YOUR CHOICE

Higher education, either college or vocational training, provides you with opportunities and choices not available to high school graduates.

As an upperclassman in high school, you no doubt know by now that your progression in life is fueled by an unending series of decisions. One of the biggest decisions now facing you is—what next? *Going to College in Alaska* is provided so that no matter how you choose to answer that question—your choice can be a well-informed one.

As decisions go, continuing your education beyond high school can be a MILLION DOLLAR DECISION. To help in narrowing down your choices *Going to College in Alaska* includes valuable facts and information about: choosing a program that fits you and your interests, Alaska's hot jobs and wage and employment outlook, free and low-cost financial aid, and diverse education and training opportunities right here in Alaska.

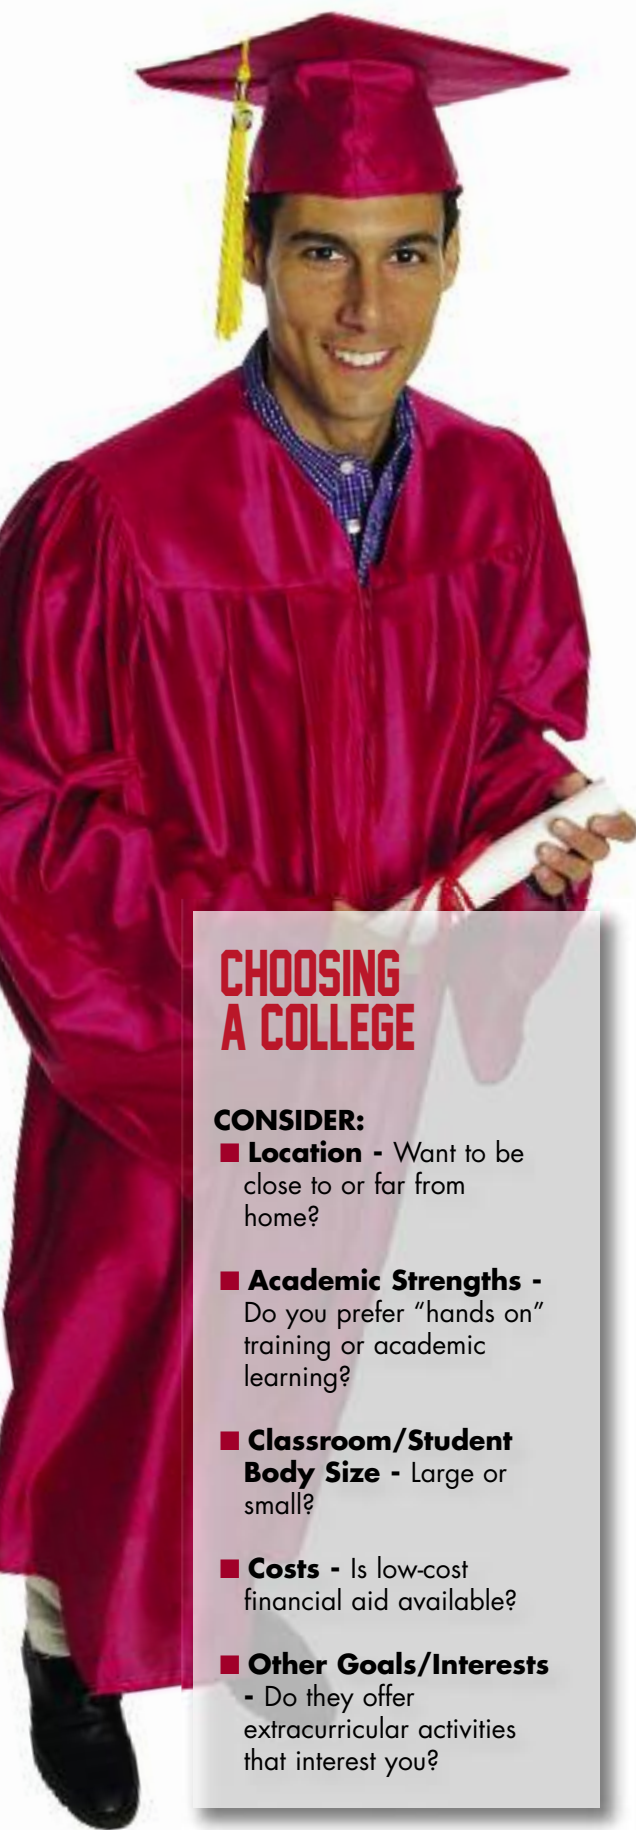

Where to start and what to consider? Start by finding the college or training program that fits you. Do that by looking at schools of interest and considering: cost, location, admission requirements,

financial aid availability, program or degrees offered, or study abroad options as well as the fun extracurricular stuff such as intramural or intercollegiate sports and campus life events and activities. *Going to College in Alaska* offers a snapshot of your Alaska options. It will be up to you to learn more about them.

