1. No pics.
Built 1898 at St. Michael; Wrecked some time later, in New Hamilton Slough. 32 gross; 16 net; 56' x 16' x 4'
1. Port near broad; aerial view; tug standing by on port bow. (Porthole)

Built by Oresunds Varet Aktiebolag at Landskona, Sweden in 1937. 422 ft x 57 ft x 21.7 ft 9500 tons.

Has cruiser stern and reinforced bow for battling ice. Also equipped with deep tanks and has a total bale capacity of 516,002 cubic feet.

Originally owned by the Salen Skaugen Line, she suffered a severe fire several months ago and after being shrouded in mystery or obscurity she reappeared early in Oct. 1949 on the West Coast as the "Mosnes" of the A.S. Mosnes Shipping Co. of Kristiansand, Norway.

She will take a full load of lumber from B.C. ports to South Africa.

(The Porthole Picture shows her as the M.S. "Dagmar Salen" of the Salen Skaugen Line of Sweden.

M.D. Oct. 15, 1949
1. No picts.
Around Aug. 1951 she was swept by fire in the Orient. She was then sold to Panamanian interests and rebuilt as a tramp carrier.

M.D. Dec. 15, 1951

DAISY FREEMAN

P.C. Wooden steam Schooners

She was 613 tons; Built at Bendixsen Shipbuilding Co. Fairfield, Calif. for the Daisy Freeman S.S. Co., managed by S.S. Freeman of S.F. Had a 425 h.p. compound engine made by United Engineering Works.

In 1916 she passed to A.A. Moran; In 1918 to the Parr-McCormick S.S. Co.; In 1922 to Frank C. McPherson; In 1925 to the Chas. Nelson Co., and in 1928 to the ownership of W.S. Scammell, all of S.F.

During the '20's she was on the run from S.F. to San Simeon, hauling materials for W.R. Hearst's great estate there.

She was lost about 1939.

Built in 1906
DAISY GADSBY
Wooden Steam Schooners of the Pacific Coast

818 tons, built 1911, by the Matthews yards at Hoquiam for the management of S.S. Freeman of S.F., Calif. Carried 950-M ft. and had 550 h.p. triple-exp. eng. 1937 sold by Freeman to Fred Linderman and laid up at S.F. in Dec. of that year.
Built 1923 by Matthews at Portland. Carried 1250-M ft. lumber and had a 750 h.p. triple expansion engine built by the United Engineering Works of Alameda.

Was owned by S.S. Freeman, of S.F. and was still operating around 1947.

1187 tons.
DAISY GRAY
Wooden steam schooner

DAISY MATTHEWS
Pacific Coast Wooden Steam Schooners

943 tons, built 1916 by G.F. Matthews at Hoquiam, for S.S. Freeman, of S.F.
Carried 1100-M ft.
Powered with 650 triple ex. steam.
Under Freeman until 1940 at which time she encountered heavy weather off Eureka while bound south from Coos Bay. She was abandoned by her crew after losing her entire deck-load and drifting ashore above Pt. St. George to become a total loss. This was on May 4, 1940.
Wreckage on Humboldt Bar 1940
5/6/1940/6 Wrecked on Trinidad Head. Capt. and crew of 13 men rescued by C.G. Seams opened in gale on 3rd and put out her fires. Had 800,000' lumber "Lumberman" and tanker "Illinois" stood by until C.G. "Ariadne" came
DAISY PUTNAM
Pacific Coast Wooden Steam Schooners

886 tons; carring 1100-M ft. lumber, built for S.S. Freeman of S.F. by the Matthews Shipbuilding Co. of Aberdeen Wn. in 1913. Had a triple-expansion engine of 650 h.p. mad at the United Engineering Wks.

She was ashore on Point Arena in 1919 but was refl-oated, and was finally lost on Point Gorda, Nov. 22, 1929.

DAKOTA

Large American Frtr.
Sister ship to the "Minnesota" Hill's.

1. No/Photo!
   1. Port near broad. V.G. (Ships & Sailing—May 1952, p23)
   2. Group of wreck pics. (S & S May '52 Pages23 to 25)
See reverse side of card on "Minnesota"
The "Dakota" was lost Mar. 3, 1907 at the entrance to Tokyo Bay.

Very good complete history and story of wreck in May '52 Ships & Sailing Pages 22 to 26.
Left Seattle 2/17/1906 with 94 pass. and 8000 tons frt. Mistook Sunosatki for Jogashima and piled up on Sugami reef. She and the "Minn." are the two largest vessels on the Pacific Ocean—630' long and carry 26,000 tons. She was about 5 miles off course. Both were new boats—the "Dakota" being a few months younger than the "Minn".

Japen—considerable damage.
D.A. Disp. 11/12/1905 Surrounded a bad fire today at Kobe.
Lefted off.
Francher, commendation, Paper for 2/15/1907 says she was Yokohama, Japan last night. Has 94 pass. Capt. EMIL

D.A. Disp. 3/4/1907 says she was ashore 40 miles north of
1. At old Yesler wharf in early pict. of Seattle.
1. Port broad, slow, under bridge. (Porthole)
Built before the War (II) as the Holland-American Liner "Damsterdyk" 10,155 gross tons. She has recently been rebuilt and renamed the Dalerdyk" and now grosses 10,820 tons. She is 509' long and is commanded by Capt. Theunis Stuut.

Her power consists of two single, two-stroke Sulzer solid injection engines, each developing 4200 shaft h.p. She develops a speed of 14.75 knots.

Pict in porthole for May, 7, 1949 M.D.
Dalton

Old stern-wheeler.

2. Sold by City. (NOTE BOOK No. 1. pp 85)
3. Showing off, Ketchikan Hbr. (PCA-10)
1434 tons gross and 1600 net, is something of a mystery in her origin. According to the records of the Bureau of Marine Inspection and Navigation, she was built at Brunswick, Georgia, in 1920 by the Brunswick Marine Construction Co. While Lloyd's Register reported that she was built by the Hanlon Drydock & Shipyard Co. of S.F at Oakland in 1924. Whether or not the Brunswick yard which was a wooden shipyard, actually had anything to do with her construction, it is certain that the ship was not documented until 1924, and the Hanlon yard completed her as a steam schooner that year.

She had 1200 h.p. triple expansion steam. She was first operated by W.R. Chamberlin of S.F. but within a year or so was acquired by Johannes Rameslius of S.F who renamed her the ELNA in 1935 and still owns her in 1940. (over)
ELNA WAS under charter to the A.T.S and had been sunk once in Cadbury Bay, B.C. and then later lost for good in the Aleutians.
Port broad at dock, Seattle Pier.

DART

Pacific Sealing
American Schooner

10 tons: 37' x 12.6' x 5.8' O.N. 157275
Reported to have been built at Lummie, Wn. by Indians from Neah Bay in 1890. Hunted that year and took only 29 skins on the Wash. coast. Wrecked off Garmanah Point, Vancouver Id. in April 1895 while on a sealing voyage.
1. Port broad, still in old Seattle as old Pass str. Stbd. broad, rebuilt as now in ship canal. 
2. Bow on, burned and half sunk in Lake Union with other burned or scrapped vessels. Album 17. in same picture as "Reliance"
3. Port bow, near Graves Pt. as she was early on Petersburg Mail run. Photo Album.
4. On Northern Mach. grid; Ketch. Sept. '54 (PCA--7)
Built 1911 at Tacoma by M. McDowell as a passenger boat on the Seattle-Tacoma-East Pass run. Sold to Wrangell, Alaska interests in 1916. Returned to Puget Sound in 1925 as a unit of the Anderson Tug Boat Co. Burned in 1927 and some time later was sold to Maurice Reuber who took her to Juneau to go on the Juneau-Petersburg mail run in the early 1930's. After a few years Reuber traded with Einar Haugen for the "Phoenix IV" and also relinquished the mail contract to Haugen. In 1940 Haugen sold her engine, a 60 h.p. F.M. diesel to L.H. Bayers who installed it in his "Forester". The "Dart" was repowered with a new 150 h.p. Cummins Diesel. In 1941 (Nov.) she burned her house off at her berth in Juneau and was taken to Petersburg where a new deck-house with pilot house on top was built. The engine proved a 'lemon' and another one was installed in Seattle in 1942. That same winter Haugen put her on the auto-pilot and went to sleep---she piled up near Baranoff and was badly damaged. Was taken to Ketchikan for repairs and some time later was seized and sold to satisfy debts by the Ketchikan Bank. Bill Erickson of the Ketch. Trans. Co. bought her and she has since been on West Coast mail runs out of that port. (1952)
July 9, 1934  Severin Swanson, of Swanson Bros. Grocery, one of the owners of the M.S. "Dart" made this initial trip on the vessel on her newly acquired mail contract to Petersburg and way ports. (EMPIRE)

D.A.Disp. 3/23/1918  W.T.Hale and Leo McCormack of Wrangell have purchased the speedy little str. "Dart" from the McDowell S.S.Co. of Seattle a will place her on the West Coast of Prince of Wales run. 65' x 17' x 6'. Has a triple-expansion, oil-burning steam engine. 73 gross; 50 net.

