providing cable television in MTA service area, filed a formal complaint alleging that MTA's entry into the video programming market resulted in the forfeiture of the right to assert its rural exemption against GCI under federal law. The Commission determined that MTA's rural exemption no longer applied against GCI in the geographic area defined by MTA Vision's certificate allowing GCI to request interconnection from MTA. After GCI and MTA were unsuccessful in negotiating an interconnection agreement, MTA requested that the Commission exempt it from certain obligations set out in federal law. MTA asked that the suspension remain in effect for three years, with the possibility of two additional one-year periods based on a continued showing of undue economic burden. The Commission granted MTA a three year suspension period, in which time MTA would be exempt from duties under 47 U.S.C § 251 (c)(3) and provide GCI access to unbundled network elements. The three year suspension also applied to obligations set out in U.S.C § 251 (c) (1), (2), (5), and (6) as they apply to access to unbundled network elements. The Commission denied MTA's request for additional suspension periods. GCI appealed the Commission's decision. The case is currently pending in Alaska Superior Court. The parties filed briefs and oral argument was held in Superior Court. RCA was affirmed on 10/15/07.	
U-05-103A	AWWU vs. RCA	02/17/2006
3AN-06-5349CI	AWWU filed a rate case on November 10, 2005 for its wastewater division (ASU). ASU sought a permanent rate increase, and alternatively an interim and refundable rate increase of 10.6%. The Commission granted ASU an interim and refundable rate increase of 4.01% and required AWWU to file revised tariff sheets and a cost of service study. ASU moved for a preliminary injunction in Superior Court (3AN-06-5349 CI) designed to allow ASE to implement the interim and refundable rate relief denied by the Commission. On May 26, 2006 the Court entered a preliminary injunction allowing ASU to implement ASU's requested 2006 interim rates on a refundable basis. The RCA relied on U-04-22(16)/ U-04-23(16) in determining that ASU should not be allowed to include in its revenue requirement MUSA payments, leaving interim and refundable only that part of ASU's revenue requirement that would be impacted by the final appellate court determination in Order U-04-22(16)/ U-04-23(16). Injunction granted and implemented in U-05-103(4). Decision in underlying case pending following oral argument on 10/8/08. See U-04-022A and U-04-022S.

3AN-07-04126CI	3AN-07-4126CI RCA affirmed by Superior Court. On appeal to Supreme Court in S-12696. See U-06-109S.	
U-06-109S	AECA vs. RCA	05/07/2007
S-12696	S-12696 Oral argument held 6/17/08. Decision is pending as of that date.	
U-07-073A	APPEAL - ALASKA DIGITEL LLC vs REGULATORY COMMISSION OF ALASKA for 3AN-08-08425CI	06/26/2008
3AN-08-08425CI	RCA denied ETC status and applicant appealed.	
U-07-074A	APPEAL - ALASKA DIGITEL, LLC vs. REGULATORY COMMISSION OF ALASKA - 3AN-08-08420CI	06/26/2008
3AN-08-08420CI	RCA denied ETC application and applicant appealed. Appeal dismissed by court for failure to file an opening brief. Brief was due 8/27/08, and dismissal order was issued 10/29/08.	
U-07-075A	APPEAL - ALASKA DIGITEL, LLC vs. REGULATORY COMMISSION OF ALASKA - 3AN-08-08415CI	06/19/2008
3AN-08-08415CI	RCA denied ETC application and applicant appealed. Appeal dismissed by court for failure to file an opening brief. Brief was due 8/27/08, and dismissal order was issued 10/29/08.	
U-99-141AAA	ACS vs. GCI & RCA	09/20/2002
01-35475	Ninth Circuit 01-35475 Consolidated with 01-35344 See U-99-141AA	
U-99-141N(2)	ACS vs. GCI & RCA	09/20/2002
01-35475	Ninth Circuit 01-35347 See U-99-141AA	

Active Certificates

This table displays all active certificate types on record with the Commission, including types which are not normally thought of as certificates of public convenience and necessity (CPCN), such as registered entities (ixc), which are indicated by the 3000 series of certificate numbers and are of the type intrastate interexchange carrier. The table also includes provisionally certificated water or sewer utilities (water, sewer), which are indicated by the 6000 series of certificate numbers. In addition to the division of the utilities by their type (electric, garbage/refuse, etc.), The commission has for purposes of this table included the applicable regulatory code for each utility. Although there are exceptions, the regulatory code generally indicates whether a utility's request to change its rates requires prior Commission approval. The table is organized by certificate type, then utility type, then entity name.

Number	Entity	Entity D/B/A	Utility Type	Regulatory Code
Certificate Type: CPCN				
592	ADAK CABLEVISION LARRY MAYES, CO-OWNER		Cable	Cable TV Exemption
336	ALYESKA CABLE COMPANY		Cable	Cable TV Exemption

Commission Meetings

This table lists, with docket numbers, the type of meeting for purposes of demonstrating the types that can be involved in processing a docket. Not all Commission meetings are listed here. The meetings listed are generally open to the public. Other types of meetings are not. The Commission's adjudication meetings, where the Commission deliberates on substantive issues, are not listed here, even though adjudication on a single docket can last for days.

Power Cost Equalization

Under the Power Cost Equalization (PCE) program the State of Alaska pays a portion of the electric bills for consumers served by utilities participating in the program. Generally, PCE reduces the effective rate per kWh up to 500 kWh per month per customer. The PCE program is administered by the Alaska Energy Authority (AEA).

The RCA establishes the PCE rate (cents/kWh) applicable to each utility participant's billings, regardless of whether the utility is otherwise subject to RCA's economic regulation. The RCA's fiscal year 2008 PCE rate setting activity is summarized below.

Revised PCE rates issued for regulated utilities

Funding level change directives from AEA – 0
Review of fuel cost reports – 74

Revised PCE rates issued for non-regulated utilities:

Funding level change directives from AEA – 0
Review of fuel cost reports – 111
Review of annual reports – 7

Additionally, AS 42.45.110(c)(2) provides that the Commission will, during each fiscal year, adjust the power costs for which PCE may be paid to an electric utility based on the weighted average retail residential rate in Anchorage, Fairbanks, and Juneau. In FY08 the RCA issued letter orders notifying each electric utility receiving PCE of the Commission's calculation of the base amount for PCE calculations as required by 3 AAC 52.610(c) and to inform participants that the base amount of 12.87 cents per kWh decreased to 12.83.