The fine print is something you also want to pay attention to. If you decide to start up the educational ladder one rung at a time, enrolling first in a certificate program and then moving to an associate's degree and then to a bachelor's degree, etc., you really need to do your homework about the transferability of any credits you will earn at one school to another. To avoid taking (and paying for) the same or similar courses more than once on your way to a degree, look into an institution's credit transfer process and get a clear answer BEFORE you commit.

So get started today! If you need information that is not included in this publication, please visit acpe.alaska.gov, or call our call center, (800) 441-2962 for personalized assistance. Remember—it's your life and your choice!

AFTER HIGH SCHOOL

In Alaska, students can access a variety of postsecondary institutions offering vocational programs, certificates, two-year degrees, four-year degrees, and graduate programs. Alaska's institutions offer highly diverse programs of study designed to meet the individual needs of students as they prepare for future careers and Alaska's workforce demands.

Community Colleges usually serve city, borough, or region residents. They typically offer vocational certificates and associate's degrees and have open admissions, meaning minimal entrance requirements. EXAMPLE: Ilisagvik College in Barrow provides postsecondary academic, vocational and technical education training in an environment designed to embrace Inupiat culture, language, values, and traditions and enable local residents to thrive and succeed.

Vocational Schools & Colleges offer career and technical training in a "hands on" environment. Vocational schools may be public or private. EXAMPLE: AVTEC - Alaska's Institute of Technology in Seward is a public school within the Alaska Department of Labor and Workforce Development, specializing in job training for the Alaska workforce. Private vocational schools or colleges are also referred to as proprietary schools. These institutions, if accredited, are generally nationally accredited and are privately owned by for-profit businesses. EXAMPLE: Alaska Career College is a private vocational school offering specific courses to meet the requirements of the growing industries in healthcare, business, and computer technology.

Four-Year Colleges & Universities grant a broad array of bachelor's degrees, also called the baccalaureate (Bachelor of Arts or Bachelor of Science). Many also offer vocational certificates, associate's and master's degrees. EXAMPLE: University of Alaska, Alaska Pacific University, or Wayland Baptist are regionally accredited public or private non-profit colleges.

CHOOSING A COLLEGE

CONSIDER:

- **Location** - Want to be close to or far from home?
- **Academic Strengths** - Do you prefer "hands on" training or academic learning?
- **Classroom/Student Body Size** - Large or small?
- **Costs** - Is low-cost financial aid available?
- **Other Goals/Interests** - Do they offer extracurricular activities that interest you?

APPLYING to COLLEGE /TRAINING

Apply to schools that best fit your interests and offer programs matching your goals. You can get applications by contacting the admission office or apply online through the school's web site.

You need to complete an application or register for courses for each school you are interested in attending.

Tip! Your application will be your introduction to an institution, and you want to make a good impression. Make note of deadlines and submit your application or registration by those dates. Be sure to thoroughly complete all requested documentation and meet the deadline. If an essay is required, take the time to make it your best writing, and make sure you ask someone to proofread it for you. Keep a copy of your application and any attachments for your records.

GETTING ADMITTED

Institutions have admissions requirements, which vary by school. To make an admissions decision, institutions will carefully review the information you provide on your application and may require a personal interview.

OPEN ADMISSIONS

Many colleges and vocational schools have open admission policies. This means that in some cases, you may qualify to begin taking classes without being formally admitted to a degree program. However, it's still best to be admitted to a program, if you wish to qualify for financial aid. Consult each school for specific admissions policies.

COLLEGE APPLICATIONS CAN REQUIRE:

- | | |
|----------------------------|------------------------------|
| > personal information | > letters of recommendation |
| > educational experience | > awards and honors |
| > high school transcript | > extracurricular activities |
| > standardized test scores | > work experience |
| > class rank | > essay |

START HERE:

Every year, fill out a Free Application for Federal Student Aid (FAFSA) from the U.S. Department of Education, regardless of your family's income. If at all possible, use the FAFSA-on-the-Web for the quickest and easiest way to file.