12/27/1939/6  A new 180 h.p. Cummins diesel is being installed in the "Dart". The "Jazz" is taking her run.

2/5/1940/2  "Dart" 60 hours overdue on trip.

2/7/1940/6  "Dart" arr. late lost time in heavy fog which plagued her the entire trip.

8/21/1940/8  "Dart" hit reef off Kake dock---backed into it while leaving. Broke rudder and wheel and had to be towed to Ketchikan by "Jazz" for repairs. "Jass" took over the mail run.
11/19/1940  "Dart" suffers fire at Ferry Float last night. Ralph Pitcher, deckhand, sleeping on her, died, age 26. House damaged to about $3500. Covered by insurance. She will go to Ketchikan and the "Naha" will be placed on the run.

3/27/1941/6  "Dart" to return to run next trip---"Naha" to lay up.

5/13/1941/2  "Dart" repaired and new engine installed after bad fire last Nov. Returns to Juneau and will replace the "Jazz" on the mail run again.

9/11/1941/8  "Dart" hit rocks about a mile above Cascade Bay in Chatham Straits in fog on Aug. 30th. Badly damage.

4/30/1942  "Dart" is in Port Walter, partly submerged--hit a rock in Lower Chatham Str. (No details)

5/1/1942  More----says she hit a rock in Big Port Walter and is badly holed. Had 3 passengers. All K.

7/25/1942/3  Orville L. Mandle of Petersburg filed suit in U.S. District court against the "Dart" and Einar Haugen for $3400. plus $50. per day since July 17th, for raising her. He had been hired by Haugen to raise her at Port Walter and take her to a shipyard. When he got her to Petersburg it was occupied (shipyard) and so was...
Ketchikan so he started to run her to Juneau. On the way she broke a crankshaft and had to be towed back to Petersburg where she is still tied up.
DASHING WAVE

Pacific Sealing Ships

American schooner

148.90 gross; 141.46 net; 160'x27'x9.7' O.N. 6546

Built at Eureka in 1867. Employed in cod fishing out of S.F. for many years. In the winter of 1885, between cod-fish trips, Capt. M. Gaffney took her on a sealing trip to the Galapagos Islands, but was not very successful. This seems to have been her only sealing voyage. She was wrecked in Bering Sea in 1891.
1. No pict.

2. VG Pict. (Plate XII) AMERICAN NEPTUNE Apr. 1959
SKAGWAY DAILY ALASKAN May 10, 1903 says the old hulk was
towed into Skagway on the 9th with a load of 450 sheep,
200 steers, 50 hogs and 1100 bales of hay by the old steam
tug "Escort No. 2"

ALASKAN (Sitka) 7/13/'89 says the Sch. "D.W." Capt. Gaffney
arr. S.F. from Humbolt Bay, Western Alaska with 95,000
cod-fish for Lynde & Hough. (She was at Sitka in the fall
of 1886 for Capt. Morrissey's salmon and halibut fishery.
For additional of her activities in later life--as a
barge, see card on "Elihu Thompson"

EMPIRE: 3/17/1920/8 She and the cannery steamer "SanJuan"
which was towing her, both went ashore on Shelter Pt.
near Seymour Narrows while waiting for the tides. Both
refloated later with little or no damage.

Emp. 3/23/1920/7 Capt C.E.Ahues, Supt. of Taku Hbr. canner
arrived in Juneau today on the tender "President" a new
Libby tender and says that the loss of the "Dashing Wave"
and her cargo on Shelter Pt. is a severe one! Most of
her cargo was destined for Taku Hbr.
Port, broad, anchored in Juneau Hbr. Aug. 1930
Port near broad at Seattle Port as ST 150
Built 1919 at New Orleans, La. as the "U.S.N. 49" 115 gross; 59 net; 81.7' x 20.8' x 9.9'. In 1930 she was refitted with a diesel at Aberdeen and renamed "Rustler". Passed to the Foss Co. in 1940 and renamed "Edith Foss". In 1942 she was again sold to Alman Hubble of Hoquaim and renamed "Dauntless". (She was powered with a 450 Washington diesel in 1930.) Saw some service during War II with ATS in Alaska towing.
DAUNTLESS

1. Sm. old Sd. ferry
Std. bow, coming in tp, dock in swell. old. F
Picture taken 1899.
Built 1889 at Tacoma, Wn. 91 gross 61 net; 93.1' x 19.7' x 5.9'. She blew out of Apple-tree Cove in a howling northerly gale Jan. 5, 1924 and went to pieces on Meadows Pt.

Emp. 12/31/1923/6 The P. Sd. str. "Dauntless" broke loose her moorings from the dock at Kingston in yesterday's storm and blew ashore on Meadows Pt, 10 miles from Seattle. Broke in two; total loss; valued $60,000.
1. Stbd. broad, speed. (Mag. cut)

(Similar vessel to LT's 1; 2; 3; & 4; also built by the Jakobson Shipyards, Inc. West End Ave. Oyster Bay, N.Y.)
DAVENPORT

Pacific Coast Wooden Steam Schooners.

911 tons, built 1912, by Kruse & Banks, North Bend, for J.O. Davenport of S.F.
Carried 950-M ft.
750 H.P. triple expansion steam
Sold in 1936 to A.B. Johnson Jr. of S.F.
In Dec. 1940 she lost her deckload off the Oregon coast and was towed to Astoria by the tanker LOS ANGELES and soon put back in service.
Stbd. broad, still in stream as Libby's ship, VG.

Port broad, nearly dry on reef in Arthur Passage.

Port, bow, same mishap; taken Jan. 1942.

Port bow showing cargo being transferred to scow.

Port qtr. view of same mishap. Album 18.
Hit on Hammer Island, about 20 miles below Pringle Rupert, B.C. in Jan. 1942.

History in 1947 DIARY Page 444 Feb. 5.

Built at Flushing, Holland in 1915 as the "Fliesinggin" After she left the Libby fleet, after War II she became the Panamanian S.S. "Luxor" and in Sept. 1948 was sold to the Israeli "Zim Israel Nav. Co. Ltd. of Haifa. She has been renamed the "Negbah" Commanded by a Capt. Edmond Szagi in 1951.

M.D. 6/2/51

10/28/1941/8 Collided with ferry "Illahee" in fog off Marrowstone Pt. but no one hurt. Bow of ferry nearly severed. Both able to proceed to port.

In 1956 Israeli and renamed "Negbah" sold to Italian shipping.

"David W. Brench" became "Luxor" in 1947. In 1948 to the "David W. Brench" became "Luxor" in 1947. In 1948 to the "Ostria" and then passed on to Libya in 1927 and named "Ohria" then she passed to Grace Lines to become the "Santa Line" in 1926 and named "Ecuador". Later to Panama Mail Line. Built in Hamburg in 1917, to U.S. (P & O Mail)
K. Chron 2/14/1937 The SS "Santa Olivia" purchased last yr. in N.Y. by Libby's from the W.R. Grace Co. will soon be renamed the "David W. Branch" for the former manager of the salmon Dept. of Libby's, who recently retired and was replaced by Capt. Fred Svensson former sailing master on Libby's "Glory of the Seas", bark "Berlin" and ship "Wm. H. Macy." Branch was 44 yrs with the Co. and Svensson 25 yrs. The "Santa Olivia" was one of 3 ships acquired in Holland after War I. the others were the "Santa Isobel" and the "Columbia" which was lost in 1928 off the Mexican Coast. The Santa Olivia was launched in Ecuador and was 5544 gross and 395' long and 48.7' beam.
1. Port, broad near bridge in Portland Hbr. White G.
DAWN

Pacific Sealing Ships American schooner.

