Ships of the Company:
"Flying Arrow"
"Flying Foam"
"Flying Clipper"
"Flying Trader"

The "Flying Enterprise" was lost off the Lizzard (Eng.) in Jan. of this year (1952).

Recall that the "Flying Arrow" was shelled by Chinese Nationalists and set on fire in Jan. 1950 while running supplies to Communist China. The British war ship "Black Swan" went to her aid and also helped extinguish the fires.

In Jan. 1952 one of their ships was at New York and the office force had to unload her as the Longshoremen were boycotting her---at the same time another of the Isbrandtsen ships was tied up at S.F. and has been for nearly a year due to labor dispute over her nefarious cargo destined to Communist countries.