WHEN:

It's available on January 1st of each year, so file it then or shortly thereafter. Make sure you file the FAFSA for the academic year in which you plan to enroll – and remember, you will need to file the renewal in each year you seek aid.

WHY:

The FAFSA determines your annual eligibility for federal and state financial aid programs such as grants like the Pell Grant, scholarships like the Alaska Performance Scholarship, work-study, and lower-cost education loans. It's also required to qualify for many campus-based and private scholarships.

HOW:

Applying is fast, safe, free and easy at www.fafsa.ed.gov.

If you'd like one-on-one assistance, find a FAFSA Completion event or other resources at acpe.alaska.gov.

THEN WHAT?

Shortly after submitting the FAFSA, you'll receive a Student Aid Report (SAR), which will tell you more about what aid you qualify for, and your Expected Family Contribution toward your college expenses.

GRANTS:

Grants are gift aid, meaning you don't have to pay them back. Award amounts are generally based on eligibility requirements such as your unmet financial need, and the cost of attending your school.

- Federal Pell Grant
- Federal Supplemental Educational Opportunity Grant (FSEOG)
- AlaskAdvantage Education Grant

FEDERAL WORK STUDY: This is part-time, on-campus employment to help students pay for college.

TIP

Every college you apply to will also have its own financial aid deadlines. Make sure you meet them. The FAFSA is a free application and you should not be charged a fee. If a fee is requested, chances are you have logged on to the incorrect web address. Try again at www.fafsa.ed.gov. If you think you will not be eligible for grants or work-study, it is still a good idea to fill out a FAFSA to ensure you are considered for scholarships such as the APS and that any loans you apply for are those with the lowest interest rates possible. If you need additional loan funds beyond the amount available through the federal Stafford loan, research your lender options to find the lowest interest rates and costs.

SCHOLARSHIPS:

Scholarships are also gift aid – free money! They may be awarded for academic achievement, talent, skill, community service, leadership, school activities, or your affiliation with a particular club, or civic/regligious/fraternal organization. Scholarships can be awarded by your school or college or by any organization sponsoring the scholarship. Be aware that many online scholarship search services may charge a fee. There is no need to pay a fee as there are several free searches available. For a free scholarship search try: www.akcis.org or www.fastweb.com.

- **Alaska Performance Scholarship** - Alaska now offers a scholarship to Alaska high school graduates who completed a specified rigorous high school curriculum, and meet GPA and test score requirements. The FAFSA is the application for the APS. Talk to your high school counselor for more information or visit APS.alaska.gov.

TYPES OF LOANS:

Education loans are borrowed money that must be paid back.

> STUDENT

FEDERAL LOANS

- **Perkins** - Based on need (offered by participating schools)
 - **Stafford Subsidized** - Based on need. The government pays the interest on this loan while in school.
 - **Stafford Unsubsidized** - Not based on need. Any student can apply.
- For more information, go to studentloans.gov

STATE LOANS

- **Alaska Supplemental Education Loan (ASEL)** - Low-cost state loan for students who cannot meet all their need through grants and scholarships or federal aid. For more information go to acpe.alaska.gov

SPECIALIZED ALASKA STATE LOANS

- **Teacher Education Loan (TEL)**
- **A.W. Winn Brindle - Fisheries Loan**

> PARENT AND FAMILY

- **Federal - PLUS**
- **State - Alaska Family Education Loan (FEL)**

ADDITIONAL SOURCES OF AID

- **529 UA College Savings Plan**
- **Personal savings**
- **Community and corporate grants and scholarships**
- **Service programs such as AmeriCorps**
- **Employer-sponsored tuition assistance programs**

There are also state and federal student assistance opportunities for military veterans, dependents of veterans who died or became disabled as a result of active duty, and dependents of military service personnel who were officially declared prisoners of war or missing in action. If you think you may be eligible, consult the veterans coordinator or financial aid office at your institution for more information.

HOW TO APPLY?

**Complete a FAFSA
online at:**
www.fafsa.ed.gov
or call
(800) 4-FED-AID

**Contact ACPE –
your State Higher
Education Agency - at:**
acpe.alaska.gov or call
(800) 441-2962

MAKE WISE CHOICES.... MINIMIZE COLLEGE DEBT!

To minimize your higher education debt, always be diligent in looking for ways to reduce your education costs.

Have you researched all your options for free money from grants and scholarships? Have you considered work-study? Have you looked into student exchange programs that would allow you to pay in-state tuition but experience out-of-state colleges? What about military options? In some cases, student loans may be repaid for a borrower while they serve in the Reserve or the National Guard. Additionally, some federal loans may be eligible for the Public Service Loan Forgiveness Program.