Listed with the sealing fleet in 1892 with a catch of 128 skins. (May be O.N. 157169 15.13 gross; built at Oakland Calif. in 1883; but more likely O.N. 157304 of 12 tons, built at Bandon, Ore. 1891 41' x 15' x 4.1')

ALASKAN (Sitka) tells of a sloop of this name, commanded by Capt. Bartel. She arrived Sitka 5/14/'92 and was to go sealing.
1976 tons, was also bought from the Standard Oil Co. in 1922 by the Pacific S.S. Co. A few years later she was sold to Baltimore owners, who converted her to an oil barge under the name "Pure Wofford." She was still afloat under that name in 1940.
1. No picts.
2. Arriving at Dawson Oct. 1919
3. Wrecked
Built at Whitehorse in 1901 to replace old ship of the same name—-for the Bennett Yukon Nav. Co. 779 tons; Wrecked in Rink Rapids in fall of 1926 Launched 5/28/'01
Emp. 10/14/1926 Hit rock in Rink Rapids and total loss.
Crew and pass. safe.
Emp. 10/15/1926 There were 80 pass. on the "Dawson" when she sank on Wed. 13th in Rink Rapids, about 25 miles N. of Carmack's.
1. No pict.

Ex "Gussie Brown" Built 1898 at S.F. Twin screw str. 119 tons; Blown ashore at Golovin Bay during a storm Oct. 21, 1902 and thought to be a total loss. There was no loss of life. She was refloated later however and repaired. Had left Nome Oct. 9, 1902 for Seattle, Capt Lupp and 15 man crew. Ran into storm—found no shelter at Sledge Id. Ran to Indian Pt. on Siberian side and unable to lay there. Had to use salt water in boilers and finally made Golovin Bay 10 days later. Owned by a Felix Brown.

She was built the "Dawson City" at S.F. in 1898 and after being salvaged and repaired was renamed the "Gussie Brown" No. 157,508 119 gross 86 net; 300 h.p. 13 crew 84.5' x 22.5' x 6.1'

D.A. Disp. 1/22/1903 Nome str. "Dawson City" is reported O.K. at Seattle. She ran out of coal after leaving Dutch Hbr. and had to sail down.
DAWSON

Yukon River steamer

1. No pics.
First ship of the name on the Yukon. No other info. See back of card on tug "Pilot" for more info.
1. No picts.
She was reduced to 3698 tons when converted to a barge. This huge craft in her heyday was a new development in large sailing vessels. She was 351.5' x 49.1' x 28.2'. Her foremast was 172' high.

J.A. Gibbs, Jr.

More info. Book 36 Page 13
More good info. pp. 3 in Book 44
1976 tons, also passed from the Sta. Oil Co. of N.J. to the P. Coast (P. S.S. Co.) then to Baltimore owners, who converted her to a barge without changing her name. She was scrapped in 1940.
1. Port broad, sails at sea. (Mag. cut)
2. Port qtr. sails at sea. (Porthole)
Dimensions: 548 gross; 478 Net. 162.2 x 37.3 x 13.2
Built in 1898 in the old G. H. Hitchings shipyard at
Hoquiam, Wn. as a lumber carrier. She competed with
steam schooners all during world war I and after--until
1923.

She made her last trip in 1923 when she left Grays
Harbor and returned late that year from Tonga with a
load of copra only to be sent to the S.F. boneyard.

Shortly after she joined the "Hollywood Navy" and
was one of the vessels used in the filming of Jack Londons
'Sea Wolf'. Then she was sold to a Calif fishing concern
and anchored off Balboa where she became a potent smelling
fish barge. Her hull was neglected and by 1929 she was
stripped and abandoned.
1. No pict.
She left Falmouth, Eng. June 3, 1797 under Capt James Drew, with over two million dollars worth of gold and silver bars and precious stones—-for the West Indies. She was classed as a sloop-of-war and carried an 86 man crew. In May 1798 she arrived off the Delaware Capes and while under mainsail and reefed top-sails, capsized about a half mile off Cape Henlopen. Capt Drew, 38 of his crew and about 200 Spanish prisoners went down with the ship.

The JUNEAU CITY MINING RECORD for Aug. 30, 1888 carried the story and added that Dr Seth Panevast and Lieut. Comm. Adams, U.S.N. were organized to locate the treasure.

Pacific Sealing Ships

DEEHKS

American schooner

45.10 gross; 42.85 net; built at Seattle in 1892.

60' x 17.8' x 7.2' O.N. 157359. First reported sealing in 1894 when she was skippered by James Claplanhoy, Chief of the Wahah Tribe at Neah Bay. Took 400 skins on the lower coast and 1023 in Bering Sea, the second largest catch by an American vessel that season. In 1895 she was skippered by Capt. John James on the lower coast where she took 82 skins, and by Capt. Ben Martinius in Bering Sea where the catch was 592. Not listed with the fleet after this year.

Gas engine installed in 1906 and name changed to "Std. Fish Co. No. 2" in 1907.
1. Stbd. near broad, sketch from above. (Mag. cut)
Built in 1947 by Birchfield Boiler, Inc. at Tacoma. Wn. 140' x 26.66' - all steel welded. For Deep Sea Trawlers, Inc. of Seattle. Fishing in Bering Sea for king crabs. Suffers fire damage in wheelhouse; extensive damage to radar, loran, etc. (Book 39; pp. 63)

1. Stbd. broad at Rotterdam pier. (Mag. cut)
In 1952 she made her 2nd 'maiden voyage to the Pacific N.W. and Seattle. She was completely rebuilt from the hull and emerged in April 1952 as the "Dongedyk" owned by the same company---Holland-American Lines.

M.D. Apr. 19, 1952
Port, nearly broad, port list, decks awash, near rocks on Sumner Island: foremost down.

Astern, decks awash, port list, foremost down, good view of surrounding country and reefs. P.C.A. 1.

Bow view, decks awash, about 75 degree list, foremost gone. (Believe this to be wreck on Sumner Id. although notation on picture says 'at Ketchikan. P.C.A. 1.

Port near broad, intact, Sumner Island 1915
986 tons; built at Winslow by the Hall Bros. Marine Railway & Shipbuilding Co. for the Pacific Coast Co. in 1906

Fitted to carry passengers and also a million ft. of lumber.

Had a triple-expansion engine of 800 h.p.

Wrecked on Sumner Island, Alaska Jan. 28, 1915 after floating off of Straits Island where she had originally hit in thick weather at 20:00 Jan. 18th. 1915. She was operated at the time by the Pacific Coast S.S. Co. and on watch when the accident occurred were Capt. P.C. McCarthy, Pilot; Victor Enquist and Chief Eng. ---Callow. Also piloting on her at the time was Frank Nystrom who was not on watch.

I believe she was salvaged some time later and towed to Ketchikan where she laid in a sunken condition on the beach there, for some time.

Lost 24 people on board when she wrecked and none were

Mentioned on back of card on "State of Callit." in Large.
D.A. Disp. 3/15/1911 says Str. "Delhi" long idle at Eagle Hbr., was towed to Seattle and will be readied again for the Alaska trade. (She was named after a fast race horse) She has long escaped serious accidents on the trade. She was built at Eagle Hbr. in 1906 227' x 38.3' x 16.6 986 gross; 582 net; 24 man crew.

D.A. Disp. 1/20/1914 She bounced off a rock on Zarembo Id. (Near, or on Vichnefski Rock) on the night of Jan. 15th during gale and blinding snow-storm. Able to proceed to Wrangell, then on to Seattle and is now in D.D. there. Damage to keel and bottom estimated at $6000.

D.A. Disp. 1/20/1915 She hit at 21/15 Mon. nite Jan. 18th. Black and misty and officers on watch could not see the light. Eng. was J.W. Callow. Enroute Craig to Wrangell. S.S. "Alameda" standing by.

