HISTORICAL AND SCOPE NOTES

This collection consists of hundreds of biographies of prominent Alaskans. The original collection of Alaskan Biography Files were gathered and/or written by Robert N. DeArmond and fit into one letter-sized archival box. Specifically, the collection consisted of 25 folders of biographies and 2 envelopes of unorganized political biography clippings. Many of those original files are from the 1950s-1960s.

The original files were photocopied and became part of a greater collection of biographies, added to by Mr. DeArmond and Historical Collections staff since 1988, known as the Biography File. The print copy of the Biography File is located in file boxes in the High Density shelving area, HD18 column 1. It has also been scanned and is available on the stand-alone computer in the Research Room. The Biography File cannot be posted on-line due to possible copyright issues. One box of original biographies and political biography clippings remains on the manuscript shelf as MS 27.