In short, by researching all of your options, meeting all financial aid deadlines, setting up a flexible spending plan, limiting impulsive buying, and avoiding high interest student loans, you can graduate from college without unnecessary debt.

ALASKA PERFORMANCE SCHOLARSHIP

ELIGIBILITY

- Complete a specified high school curriculum, and graduate from an Alaska high school in 2011 or later
- Achieve a high school GPA of at least 2.5
- Earn a minimum score on a qualifying college or career readiness test
- Enroll at least half time, in good standing, in a certificate or higher program at a qualifying Alaska institution
- Have qualifying unmet costs of attendance after considering all other non-loan aid

AWARD LEVELS

First Level Award up to \$4,755 per year –

- GPA of at least 3.5
- An ACT score of 25+ or
- An SAT score of 1680+ or

Second Level Award up to \$3,566 per year –

- GPA of at least 3.0
- An ACT score of 23+ or
- An SAT of 1560+ or

Third Level Award up to \$2,378 per year –

- GPA of at least 2.5
- An ACT score of 21+ or
- An SAT of 1450+ or

For all scholarship levels: Beginning with the high school graduating class of 2013, a combined WorkKeys score of 13 or higher - with no score below 4 - in Applied Math, Locating Information, and Reading for Information may qualify an otherwise eligible student for a Career/Technical Education (CTE) APS award. The CTE APS award may be used to fund a certificate program but not an associate's or other degree. By qualifying with an ACT or SAT score, students are eligible to pursue a certificate or a degree program.

You can earn up to 8 semesters of aid to be used within 6 years of graduation. For more information, talk to your high school counselor or visit APS.alaska.gov.

WE WANT TO HEAR FROM YOU!

What do you think of *Going to College in Alaska*?

Give us your feedback!

Complete this quick online survey by
December 31, 2012, for a chance to

WIN an IPOD® shuffle.

<http://www.surveymonkey.com/s/AlaskaColleges>

Must be an Alaska high school or college student to be eligible to win.
Employees and immediate relatives of employees of the Alaska Commission on Postsecondary Education are not eligible.

UA Scholars Program

Building Alaska's Future

To encourage top students to attend the University of Alaska, UA offers eligible Alaska high school students an \$11,000 scholarship. Eligible students are those ranked in the top 10% of their class at the end of the junior year, as designated by a qualified high school.

UA Scholars are making a difference for Alaska!

UA Scholars:

- Receive \$1,375 per semester for eight semesters of study at a UA school
- Can take a two-semester leave of absence
- May receive the award in conjunction with the Alaska Performance Scholarship (APS)
- Are designated by their high school at the end of their junior year

Think you may be eligible for the scholarship?
Contact your school counselor today!

ALASKA BIBLE COLLEGE

P.O. Box 289 | Glennallen, Alaska, 99588
www.akbible.edu

Explore His word, follow His steps. Alaska Bible College offers a unique location for study. Class sizes are small, so there is greater opportunity for more individualized instruction. The remote setting, which minimizes distractions, provides opportunity for quiet personal reflection – to be still and know God. While the environment is casual, students can expect academic standards as high as or higher than other colleges, and ABC welcomes home-schooled students.

ALASKA CHRISTIAN COLLEGE

35109 Royal Place | Soldotna, Alaska 99669
www.akcc.org

Alaska Christian College (ACC) is a Native-focused, Christ-centered institution that encourages all students to reach excellence in character, learning, and service. During the two-year Biblical and general studies education, Godly character is modeled in everyday living, and students are given the life skills necessary to become engaged citizens in their homes and communities. The students and staff form a safe, supportive, familial community in which students are introduced to the college experience and grow in all areas of life: intellectual, emotional, social, physical, and spiritual. Students are encouraged to pursue further education upon completion of their time at ACC, as well as to grow personally, serving God and others. The friendships and relationships formed at ACC will last a lifetime.

UAS SITKA CAMPUS

1332 Seward Avenue | Sitka, Alaska 99835
www.uas.alaska.edu/sitka

The beautiful and historic city of Sitka is home to the UAS Sitka Campus. Sitka, the fourth-largest city in the state (2010 population 8,881) is situated on Baranof Island, on the outer coast of Southeast Alaska. The campus supports some of the most remote student populations in the state with a focus on student services for distance learning. Campus renovations have allowed us to bring new facilities online in order to be fully integrated into Alaska's rural distance learning and telemedicine environment.