D.A. Disp. 1/28/pp,3: Reported raised today by a Canadian Salvage outfit—and refloated—however,--

D.A. Disp. 2/5/1915 She was still fast on the reef;

D.A. Disp. 2/8/1915 pp.4; A total loss; "Salvor" lvs. scene.
D.A Disp. 2/16/1915 Jimmy Sayles and Carl Lancaster, on gas-boat "Taku II", picked up the drifting derelict "Delhi" and towed her to a safe harbor on Sumner Id. Sayles says the hull is not in too bad shape.

D.A Disp. 3/28/1915 pp. 2; More V.G. stuff; Capt Sayles:

D.A Disp. 8/26/1915 pp. 4; "Delhi" towed to Ketchikan and is now laying at the mouth of Ketchikan Creek. Will be raised and will soon be towed to Prince Rupert by the tug "Pioneer" where full repairs will be made.
ALASKAN (Sitka) 3/3/’94 she was to replace the "Crescent City" Capt. Allen, which has the mail contract to Alaska. Unit of P.C.S.S. Co.

ALASKA NEWS: 12/20/1894 Capt. McAllep has chartered the Str. "Del Norte" to replace the "Chilkat" next month. She is 187' x 32' x 12.5'! And was built in 1892.

VG picts. and story (S&S Spring 1958 pp 5)
Picture shows her being towed out of San Francisco on a trip that should end at Cincinnati, Ohio. She is 'boxed' up for her long ocean tow. Her new owners will operate her as a luxury passenger liner on the Mississippi and Ohio Rivers. Formerly she and her sister ship the "Delta King" were operated on an overnight run from S.F. to Sacramento. The tug "Osage" of P.T.&.B. and skippered by Steve King is a twin screw 'Miki' with two 800 F.M. diesels. The "Delta King" now owned by the Maritime Comm. is receiving bids from the River Lines who plan to dieselize her and use her on California's northern inland waterway system.

Built 1926 at Stockton, Calif. with her sister ship the "Delta King" both having exactly the same dimensions: 1837 Gross: 1318 Net 250' x 58' x 11.5'
Had 2000 H.P. steam in 1943 and carried 56 crewmen.

320.7' x 46' x 24.4' Steel hull 1800 h.p. 33 crew
Sister ship to "Depere"

She served all through War II and is still operating
in Oriental waters, having been sold to Chinese interests.
along with the "Lakina" and "Cordova" M.D. 1/22/'49

Built by Harlan Dry Dock & Shipbuilding Co. of Oakland.
While in service of the General S.S. Co. she went ashore
in Ecuador and was badly damaged. Ownership passed to the
A.S.S. Co. on Feb. 27, 1936 on a bid of $90,000. Shipping
Board agreed to pay cost of repairs out of purchase price
and the contract was awarded to Todds in Seattle.

She was the last of 5 Harlan built ships bought by A.S.S
Co. at that time---the others were the "Oduna" "Tanana"
"Depere" and "Jeptha."

STORM DAMAGE SEE BOOK 30; Page 59
Still in operation in China. (NOTE BOOK No. 1. pp 48)
11/16/1929 "Depere" hit rocks near Cape Decision at 19:00 last night. She was still afloat when she sent her S.O.S. and was attempting to make Port McArthur to beach herself. A later report from the vessel said she couldn't remain afloat that long and had to be beached on Cape Decision! She was Southbound from Cordova. Capt. John Newland. "Unalga" and "Cygan" both rushing to her assistance.

11/16/1929/7 The "Unalga" was towing the disabled halibut boat "Chelsea" of Ketchikan in from Area 3 with a broken crankshaft when she received the S.O.S. She towed the "Chelsea" into Mud Bay and anchored her there, where she and her 13 man crew would be safe until the C.G. cutter could return for them.

11/18/1929 Chief Eng. Geo. Kinnear praised— stayed at his eng. controls until the "Depere" was beached, an hour later. Water was up over the engine room floor plates. The sinking str. managed to make it to just inside the point in Port McArthur where she promptly sunk until her stern was under water. Capt. Newland was on the bridge and the 2nd Mate was on watch when she hit.
She has a $200,000 copper cargo on board. Her crew was sent south with the exception of Capt. Newland and 8 men who stayed by her. Chief Kinnear will return to the wreck on the "Salvage King".

"11/25/1929/7 "Depere" patched up and refloated by the "Salvage King" and is now afloat at Port McArthur and will soon be towed South.

"11/29/1929/7 "Salvage King" left Ketch. today towing the disabled str. "Depere" for Seattle.

"2/17/1930/7 "Depere" repaired and back in commission—79 plates had to be replaced.

"8/7/1939 She hit Prowley Rock (Wrangell Narrows) in fog at 06:45 Sun Morning Aug. 6th. Capt. Henry Burns beached her about a mile N. of Petersburg to prevent possible sinking. 40 in her crew. C.G. "Cyane" and wrecking str "Salvage King" are enroute to her aid. "Derblay" is also coming to remove her cargo.

"8/11/1939/6 "Depere" escorted to DuPont to unload powder. Will transfer balance of cargo to "Derblay". Inspected here by Clark and Newmark after her grounding at Petersburg on the 7th.

ALASKA MINING RECORD 9/15/97 says she broke a crank pin just after leaving Dyea last Sat. Sept. 11. and had to go back to that port for repairs.

11/30/98 paper says the local str. "Detroit" was wrecked during a snow-storm on the North end of Shelter Island. Her passengers and crew were all safe on shore. Purser Bush and several other crewmen rowed to the North end of Douglas Island and walked the beach to opp. Juneau and came over in a canoe. The "Alert" went out to pick up the others. Her Capt. a man named Latham is the same man who was fired from the tug "J.M. Coleman" for refusing to attempt assistance to the ill-fated "Clara Nevada" last Mar. There were 23 pass. on board. She hit at 02:00 Nov. 25, 1898.

...Atter 1925, after transferring cargo her new owners performed

...sold her to Allen & Robinson for

...under Capt. Alex. Merrihut. She was auctioned on the peer...
Additional: Reputed in story to be the first iron ship built and during her launching it is said that large crowds in London turned out to watch her sink as it was generally believed that iron would not float. She was pictured later as a convict ship to Van Diemen's Land, a treasure ship, a pirate, a clipper—having beaten all records for speed, a ghost-ridden ship haunted by the cries of convicts in chains, of having consorted with Rajahs and Princes, and etc. Most of this is not true says Capt P.A. Mc. Donald in M.D. Dec. 2, 1950. He says first iron ship was the "Ironsides" a 450 tons vessel built in Liverpool, Eng. in 1838. Could not have been a prison ship as the practice of transporting prisoners ceased in 1847 to Aus. and to Tasmania (Van Diemens's Land) in 1853. Other claims of her career were discredited. She did however have one claim and that was the fact that she sailed 85 years under sail. She stranded on a reef off Diamond Head Aug. 29, 1896 while enroute from Westport, New Zealand to S.F. She was attempting to make Honolulu for supplies.

Story of sinking. Book 30. Page 17
Collided with the "Fenn Victory" in the early morning darkness of Aug. 13, 1947 about 3 miles off Race Point in the Straits of Juan de Fuca. There was an early morning fog prevailing. The Victory ship cut into her side about 14' on the stbd. between No. 1 and No. 2 holds. The tug "Salvage Chieftian" answered their distress calls and cut the two ships free with burning equipment since the Victory ships tow was tangled with the heavy cross-tree and mainmast shrouds of the Knot-ship. The tugs "Matilda Foss" & "Foss 21" began to tow her stern first into Crescent Bay. At 08:55 she rolled over on her side and sank about a half mile from shore in 135' of water. Adverse tides prevented them getting her in sooner. Fireman's Fund Ins. Co. paid claims of $982,258.55 to one cargo owner; $2,053,365.68 on another claim; $369,767.10 to another cargo owner; $16,000. for a small boat ("Ruth B") lashed on deck, and $12,000 to crewmen for personal effects.

