Hasselborg, Allen, 1876-1956

Papers of Allen E. Hasselborg, 1899-1955

MS 2

4 boxes
1.27 linear ft.

Processed by: Gladi Kulp, Nov. 1996
Revised by: Sandy Johnston, May 2014
Updated by: Jacki Swearingen, June 2014

ACQUISITION: The papers were donated by the Sitka Pioneers Home and Allen Hasselborg's sister, Mrs. C.C. Merritt, Fort Myers, Florida, ca, 1956. John R. Howe donated another group of Hasselborg papers in 1996, Accession no. 96-36, given to him by Elinor Gardner, Hasselborg's niece. Accession no. 96-42 was added to Ms 2 as a result of Barbara Stein's research in the Alaska State Library, Historical Collections. Stein, from the Museum of Vertebrate Zoology, University of California at Berkeley, sent photocopies of letters Hasselborg wrote to various Museum staff members. The original letters remain with the Museum. In December 1996, Robert Gardner, Hasselborg's grand nephew, donated 5 items. Accession no. 96-47. Box 4, Folders 1-3, added in 2005 (Accession no. 2005-028). Box 4, Folders 4-13, added in 2012 (Accession no. 2012-003).

ACCESS: The collection is unrestricted.

COPYRIGHT: Request for permission to publish material from the collection must be discussed with the Librarian. **PHOTOCOPYING DOES NOT CONSTITUTE PERMISSION TO PUBLISH.**

PROCESSING: The collection was originally arranged and described by the staff of the Alaska Historical Library. It was re-arranged and described in June 1996 based on current description and arrangement principles. The papers are arranged and described at the folder level. Correspondence, journals, and licenses are arranged chronologically. Correspondence files include other documents originally attached to or enclosed in the correspondence.

With the acquisition of accession no. 96-36 a third box was added to the Hasselborg Papers. The correspondence, mostly written by Hasselborg to his family, was arranged in chronological order and numbered at page top by donor John R. Howe's father, Calderon Howe. Because of paper deterioration, some of the letters were placed in mylar sleeves. Accession no. 96-42, the photocopied letters from the Museum of Vertebrate Zoology, was added to Ms 2 in November 1996. Accession no. 96-47, The Twin Grizzlies of Admiralty Island including annotations and items stored in the book, was added to Ms 2 in December 1996.

The original items in the collection were numbered in August 1997. Any item included with a letter, such as the envelope, is numbered the same as the letter. Photocopies from the Museum of Vertebrate Zoology were not numbered. Please note that no. of items listed on folders does not include envelopes or items enclosed with correspondence.

SCOPE AND CONTENTS NOTE

There are two original series in the collection, Correspondence Received and Other Documents. The correspondence consists of letters received by Hasselborg. It also includes telegrams as well as acknowledgment of gifts of specimens he donated or sold to the Museum of Vertebrate Zoology at the University of California at Berkeley. Other documents include journals kept on hunting trips, weather journals, a brief trapping journal, licenses issued to Hasselborg, newspaper clippings, photographs, and miscellany. These two series cover the period from 1907-1955.

With the addition of accession no. 96-36 a third series, Correspondence Sent, was added in 1996. This series primarily contains letters and postcards written by Hasselborg to his sisters Flora and Ebba. It also contains a few letters written to his mother and other family members. In 1954-1955 there is a sub-series of letters between Ebba and Flora. The Hasselborg sisters' letters were primarily about Allan Hasselborg's condition and whereabouts after he left his Mole Harbor homestead in 1954. This series also includes the John Holzworth book *The Wild Grizzlies of Alaska*, annotated by Hasselborg, a few newspaper clippings, and photographs of bears. To retain the provenance of this accession, these items are included with the correspondence in the third series.

With accession no. 96-42, a fourth series, Correspondence with Museum of Vertebrate Zoology, University of California, Berkeley, was added to Ms 2. These letters were written by Hasselborg to various Museum staff members from 1909 to 1937 and document his activities during this time period.

Accession no. 2005-028 and 2012-003 total 13 folders which include photographs, negatives, and interviews collected during the research for the book [Bear Man of Admiralty Island: A Biography of Allen E. Hasselborg](#) by John Howe.