DIANA

Pacific Sealing Ships  Canadian schooner

50 tons; O.N. 94611. 65.2' x 19.9' x 7.1'  Built at Victoria in 1889. First listed with the fleet in 1894 when she was owned by G. Collins with Capt. A. Nelson as Master. Carried a crew of 19 whites including 5 hunters and took 1961 skins on the Japan Coast and 433 on the Cooper Island grounds. She continued sealing at least as late as 1898 taking 327 skins that year.
DIANA

Pacific Sealing Ships           American schooner

150 tons: Snow, in writing of the year 1881 says:
"Some people from the American schooner "Diana", attempted
to land near one of the rookeries on Cooper Island, but
were fired upon by the natives. Several Jap sailors were
killed and other Japs and 2 European hunters badly wounded.
The vessel ran to Petropaulsky to get the wounded attended
to. The Russian officials confiscated some 500 skins,
which they claimed had been taken in Russian waters but
did not take her 91 otter skins," in his list of vessels
operating out of Yokohama, Snow lists, "Diana" sunk by
Russian steamer in Okhotsk Sea in 1904.

The only reference found in Snow's book reports:
On April 24, 1879 we found the remains of the sealing schooner "Dido" on the beach at Shikotan Island. One man had died of exposure but the rest had made shore safely.
1. Port broad, slow at sea. (Porthole)
First vessel to be completed in a Netherlands yard for the Holland-America Line since War II. Commissioned in '50 over-all and driven by a General Electric turbine developing 8500 h.p. which pushes her along at 16 1/2 knots. 11,195 tons and carries 61 passengers. Has 555,000 cu. ft. of hold space (139,000 refrigerated)
Latest addition to Holland-American Lines North Pac. fleet. 11,366 gross-tons arr. Portland Apr. 12, 1957 on her maiden trip. Holland-American Line has been in joint service to Pac. N.W. with Royal Mail Lines, Ltd.

She joins their fleet vessels in this trade—"Dalerdyk, "Dienmerdyk", "Dongdyk" and "Duivendyk"

She is 2nd. vessel of the name—the 1st one being commissioned in 1922 which was a war casualty in 1940 during the invasion of the Lowlands. She was at Rotterdam, fired and sunk to become a total loss.

The first vessel of the Co. to come to the N.W. was the "Eemdyk" in Sept. 1920/ Their fleet grew to the first "Dinteldyk", the "Damsterdyk", "Delftdyk" and "Drechtdyk". The Delftdyk" and "Damsterdyk" survived the war (War II) and after being repaired and refitted, were renamed "Dongdyk" and "Dalerdyk" respectively.

Power is a Pametralada cross-compound high-pressure turbine engine, with double-reduction gear. Steam furnished by two Foster-Wheeler boilers, with atomizer and super-heater. Outlet steam temp. is 500 degrees F. and pressure is 570 lbs. per sq. in. Oil burners & steam-warmed air heaters. Single screw; 504'; 16 knots; built by Wilton-Fyenoord Co.
Pacific Coast Steel Steam Schooners

4223 tons; built 1919 for U.S. Shipping Board at Downey Shipbuilding Co. Arlington, N.Y.

386.8' x 52.2' x 27.4' 3000 h.p. triple exp. eng.
Carried 7815 deadweight. Had a history similar to her four sisters:

Passed to Swayne & Hoyt around 1930 and renamed "Point Caleta" and then passed to Alcoa Line and renamed "Alcoa Cadet"
1. Port bow, still in stream. (Porthole)
Pacific Sealing Ships

Canadian schooner

87 tons; built in Lunenberg, Nova Scotia 1890:

75' x 23.5' x 9' O.D. 96826. Sailed from Halifax, N.S. Dec. 20, 1894 in command of Capt. Fred W Gilbert, with a crew of 25 bound for the Asiatic side of the Pacific. Ran from there to the Falkland Isds. in 48 days, putting in there for water. When off the southern end of the Falklands, several groups of fur seals were seen and and 36 days were spent in sealing there, as well as off the east and west ends of Staten Island. When bad weather forced them to suspend operations, they had taken 620 skins. She reached Victoria on May 21, 1895 and fitted out for the Aug. and Sept. season in Bering Sea, where 688 skins were secured. She continued sealing through 1898, but took only 30 skins in the latter year.

Jan. 16, 1906 A.S.S-Co. str. "Dirigo", lumber laden, Olympia to S.F. ran into a bad storm and was all but wrecked. Her crew had given her up and she was drifting helplessly when the str. "Shasta" came by. The "Shasta" picked her up and towed her into S.F.

$35,000.00

Hit rocks at Five Finger Id. in Nov. 1900 Badly damaged--
Arr. Seattle 9/19/1901 towing the "Cutch"
12/17/1901 she damaged her rudder about 60 miles above nanaimo B.C. on 14th. and had to go back to Vancouver, B.C. for repairs.

S.R.J. 4/22/99 says she hit in Wrangell Narrows 'recently' and repairs will run to over a third of her total value. (Probably refers to her crack up on Midway Id.) She was towed to Seattle by the Tug "Pioneer" which arr. Juneau 3/22/99 and had to wait for some law suits to be settled.

D.A.Disp. 2/8/1907 says she was disabled about 400 miles out of Seattle with boiler troubles and was picked up and towed to " " by the "Dolphin" arriving*here that last night. (At Seattle that is)

D.A.Disp. 4/17/1914 Says she replaced the "Dora" on the Westward run.

D.A.Disp. 5/5/1914 She ran ashore last night on Whidby Id. and was refloated today, undamaged.

D.A.Disp. 5/14/1914 she brok her low-pressure crank shaft on Mon. morning off Cape 'maney and drifted around for several hours until picked up Mon. morning by the "Cordova Capt. Tommy Moore. Towed to Juneau and to go on South.
Capt. Wm. Jensen was in command when she broke crank off Cape Omaney 5/14/1914.

D.A Disp. 11/13/1914 She is being towed from Seward to Seattle by the A.S.S.Co. str. "Cordova"

D.A Disp. 11/18/1914 "Dirigo" is reported to have foundered on Nov.16th, about 100 miles off Cape Spencer while being towed South by the Str. "Cordova" She was loaded with copper ore. Her crew of 12 men were all safely picked up by the "Cordova"

D.A Disp. 11/8/1914 Str. "Dora" is to go back on her old run and the "Dirigo" is to come to Seattle and have oil-burners installed.

D.A Disp. 6/30/1902 pp-3; "Dirigo" reported aground in Gulf of Georgia.

D.A Disp. 7/6/1902 pp4; "Dirigo" hit on the 'whaleback' reefs in Nanaimo Hbr., B.C. while leaving that port on June 27th at 17:00 Capt McGregor and pilot Geo Livingston; Passed on wrong side of a red buoy--?? Returned to Seattle to ascertain extent of damages.
10/19/1928/6 "Discoverer" 5 days overdue at Seward from her run. Storm raging. Fears felt. Capt Heinie Berger.

10/20/1928/6 M.V. "Discoverer" towed in with a broken tail shaft by the "Northwestern No. 2." She hit the buoy between Pearl Island and the mainland in heavy tide-rips. Several of her crew rowed to the island and got the fox farmers with their small power dories to tow her to the comparative safety of Portlock Hbr. 

4/8/1929/8 The M.S. "Discoverer," Capt. H. Berger, wrecked in storm at 01:30 on Sun the 7th of Apr. and may become a total loss! 50 pass. and crew left in lifeboats and none were lost.

4/20/1929/6 Word of the wreck of the "Discoverer" on Pt. Gore on Apr. 5th last was received here today. Capt. H. Berger. Hit 16 miles S.E. of Pt. Gore in heavy snow storm at 01:30 on night of April 5th. Sunk to her decks at 03:00 and pass and crew took to life-boats and were picked up 14 miles from the wreck by the fishing boat "Wyoming" AND taken to Portlock Hbr. then from
there to Seldovia on the "Paradise"

2/27/1933/6 (Obviously there were two vessels of that name!) H. Berger's new M.V. "Discoverer" was launched today by Berg Shipbuilding Co. in Seattle and will soon be placed on the Seward Mail runs.

3/29/1933/6 "Discoverer" arrives in Juneau---built in only 56 days!

4/2/1934/6 "Discoverer" ran aground at Klekane Inlet, B.C. enroute from Seattle. Arr. Ketchikan 10 days behind, and will repair her badly damaged propeller there.

11/25/1936 2nd Mate Barney Smith, 40 of the "Discoverer" swept off the decks of the vessel in gale off Pt. Gore. Capt. H. Berger says worst storm in his memory.

11/22/1938 Capt. 'Hardluck' Hanson, arr. J. southbound.

1/20/1939 MS "Discoverer" sends distress call from 15 mi. West of Tonki Cape on Kodiak Island today. Has 8 men on board. Unable to steer or manage her in seas and snow, and gale. C.G. "John C. Spencer" is 300 miles away off Cape Hinchinbrook and is speeding to assist her.
1. Stbd. broad at Westlake Engineering Works dock. G.

Empire July, Aug. 1929 says "Discovery" under Capt. Davis and with Sir Douglas Mawson are going on an Antarctic expedition end of 1929. They are to study air 30 miles up. The vessel was formerly a revenue cutter.
1. Port quarter sketch. Porthole Pict.
   Drawing modeled from an original sketch made by a crew member—the only one in existence.
Lieut Peter Puget in a longboat from Capt. Vancouver's ship "Discovery" was the first man to explore Puget Sound with a party of men in May and June 1792. Puget and Mr. Whidby made extensive trips around the Sound. When Vancouver entered the waters of Puget Sd. in 1892 he was joined by a smaller ship the "Chatham" in command of Lieut Wm. Robt. Broughton and together the two crews made charts etc.

The "Discovery" was a beany wooden vessel of 340 tons and carried 100 men and the "Chatham" was a brig-rigged vessel of 135 tons and carried 45 men.

In a lonely churchyard in Petersham, England lie the remains of Capt. George Vancouver and on his grave is a short epitaph reading "Died in the year 1798 at the age of 40" nothing more.

D.A.Disp. 10/19/1916 pp.2 The first account of a marine accident in Pacific Coast Inland waters was the story of the "Discovery" striking an unknown rock in Queen Charlotte Sound in Aug. 1772.

the others removed the engine and equipment from

days.
Built 1877 at Portland, Ore. 20.54 gross; 10.27 net; 60.2' x 10.5' x 4.4' 35 h.p. steam Originally built for the U.S. Qtr. Master Dept. at a cost of $80,000. In 1879 she was taken over the Cascade and Celilo rapids in pieces and re-assembled and lengthened at Fort Vancouver in 1885 (10' more) When no more money was appropriated to run her she was sold to Geo. T. Myers for $1700. He never used her and later sold her to Messers Gibson, Pierce and Martin for $4000. They took her to Alaska and arrived in Juneau Mar. 28, 1888. For a while she was on the Douglas Island run then Mr. Pierce became her sole owner. In Dec. 1889 Capt. P. Pierce with Mate R.R. Lowe and Eng. Ed. Thornton took her to Seymour Canal to tow logs from the camp of Talbot, McLeod and Lee. They had about 90,000 ft. logged and rafted to tow to Juneau and on Jan. 21, 1890 a strong wind came up from the Northwest and increased on the morn of the 22nd to gale force. The little steamer dragged her anchors and blew ashore before steam could be raised at 05:00 in the morning. She soon punched a hole in herself and filled with water. Her crew had to wait until the tide dropped then walk ashore over the rocks and about a mile back to the Deer Shot Logging camp. After the blow

Built 1886 at Astoria, Ore. 149 gross 88 net;
87.5' x 22.4' x 8.7' (Notice: Blue Books earlier
list her tonnage as 84 gross; and 60 net;.)
Alexander Allan in 'Hunting the Sea Otter' describes a voyage he made with Capt. H.J. Snow in the schooner "Snowdrop" out of Yokohama in 1875 and writes: "A little sloop called the "Dolphin" ran in and anchored along side of us. She was only 30' long and 9' beam, and had made an adventurous voyage from S.F. to Honolulu and thence to the Japan Coast. Three rough, grizzled old backwoods-men comprised her crew, and so small was the accomodation on board that, while two slept, the third steered, with one half his body out of the scuttle which answered also for cockpit. They were splendid shots, but did not have the proper equipment for otter hunting. Soon afterwards the "Dolphin" was found bottom up, capsized in a sudden squall, and her three men drowned."
O.N. 6396. This possibly was the 8-ton sloop owned at Port Townsend, Wash. in 1876 and not listed in 1879.
DOLPHIN

Pacific Sealing Ships

Canadian Steam Schooner

63 gross: 60 net: built at Victoria and launched on
Mar. 14, 1882. O.N. 83445 77' x 22.7' x 7.5'

Owned by Capt. J.D. Warren of Victoria, she was immediately fitted up for sealing and was commanded by Warren for a number of years. In 1886, she landed 2200 skins from Bering Sea at Victoria. The following year, she was seized in the Bering Sea on July 12 by the Cutter "Rush". Her 618 seal skins were confiscated and the vessel taken to Sitka where she was condemned by the Court and ordered sold. Sold at Marshall's sale at Port Townsend on Mar. 23, 1892 to William Olesn for $1225.00

Under the American flag, she became the "Louis Olsen" listed as 75 gross: 72 net, and 74.7' x 22.8' x 7.5'. Her steam engine was removed and she made Astoria her home port. Capt. Charles Haritwen commanded her for several years on the Japan Coast. In 1894 her skipper was Capt. R.F. Guilliams and she sailed from Astoria on Jan. 1, going south of Hawaii to the Bonin Islands and Japan Coast, where she took 1053 seals. Shipped her skins from

...
Hakodate and sailed across to Unalaska and entered Bering Sea. She took only 84 skins in Bering Sea and landed them at Victoria on Sept. 6. The following year she made a similar voyage, but was seized in Bering Sea by the "Rush" for hunting in a closed zone. What disposition was made of her is not known, but she does not appear to have engaged in sealing after this year.
1. No pict. (Sister ship to "Lisboa")
Dec. 13, 1949 she capsized off the Galapagos Islands. No lives lost in her 13 man crew. Owned by Al Davies of Tacoma and skippered by Capt. Mike Cusaito. Men picked up by clipper "Sun Victoria" Valued over $300,000 fully insured by Tacoma firm of Hansen and Rowland, Inc.

126' x 27' s.s. steel welded. Capacity of 300 tons.
1. No picts.
See "James Domville"
1. Stbd. bread, on beach at Nome. (Magazine cut)

DONERIC

Canadian frt.

C.P.R. 1906

Arrived Skagway 7/27/1906 towing a barge. Unit of C.P.R.
Port broad, slow. (Porthole)
The 10,942 ton vessel has twin diesels, which together develop 10,000 h.p. or nearly one horse for every gross ton of the ship. This pushes her along at a good cruising speed. When launched first as the "Delftddyk" the hull was constructed to the highest standards in 1929, and was soon to become the flagship of the North Pacific fleet. The 490' vessel now returns to the Pacific N.W. completely rebuilt, on her second 'maiden voyage' this time under the name "Dongedyk" owned by the same company.

Port, bow, in Lake Wn. handled by tug "Triumph"

Starboard bow at dock as A.T.S. (Benjamin Guimares)

Port bow, slow, Seattle as ATS FP 132

Being towed by tugs "Defiance" and "Dividend" in Lake Union.
2185 tons; completed early in 1920 for the Donna
Lane Motorship Co. of Seattle  245.5 x 46.7 x 23.6
Powered with two six cylinder McIntosh & Seymour diesels
of 500 h.p. each turning twin screws.
In 1925 she passed to I.C. Jacobsen of Seattle and
a couple years later was acquired by the Utopian Fisheries
of Seward, Alaska who sold her in 1941 to the Marine
Export Co. of N.Y. In April, 1944 she was reported sold
to Brazilian owners of Rie de Janeiro.

Built in Houghton, Wn. by the J.H.Price Construction
Co.

Info. Book 36; Page 13

Emp. 4/11/1928/6  First freezer ship to operate in Alaska.
She left Seattle today for the area around Kodiak Island
and in the Pr. Wm. Sd. area. Can also freeze about 50
tons of herring a day for bait.

10/6/1941/2  With a crew of 44 men, requests help in gale
120 miles from St. Paul Island (Sat. 10/4) The codfish
sch. "C.S.Holmes" is sailing to her aid.
DORA
Yukon River steamer

1. No picts.
Formerly the "Olive May" See card on the latter.
Owned by Klondyke Corp. Ltd. in 1900 (Adv. 5/31 Skagway)
Also had the "Ora", "Flora", and "Nora"

2. Stbd. broad, sails set, being towed. Port broad, at SW Alaska dock. (Magazine cut)

---

Wooden hull. 320 gross. 217 net. 112', 27' 2 x 12'.

She was in Juneau, Feb. 1, 1908 for the first time under the Alaska S.S.Co. flag—previously under N.W.S.S.Co. flag.

Empire for Mar. 1, 1919 says the "Dora" will soon be back in Southeastern Alaska waters as a vessel engaged in fishing trade and will have limited passenger accommodations. She had recently been purchased by Lars Mikkelson.

HISTORY BOOK 35; Page 11

Arrived Juneau late on 6th at 10:00 on Nov. 25th. Arrived Juneau late on 6th at 10:00 on Nov. 4, 1899 at 21:00 and was beached that night. Referred to Captain Johnsonen—passengers helped to bail, etc. She hit ground and was reported at Freewell before proceeding westward. Finally made Juneau but stopped by N.W. storm in Lynn Canal and had to turn there. Soft patch put on bow, returned and proceeded to Alaska Daily Dispatch, Nov. 11, 1899 says she hit on lee of Alaska Daily Dispatch.

She was in Juneau; July, 1899 in command of Capt.

I.D. B.C. (Queen Charlotte Sd.) in 1921.

The steamer "Steer" about 1920. She was wrecked on November 25th. Built in 1890 at S.F. Cellier. Used by the Alaska Commercial Co. on Prince William Sound until replaced by Commercial Co. on Prince William Sound.
ALASKAN (Sitka) 3/3/’94 says she was to run the mail from Sitka to the Westward starting July 1st 1894 (Run previously held by "Elsie"

ALASKAN (Sitka) 5/30/’94 under Capt. T.C.Hague, arr. Sitka from Unalaska.
ALASKAN (Sitka) 1895 Capt. Hansen of the "Dora" was previously on the A.C.Co. sch."Kodiak" (J.C.Hansen) and Chief Eng. Robert Monroe. Unit of A.C.Co.

ALASKAN (Sitka) 10/13/’94 Capt. J.M.Hays and Chief Winters.
ALASKAN (Sitka) 4/10/’97 says str. "Danube" reported that "Dora" hit rocks near Green Id. (Chatham Sd. B.C.) on night of Mar. 16th 1897 heavily loaded with coal for Alaska ports. Holed, boiler room flooded and engines out so crew launched boats and with aid of jib made it to Port Simpson where temporary repairs were made by D.A.Robertson of that place. Hit in sno storm and gale.
After being repaired some at Port Simpson she went on to Mary Id. where she dropped off her pass and returned to Seattle for permanent repairs at the Moran Bros. Yard. Capt. Anderson, formerly on the Str. "St Paul" was in command.

DOUGLAS ID. NEWS 7/19/99 says Capt Johansen, Chief Garrey, and Purser Fred Homer.

D.A.Disp. 2/16/1906 'Hope for "Dora" abandoned—"Santa Ana" to go on Valdev-Dutch Hbr. run in her place.

D.A.Disp. 1/27/1911 says she was overdue at Seattle from Seward and fears felt she may have wrecked in same storm that got the "Tees" and "Cottage City".

D.A.Disp. 12/9/1912 says she was blown away from the dock at Seward and onto the beach during a severe storm last night. Can be saved. Reported in a bad way on the 10th. Capt. C.B. McMullen
D.A. Disp. 12/13/1912 says she was still on the beach at Seward and being pounded mercilessly—may go to pieces.

D.A. Disp. 12/30/1912 says she was refloated today and will go South under her own power for repairs.

D.A. Disp. 1/11/1913 Arrived at Juneau about a week overdue from the Westward in a disabled condition. Was blowing bad out of Cross Sound so she went down the outside and came in at Decision and went on to Ketchikan instead of stopping at Juneau as scheduled. She had been abandoned to the Underwriters who sent Capt. E.C. Genereau up to look at her. He built a coffer dam around her, patched the hole, refloated her and she is able to run under own steam. Pilot Flynn (Jerry) who was to meet her in Juneau and take her south, left here on the "Dolphin" to board her at Ketchikan.

D.A. Disp. 1/25/1913 Mate Hoffman's license suspended for vessels trouble at Seward recently. Inspectors charge negligence.
See more info. on the story of her famous drift in the Pacific— pp. 62; Book 41.

Aground— Book 40; pp. 67

D.A.Disp. 11/8/1914 she will go back on her old run and relieve the "Dirigo" which will come to Seattle to have oil-burners installed.

D.A.Disp. 1/9/1915 "Fears felt for the "Dora" Left Kodiak for Seward 6 days ago in storm and is still unreported. Has 60 people on board.

D.A.Disp. 1/23/1916 "Dora" is long overdue at Seward— bad storm raging in the area.

D.A.Disp. 1/26/1916 "Dora" heavily iced arrived at Seward today. She reports that the marooned party on Fire Id. is not the "Traveller" bunch as they are safe in Seldovia. Capt. declares this is the worst storm in his memory.

D.A.Disp. 7/5/1916 "Dora" condemned at Uyak, where she recently struck a rock...

D.A.Disp. 9/30/1899 pp. 6 "Dora" is 3 days overdue from her mail trip to the Westward and a report has been circulated that she has wrecked— Fears felt.
2/24/1931/2 - Survivors of the famous 'drift' fail to attend annual reunion in Seattle. Purser W.E. Springston sat alone. Henry Moses was one of them and so was J.E. Thwaites, who was then mail clerk and is now a Ketchikan photographer.

See card on DRIFTS for account of the halibut "Baldy"
Also look up card on that Jap mystery ship that drifted across the Pacific the "Ryo Maru" (I think)
Interesting article about man who missed the boat on her famous drift. More pertinent info. (Book 39; pp 63)

VG History BOOK 35; pp 11
DORA

Old Gold Rush Str.

ALASKA NEWS 8/29/1895  V.G. The story of Capt. Hansen, of the str. "Dora" who made a deal to tow a sloop from Yakutat to Cook's Inlet for $25.00 down and $25.00 when they arrived at their destination. He started out with his tow and found that he nearly swamped the sloop in any moderate sea so being a gentleman he stopped the "Dora", gave the prospectors their money back and cut them loose. (The papers says only a real gentleman would have been so decent about it!)

D.A.Disp. 3/9/1904  "Dora" sold by A.S.S. Co. to Alaska Pacific Nav. Co. and will go on the run from Valdez to Dutch Hbr. and way parts. and return.

Empire: 2/21/1919 pp.2. Old str. "Dora" sold by A.S.S. Co. to Lars Mikkelson, and Co. who will use her in their Alaska fishing business.

Empire: 1/1/1921/8  "Dora" may be raised says Capt. Fred Hovick and Mate John Hartley. She slipped of the shoal she ran on several days ago and sank in 42' of water near where she had been beached. Was enroute from
Seattle to Unga and Dutch Hbr. with supplies for the cod-fishing stations of the Bering Sea Fisheries Co.

Emp. 1/18/1921/8 "Dora" is finished. Wrecked Dec. 20th on Noble Island...
DORA B

Old Juneau sloop
1900

1. No picts.
She was towed from Juneau to Lituya Bay by the str. "Dora" in Mar. 1900 with the following men on board: Geo. Cannon, Mr Van Buerlow, U.D. Baldwin, Frank Rankin and a Jap cook. She was reported lost during a gale at Yakutat Apr. 15, 1900 with all hands.

"Dora"B" was a 15 ton sch. 35.2' x 12.5' x 4.6' and built 1896 at Port Orchard, Wn.
DORA R.

Steel salmon seiner

For story of her grounding, etc. see Daily Journal 1958
93 tons, built at Lunenburg, Nova Scotia in 1891:
Official Number--100168  81.1' x 24.4' x 9.3'

Owned by Capt. H.F. Sieward and sometimes skippered by him, she first appeared in the Victoria sealing fleet in 1892. Other skippers were: Capt. R.O. Lavender and Capt. F. Cole. Her best reported catch was 2584 skins in 1894, when she was hunting on the Japan Coast. She continued in service at least as late as 1898, during which season she took 1114 skins.
DORIS
Wooden Steam Schooners of the Pacific Coast
Lyman

725 tons, built 1908 at Raymond, Wash. by John W. Dickie for Emil T. Kruse, of S.F.
Carried 800-M ft. and had 425 h.p. triple-exp. steam.
She was sold in 1917 to the Interisland Steam Nav. Co. of Honolulu, who renamed her the ONOMEA, and scrapped her in 1925.
1. Burned hull on beach near Petersburg. 1952
1. Assisting "Flying Enterprise II" (Towline Aug. '52)
1. (No pict.)
Built in 1945 at Tacoma 163 tons and 88' long recently purchased by L.J. Low of the Farwest Cannery in Wrangell from C.E. Anderson of the Seldovia Packers. Has twin 120 H.P. diesels.
1. Stbd. broad, a/s steam schooner in Lake Union. VG
2. Two: Stbd broad at P.C. Coal dock, Juneau, Sept. 1949
Emp. 4/7/1935 She ran aground on Douglas Island below the old Ready Bullion Mine and was expected to be refloated today without incurring any damage. Fog and in too close.
4/6/1935/6 Was seen today by Juneau and Thane residents high and dry on Bullion Creek flats. Not believed in any danger or damaged though.
1. Mag. cut. Stbd. bow in ice flows.
2. Port broad, caught in Arctic ice.
Emp. 4/18/1927/2 Capt. Ole Hvatum, here with his new boat the "Dorothy", formerly the trading sch. "Chukotsk" 104', owned by Swanson Trading Co. Will try to salvage engine from "Scandia" etc.

2/21/1941/6 "Dorothy", Capt. E.F. Trafton, and with Kinky Alexander on board, is here to go North to investigate commercial possibilities of processing king crab.
DOROTHY

Ex-halibut schooner

1/25/1935/6 M.S. "Dorothy" sold by Ole Hvatum to the N.W. Marine Dredging Co. of Portland to dredge off Southern Oregon.
DOROTHY

Sm. comb. steam and stern-wheel.

1. No picts.
6/22/98 paper says 'curious little craft' "Dorothy" was in port the last 10 days preparatory to loading for St. Michael. She is steam powered and has twin screws for the ocean trip and a stern-wheel for the river work. Doubts were expressed locally whether or not she would make the Gulf crossing.
DOROTHY

Old Yukon Riv. Wet-ass

1 No pict.
Wrecked at Cape Nome, Aug. 8, 1899 during a storm. Along with 3 other old River steamers. Owned by one James Dietrich. There was a possibility of her being saved.

Built 1898 at Seattle. She was repaired after her stranding at Nome Beach and was still on the Koyukuk in 1944.
3. Port broad, speed, at sea.  (Mag. cut)
Built 1907 at Camden N.J. as "President" for the Pacific Coast S.S. Co. Sold to the Adm. Line in 1916 and renamed "Dorothy Alexander". Laid up with rest of their fleet in 1930 when they went into receivership and some time later was released and sold to the Alaska S.S. Co. to become the S.S. "Columbia"

M.D. 2/2/1957 (20 yrs. ago--1937) Approval of sale of "D.A." 30-yr. old coastwise Pass. S.S. of Pac. S.S. Lines was given in S.F. Monday by Fed. Judge Harold Louderback. Purchaser was not disclosed (A.S.S.CO.) The price was set at $150,000.

Known to old-timers of the waterfront as the "honeymoon ship", the "Dorothy" formerly the "President" at one time held the speed record between Seattle and San Francisco.

Steel steam schooner.

1. Port bow, still in stream, fog. (Porthole)
Steel Steam Schooners of the Pacific Coast

Completed in 1919 at Albina yards, Portland, for U.S. Shipping Board. 2632 tons. Was last of 17 steel steamers built by ALBINA Engine & Mach. Works, during and immediately after World War I.

Sold in 1924 to Chas. Nelson Co. of S.F. by the Shipping Board.

Sold again in 1936 to Iniskin Drilling Co. of L.A. and renamed the INISKIN. Sent to Alaska, along with the barge COMMODORE to carry the materials and equipment for exploratory oil drilling.

1937 she was bought by the Northland Trans. Co. of Seattle and renamed the NORTH PACIFIC

1938 sold by them to the Santa Ana S.S. Co. of Seattle and replaced the W.M. TUPPER in the Seattle-Kuskokwim River trade.

M.D. 2/2/1957 (20 Years Ago--1937)
The treacherous bar at the mouth of the Columbia River has added another vessel to its graveyard of ships. At 17:00 Mon., the SS "Drexel Victory" outbound with a capacity cargo of wheat for Japan, struck the sands off Peacock Spit, tearing out her bilge plates.
She buckled, splitting her frames amidships as breakers smashed against her. The crew, under Capt. Canute Rommerdahl, fought the onrushing water for two hours until the pumps became useless. Then Rommerdahl ordered "Abandon ship!"
All 49 crewmen were rescued by the C.G. motor lifeboat "Triumph", the Liberty ship "Joseph Gaines" and the pilot boat "Columbia".
The 10,500 ton Victory ship was built at the Kaiser yds. in Richmond Calif., in 1945.
Built 1912 at Tacoma, Wn. 35 gross; 23 net;
56.1' x 15.9' x 6.5' Powered originally with an 80 h.p. Corliss gas engine.

D.A.Disp. 9/8/1913 says she was in Juneau today from the
F.O.Burkhart cannery at Chilkoot; Capt. H.M.Peterson.

Old 'Laker'

1. No pics.
Built at Chicago in 1903 and operated on the Great Lakes for many years. During War II she found her way out to the Pacific Coast under the ATS. Recently she was brought to Seattle from the Columbia River and has been bought by Nick Bez for the Peninsula Packing Co. one of his enterprises. What he plans to do is uncertain but it is believed he will make a fisheries Mother Ship out of her. 4749 tons and 381' long. Has 1500 h.p. steam.

M.D. Nov. 10, 1951

M.D. 6/25/1955 says she is bound for the scrap yards. Some conversion work was done on her in Louisiana in 1943 and in 1950 she was sold to Zidell Mach. and Supply Co. to be repaired for their new owners the Peninsula Pkrs. of Seattle.

She recently loaded scrap in Seattle and is bound for Japan. It is believed she herself would also be scrapped. 1955 Headed for Jap ship-breakers. (Book 44. pp 13.)
1. No pics. (Oct. 1, 1950)
Launched at Portland April, 17, 1918. Built by the old Grant-Smith-Porter Ship Co. of Aberdeen and Portland. On her first trip she was chartered by the U.S. Navy to carry supplies and ammo. to Pearl Hbr., Cavite and Guam. All went well until she left Guam for Manila with 60 people on board. Night of Oct. 16, 1918 she was hit by a bolt of lightning which set her on fire. It spread to the holds igniting the ammunition which forced the people to abandon ship. They went over in three boats—many suffering cuts and burns, etc. Two of the boats were picked up a few days later, but the third was driven off to the distant island of Samar, 24 days later and only after 18 of the 32 men in it perished from starvation and thirst, the survivors being driven to cannibalism. This episode was one of the tragic incidents of Pacific Ocean shipwrecks.

Built 1909 at Richmond Beach by the Puget Sound Shipbuilding Co. and went into active service as Seattle's Fire Boat on Jan. 15, 1910.

Recently converted from steam to diesel, etc. at the Commercial Ship Repair yards in Winslow.

Will pump 23,000 to 25,000 gals. per minute now as compared to about 9000 as a steamer.

With her 3 new 1000 h.p. each, diesels she is reputed to be the most powerful and efficient fire boat in the world and is undoubtedly the most effective fireboat in the entire country. The engines were purchased from the Navy for less than $5000. Now also has a new sharp bow. On latest trials she made 11 to 12 knots and pumped water 500' on all sides, Tests conducted off Blake Island.
